RE: Phase I Environmental Site Assessment (Assessment) and Limited Asbestos and Lead Paint Sampling (Sampling)

Site: 1 to 11, 15 to 29, 33 to 43, 40 to 54, 51 to 65, 71 to 81, and 85 to 95 Turner Terrace; 1 to 11, 15 to 29, 31 to 43, 47 to 61, 65 to 79, and 85 to 97 Watchman Way; 700 to 714, 701 to 717, 730 to 744, 750 to 765, 762 to 774, 771 to 783, 803 to 815, 853 to 861, 873 to 879, and 901 to 915 Missouri Street; 1001 to 1029, and 1255 to 1275 Wisconsin Street; 1720 to 1740, and 1800 to 1828 26<sup>th</sup> Street; 900 to 914, 901 to 1079, 918 to 946, 950 to 978, 1000 to 1028, 1032 to 1050, 1054 to 1068, 1072 to 1090, 1100 to 1120, and 1130 to 1149 Connecticut Street; 1620 to 1638, 1700 to 1720, 1801 to 1855, 1820 to 1834, 1840 to 1860, 1864 to 1892, and 1901 to 1915 25<sup>th</sup> Street; and 1 to 49, 2 to 22, 30 to 48, 55 to 83, 60 to 88, 100 to 128, 101 to 129, 140 to 168, 145 to 173, and 174 to 194 Dakota Street, San Francisco, California

Dear Ms. Grady:

SCS Engineers (SCS) is pleased to present this report (Report) of the Assessment and Sampling of the above-described Site. This Report summarizes the results of the Assessment and Sampling that was conducted in order to evaluate the Site's current environmental conditions. The work described in this Report was performed by SCS in general accordance with Exhibit 00 to the Consultant Services Agreement (Contract) between SCS and Bridge Housing Corporation (Client). The Contract and Exhibit 00 were fully executed on April 29, 2009.

Because your full understanding of the Assessment and Sampling is important to us, SCS recommends that you read the Report in its entirety. However, if time does not allow you a complete reading, summaries may be found in text boxes at the end of each section (pages 12, 23, and 26), and our conclusions and recommendations may be found on page 33. A glossary of terms commonly used in environmental assessment is also provided as an appendix to this Report.

SCS enjoyed working with you on this project. Providing economic environmental solutions to meet your needs is more than our goal—it is our mission and the measure of our success. If we may assist you in any way, now or in the future, please do not hesitate to call our office at (858) 571-5500.

Sincerely

Cristobal A. Ramire Staff Professional

SCS ENGINEERS

## List of Figures

Figure 1. 4-Way Site Location Map Figure 2. Site and Site Vicinity Plan Figure 3. Photographic Plates

## Appendices

## 1 BACKGROUND

The Site is located on top of Potrero Hill and is generally bounded by Wisconsin Street to the West, 25<sup>th</sup> Street and 26<sup>th</sup> Street to the South, and the Potrero Recreation Center and 23<sup>nd</sup> Street to the North. The eastern edge of the property sits on a ridge paralleling Pennsylvania Street and Texas Street below. The Site is very steep with grades that exceed 30 percent in some locations. The Site reportedly covers approximately 33 acres of land.

SCS understands the units were constructed in two phases. The Potrero Terraces was the first phase, constructed circa 1941 containing 469 units. Circa 1955 the Potrero Annex was constructed as the second phase and contains 137 units.

It was reported that the Client is under contract with the City of San Francisco Housing Authority to redevelop the Site. Redevelopment activities reportedly include the demolition of current Site buildings and the construction of a newer public housing project.

## 2 ASSESSMENT STANDARDS BACKGROUND

This Assessment was conducted in general accordance with the following:

- Environmental Protection Agency (EPA), 40 CFR Part 312, Standards and Practices for All Appropriate Inquiries; Final Rule (AAI).
- American Society for Testing and Materials (ASTM) Standard Practice for Phase I Environmental Site Assessment Process E1527-05.
- The scope, conditions, and limitations of Exhibit 00.

The Client understands that the above-referenced EPA and ASTM standards were not developed to identify all environmental risk to property. The standards were developed to allow a user (Client) to qualify for the innocent purchaser defense, bona fide prospective purchaser defense, and contiguous property owner defense to the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (CERCLA, a.k.a Superfund) liability. This Assessment is intended to constitute an appropriate inquiry into the previous ownership and uses of the property consistent with good commercial or customary practice, as part of the due diligence process required by CERCLA, the Superfund Amendments and Reauthorization Act of 1986 (SARA), and the Small Business Liability Relief and Brownfields Revitalization Act of 2002 (Acts).

Please note that this Assessment may initially qualify the Client for a CERCLA defense; however, after purchase, there may be "continuing obligations" that must be implemented in order to preserve this defense through the term of property ownership. There may be additional requirements under state law that also apply. The Client should contact qualified legal counsel regarding matters of liability, interpretation of the Acts, and potential continuing obligations. While it is outside the scope of this Assessment, SCS would be pleased to work with your legal counsel to develop and implement a strategy to preserve your CERCLA liability defenses through the term of your ownership.

This Assessment focused on potential sources of hazardous substances and petroleum products that could be considered a *recognized environmental condition*<sup>1,2</sup> and liability due to their presence in significant concentrations (e.g., above acceptable limits set by the federal, state, or local government) or due to the potential for exposure and risk due to contaminant migration and complete exposure pathways (e.g., soil vapor inhalation or groundwater ingestion). Materials that contain substances that are not currently deemed hazardous by the United States Environmental Protection Agency (U.S. EPA) or the California EPA (Cal-EPA) were not considered as part of this Assessment.

Unless specifically included in SCS's scope of services, lead in drinking water, and building materials such as urea formaldehyde and pressure-treated lumber are not considered in this Report, nor are building issues such as fire safety, indoor air quality, mold, or similar matters. SCS did not evaluate the Site for compliance with land use, zoning, wetlands, or similar laws. This Assessment also excludes regulatory compliance, cultural and historic resources, industrial hygiene, health and safety, ecological resources, endangered species, and high-voltage power lines. This Report is not intended to be an environmental compliance audit.

Hazardous substances occurring naturally in plants, soils, and rocks (e.g., heavy metals, naturally occurring asbestos, or radon) are not typically considered in these investigations. Similarly, construction debris (e.g., discarded concrete, asphalt) is not considered, unless obvious indications suggest that hazardous substances are likely to be present in significant concentrations or likely to migrate.

An evaluation of business environmental risk associated with a parcel of commercial real estate may necessitate investigation beyond that included herein.

## 3 SAMPLING BACKGROUND

The Environmental Protection Agency (EPA) National Emissions Standards for Hazardous Air Pollutants (NESHAP) requires an inspection for asbestos to be performed on facilities which are to undergo demolition or renovation work. Materials found to contain asbestos may need to be removed prior to the start of demolition or renovation work. In addition, paint systems in poor condition ("loose and flaking") known to contain lead at concentrations greater than or equal to 1.0 milligram per square centimeter (mg/cm²) may need to be properly abated and/or stabilized prior to demolition.

<sup>&</sup>lt;sup>1</sup> Recognized environmental conditions, as defined by ASTM, include the presence or likely presence of hazardous substances or petroleum products on a property that indicate an existing release, a past release, or a material threat of release of any hazardous substances or petroleum products into structures on the property or into the ground, groundwater, or surface water on the property. However, the term is not intended to include *de minimis* conditions. A condition considered *de minimis* is not a recognized environmental condition.

<sup>&</sup>lt;sup>2</sup> De minimis condition. An environmental condition that does not generally present a material risk of harm to the public health or the environment and that generally would not be subject to an enforcement action if brought to the attention of appropriate governmental agencies.

## 4 OBJECTIVES

The objectives of the scope of services were:

- To assess the likelihood<sup>3</sup> that recognized environmental conditions are present at the Site as a result of the current or historical Site land use or from a known and reported off-Site source.
- Assess the possible presence and type of asbestos-containing materials (ACMs) in concentrations greater than 1 percent (by weight) in a limited number of building materials in a limited number of units and common areas within the Site buildings.
- Assess possible presence of lead-based paint (LBP) defined as lead content equal to or greater than 5,000 milligrams per kilograms (mg/kg) in readily accessible painted surfaces in a limited number of units and common areas within the Site buildings.

## 5 SCOPE OF SERVICES

The scope of services designed and conducted to meet the objectives was as follows:

- Site Reconnaissance, Site Research, Interviews, and User Requirements
- Topography, Geology, Soils, Hydrogeology, and Water Quality Survey
- Site Vicinity Reconnaissance and Off-Site Source Survey
- Historical Site and Site Vicinity Land Use Review
- Identification of Data Gaps
- Limited Asbestos and Lead Paint Sampling and Analysis
- Data Evaluation, Figure Preparation, and Assessment and Sampling Report Preparation

## SITE RECONNAISSANCE

On June 10, 11, and 12, 2009, SCS personnel conducted a Site reconnaissance to observe and document existing Site conditions. The general Site location is shown in Figure 1 and a Site and Site vicinity plan is shown in Figure 2. Selected color photographs of the Site and adjacent properties are presented as Figures 3a through 3m.

The interiors of the Site buildings were observed, and the Site grounds and Site perimeters were systematically traversed on foot during the Site reconnaissance. Ms. Tanya Purifoy, Potrero

<sup>&</sup>lt;sup>3</sup> Statements of "likelihood" are made in this Report, based on the professional judgment of SCS. A description of likelihood statements, as made in this Report, is included on page 37.

Annex Property Manager, and Mr. Ron Fazzio, Potrero Terrace Maintenance Manager, accompanied SCS personnel, provided access to the observed features, and answered questions posed by SCS personnel.

#### General Information

The following table summarizes general information in connection with the Site:

Address	1 to 11, 15 to 29, 33 to 43, 40 to 54, 51 to 65, 71 to 81, and 85 to 95 Turner Terrace; 1 to 11, 15 to 29, 31 to 43, 47 to 61, 65 to 79, and 85 to 97 Watchman Way; 700 to 714, 701 to 717, 730 to 744, 750 to 765, 762 to 774, 771 to 783, 803 to 815, 853 to 861, 873 to 879, and 901 to 915 Missouri Street; 1001 to 1029, and 1255 to 1275 Wisconsin Street; 1720 to 1740, and 1800 to 1828 26th Street; 900 to 914, 901 to 1079, 918 to 946, 950 to 978, 1000 to 1028, 1032 to 1050, 1054 to 1068, 1072 to 1090, 1100 to 1120, and 1130 to 1149 Connecticut Street; 1620 to 1638, 1700 to 1720, 1801 to 1855, 1820 to 1834, 1840 to 1860, 1864 to 1892, and 1901 to 1915 25th Street; and 1 to 49, 2 to 22, 30 to 48, 55 to 83, 60 to 88, 100 to 128, 101 to 129, 140 to 168, 145 to 173, and 174 to 194 Dakota Street, San Francisco, California
Area	33 acres
Site Land Use	Multi-family residences (MFR)
Occupant	Various residential tenants
Figure Reference	Figures 3a-1, 3a-2, 3b-1, 3b-2, 3c-1, and 3c-2

## Site Buildings and Site Grounds

#### Potrero Terrace

The following table summarizes information in connection with the Site buildings (Potrero Terrace):

Number of Buildings	38 MFR buildings and 1 administrative office building
Interpreted Construction Date	1941
Number of Stories	Three
Construction Type	Reinforced poured-in-place concrete exterior walls built over a concrete foundation
Figure Reference	Figures 3a-2, 3b-1, 3b-2, 3c-1, and 3c-2

Potrero Terrace complex consists of 469 units in 38 buildings located on a steep slope at the south slope of Potrero Hill. This portion of the Site is bound by Wisconsin Street, 23<sup>rd</sup> Street, Texas Street, and 26<sup>th</sup> Street. This portion of the Site reportedly covers 17.6 acres and slopes

steeply down north to south, from 23<sup>rd</sup> Street to 26<sup>th</sup> Street. The footprint of each building is aligned with the natural topography so that they are each oriented according to the slope. This gives the appearance that the buildings are situated randomly on the Site.

There are three types of buildings at this portion of the Site: E, F, and G, (described below) of which there are five, fifteen, and eighteen buildings, respectively. Potrero Terrace has 27 one-bedroom units, 387 two-bedroom units, and 55 three-bedroom units. There is also an administration building located at the corner of 25<sup>th</sup> Street and Connecticut Street.

From street each of the buildings is rectangular in plan, constructed of reinforced poured-in-place concrete, and features a hipped, mission barrel tile roof. Because of the steep slope of the Site, elevation of one end of each building is three levels, while the other end comprises only two levels. The three-story elevations feature a second floor balcony with metal wire mesh railing. The windows vary from what was reported to be the original windows (two-over-two double-hung wood sash windows) to vinyl double-hung and aluminum sliding sash windows. The entry doors are solid wood, while the second floor balcony doors are glazed aluminum with a sidelight and transom. The side elevations of the buildings feature a single entry door with wire mesh railing and a flat concrete awning projection above.

The "E" type building, which is the smallest of the three types at Potrero Terrace, contain eight units. The "F" type building, of which there are two subtypes, contain either ten and eleven units. The "G" type buildings, of which there are three subtypes that vary according to windows and door placements, each contain fifteen units.

The circulation between the buildings consists of concrete walkways, steps, and retaining walls. T-shaped pipes with clothlines strung between are for hanging wash. The landscaping is minimal and consists of grass and soil, with some mature trees.

## **Potrero Annex**

The following table summarizes information in connection with the Site buildings:

Number of Buildings	23 MFR buildings
Interpreted Construction Date	1955
Number of Stories	Two and Three
Construction Type	Concrete block/wood framed exterior walls built over a concrete foundation
Figure Reference	Figure 3a-1

Potrero Annex complex consists of 137 units in 23 buildings located on a steep slope at the northeast slope of Potrero Hill. This portion of the Site is bound by Missouri Street, 22<sup>nd</sup> Street, Pennsylvania Street and Watchman Way. This portion of the Site reportedly covers 15.4 acres and slopes steeply down from north to south, from 22<sup>nd</sup> Street to 23<sup>rd</sup> Street. A typical view of the interior of an apartment unit is shown in Figure 3d-1. The footprint of each building is

aligned with the natural topography so that they are each oriented according to the slope (Figure 3d-2).

Each of the buildings is rectangular in plan, constructed of concrete block-wood-framed, stucco-covered exterior walls, built over a concrete foundation. Roofs were observed to be wood framed and covered with mineral cap sheet. Because of the steep slope of the Site, elevation from street of one end of each building is three levels, while the other ends encoprises only two levels.

The circulation between the buildings consists of concrete walkways, steps, and retaining walls. T-shaped pipes with clothlines strung between are for hanging wash. Parking on the Site is in the form of head-on small parking lots along the streets. The landscaping is minimal and consists of grass and dirt, with some mature trees.

## Hazardous Materials/Petroleum Products

Hazardous materials and petroleum products observed to be used or stored at the Site, Potrero Terrace and Potrero Annex combined, included the following:

Hazardous Materials/Petroleum Products	Storage Location	Approximate Amount
Fiber reactive dye		Small retail quantities (SRQs) <sup>4</sup>
Paint		SRQs
Detergent		One 25-pound bag
Fabric softener	Storage area, Unit 79 Potrero Annex	Two 5-gallon containers
Liquid laundry bleach		Two 5-gallon containers
Stain cleaner		SRQs
Janitorial supplies (e.g. Windex, Joy, Clorox, etc.)		SRQs
Maintenance products (paint, paint thinner, )	Storage shed for Potrero Terrace area (Figure 3k-2)	SRQs
Gasoline	Storage area Potrero Terrace Administrative Office (Figure 31-2)	Three 5-gallon and four-3-gallon containers

## Hazardous Wastes

No obvious indications of the generation of hazardous wastes were observed at the Site during the Site reconnaissance. In addition, Ms. Porifoy (Potrero Annex) and Mr. Fazzio (Potero Terrace) stated that no hazardous wastes are generated at the Site.

Phase I Environmental Site Assessment Limited Asbestos and Lead Paint Sampling

<sup>&</sup>lt;sup>4</sup> Quantities of hazardous materials in containers of 5 gallon or less, and less than 50 gallons in aggregate.

## Indications of Releases of Hazardous Materials/Wastes or Petroleum Products

The following table summarizes the various indications of releases of hazardous materials/wastes or petroleum products that were noted during the Site reconnaissance and the likelihood<sup>5</sup> that these interpreted releases may have impacted the subsurface at the Site, and whether or not the release is considered to be a recognized environmental condition (REC) or a *de minimis*<sup>6</sup> condition as defined by ASTM.

Location	Material/Waste	Indications of Release	Likelihood of Subsurface Impact	REC or de minimis
Parking areas	Lubricating oil	Staining to asphalt and concrete pavement	Low	de minimis

The minor surficial staining (interpreted to be from automotive lubricants) to asphalt and concrete pavement of the parking areas of the Site are considered likely to be *de minimis* as defined by ASTM.

#### On-Site Utilities

Gas and Electricity	Reported to be Pacific Gas and Electric	
High-Power Transmission Lines	None observed at or adjacent to the Site	
Storm Drains	None observed at Site	
Source of Heating and Cooling	Heating is supplied to the units via boilers (operated by natural gas) that service multiple buildings. There are no cooling systems.	
Potable Water Source	Reported to be supplied by the City of San Francisco Water Services	
Wastewater Conveyance	Reported to be supplied by the City of San Francisco Water	
	Services, Wastewater Department	

Eight Pacific Gas and Electric (PG&E) pole-mounted electrical transformers were observed to be located at the Site. PG&E has been contacted regarding the possibility of polychlorinated biphenyls (PCBs) being present in transformers purchased by them. PG&E has reported that they have never specified PCBs in their transformers. No obvious indications of leaks such as stained concrete were noted near the transformers.

Although not considered a REC, SCS conducted a visual assessment of the Site building for the possible presence of PCB-containing light ballast. SCS observed several light ballasts at the office building. Although, SCS did not observed lights ballasts labeled as "PCB-Containing," prior to being disturbed as a result of demolition activities, light ballast should be inspected and

<sup>&</sup>lt;sup>5</sup> The likelihood that a release of hazardous material/waste or petroleum product has impacted the subsurface is based on one or more of the following: SCS experience with similar releases; the chemical properties of the substance released; the amount and/or frequency of the release; and, the presence or absence of potential pathways to the subsurface.

<sup>&</sup>lt;sup>6</sup> Releases that have impacted the subsurface may still be considered a *de minimis* condition if they do not present a material risk of harm to the public health or the environment and that generally would not be subject to an enforcement action if brought to the attention of appropriate governmental agencies.

the ones that contain PCBs (labeled as PCB-containing or not labeled) and the fluorescent light bulbs, must be removed and properly disposed prior to demolition.

In addition, SCS conducted a visual assessment of the Site building for the possible presence of mercury-containing thermostats. SCS observed several thermostats at the administrative office building, all of which may contain mercury. Prior to being disturbed as a result of demolition activities, thermostats containing mercury must be removed and properly disposed prior to demolition.

No obvious indications of wells, cisterns, pits, sumps, dry wells, or bulk storage tanks were observed at the Site.

## SITE RESEARCH

## San Francisco Department of Environmental Health (DEH) File Review

The DEH was contacted<sup>ii</sup> and reported that they have no files for the Site.

## San Francisco Department of Public Works (DPW), Underground Tanks Division File Review

The DPW Underground Tanks Division was contacted<sup>iii</sup> and reported that they have no files for the Site.

## San Francisco Department of Public Health (DPH) File Review

The DPH was contacted<sup>iv</sup> and reported that they have no files for the Site.

## San Francisco Department of Public Works (DPW), Hazardous Materials Unified Program File Review

The DPW Hazardous Materials Unified Program was contacted and reported that they have no files for the Site.

## Fire Department Records Review

The City of San Francisco Fire Department (SFFD) was contacted regarding records for the Site. Vi The following table summarizes the SDFD records provided for the Site. Copies of the records are included in the Appendix.

Year	Description	Address / Reported Owner
Not reported	Apartment building with no emergency exit	903 Connecticut Street / San Francisco Housing Authority

Year	Description	Address / Reported Owner
7-10-2006	Unit defective fire alarm system	1029 Wisconsin Street / San Francisco Housing Authority
1-12-2006	Large family daycare	1820 25 <sup>th</sup> Avenue / San Francisco Housing Authority
1-24-2006	Fire in boiler room	61 Turner Terrace / San Francisco Housing Authority
3-21-2006	Fire in building	59 Turner Terrace / San Francisco Housing Authority

## **Building Department Records Review**

The City of San Diego Building Department (SDBD) records were reviewed for the Site and are summarized in the table below. VII Copies of the SDBD records for the Site are included in the Appendix.

Address	Permit Number	Date Approved	Description	Reported Applicant/Owner
N/A	49804	1-18-1940	Construct 38 multi-family buildings. Portions of blocks bounded by 23 <sup>rd</sup> to 26 <sup>th</sup> Streets, and Texas to Wisconsin Streets.	Housing Authority of the City and County of San Francisco
1095 Connecticut Street	402054	6-19-1975	Shower installation with bathroom wall waterproofing and kitchen remodeling	San Francisco Housing Authority
1100 Connecticut Street	571012	4-22-1985	Eliminate rodent and/or cockroach infestation on premises, clean, paper, or paint walls and ceilings of vacant units	San Francisco Housing Authority
1130 Connecticut Street	570947	7-06-1986	Repair/replace missing plaster in 1146, water-proof bath in 1146, clean, paper, or paint walls and ceilings in 1132, remove, replace, and/or replace deteriorated faucets, toilets in units 1132, 1134, 1138, and 1146	San Francisco Housing Authority
1054 to 1068 Connecticut Street	667800	5-14-1987	Provide stairway/fire escape for second means of egress and provide approved type fire extinguishers in public halls at each floor	San Francisco Housing Authority
1032 to 1050 Connecticut Street	667802	5-14-1987	Provide stairway/fire escape for second means of egress, provide approved type fire extinguishers in public halls at each floor, clean or paint ceilings in all vacant units, and check up plumbing fixtures and facilities in all vacant units	San Francisco Housing Authority

Address	Permit Number	Date Approved	Description	Reported Applicant/Owner
1700 to 1720 25 <sup>th</sup> Street	571001	7-06-1987	Provide approved type connectors for gas appliances, provide stairway/fire escape for second means of egress, provide approved fire extinguishers	San Francisco Housing Authority
1072 to 1090 Connecticut Street	667803	3-20-1991	Provide stairway/fire escape for second means of egress, provide approved type fire extinguishers in public halls at each floor, clean or paint ceilings in all vacant units, and check up plumbing fixtures and facilities in all vacant units	San Francisco Housing Authority
1032 to 1050 Connecticut Street	756101	10-6-1994	Lead-based paint abatement at roof eaves and apartment egress windows, replace broken roof tiles, install new sheet metal quitters, repair concrete spalls at decks and walls, and apply new resinous coating at balcony	San Francisco Housing Authority
1059 to 1079 Connecticut Street	756097	10-7-1994	Lead-based paint abatement at roof eaves and apartment egress windows, repair concrete spalls at decks and walls, apply new resinous coating at balcony, and install new windows	San Francisco Housing Authority
1054 to 1068 Connecticut Street	756105	10-7-1994	Lead-based paint abatement at roof eaves and apartment egress windows, repair concrete spalls at decks and walls, apply new resinous coating at balcony, and install new windows	San Francisco Housing Authority
1072 to 1090 Connecticut Street	756095	10-7-1994	Lead-based paint abatement at roof eaves and apartment egress windows, repair concrete spalls at decks and walls, apply new resinous coating at balcony, and install new windows	San Francisco Housing Authority
1130 to 1144 Connecticut Street	756096	10-7-1994	Lead-based paint abatement at roof eaves and apartment egress windows, repair concrete spalls at decks and walls, apply new resinous coating at balcony, and install new windows	San Francisco Housing Authority
1095 Connecticut Street	756102	10-7-1994	Lead-based paint abatement at roof eaves and apartment egress windows, repair concrete spalls at decks and walls, apply new resinous coating at balcony, and install new windows	San Francisco Housing Authority

Address	Number Approved  0 to 756092 10-7-1994 Lead-based paint abatement at roof eaves and apartment egress windows, repair concrete spalls at decks and		Reported Applicant/Owner		
1100 to 1120 Connecticut Street			San Francisco Housing Authority		
1255 to 1275 Wisconsin Street	756129	10-7-1994	Lead-based paint abatement at roof eaves and apartment egress windows, repair concrete spalls at decks and walls, apply new resinous coating at balcony, and install new windows	San Francisco Housing Authority	
1620 to 1638 25 <sup>th</sup> Street	756087	10-7-1994	Lead-based paint abatement at roof eaves and apartment egress windows, repair concrete spalls at decks and walls, apply new resinous coating at balcony, and install new windows	San Francisco Housing Authority	

## INTERVIEWS

The above-referenced EPA and ASTM standards require that attempts be made to conduct interviews with past and present owners and occupants of the Site to obtain information indicating recognized environmental conditions in connection with the Site. As part of this Assessment, the following contacts were either interviewed or attempts were made to conduct interviews.

Contact	Affiliation to Site	Description		
Ms. Tanya Purifoy	Potrero Annex Property Manager	Discussed below		
Mr. Ron Fazzio	Potrero Terrace Maintenance Manager	Discussed below		
Dominica Henderson Owner's representative Disc		Discussed below		
Lisa Grady	Site developer	See the Users Requirements section below		

Ms. Tanya Purifoy, Potrero Annex property manager, reported that she has been the property manager for this portion of the Site since 2008. Ms. Purifoy reported that the San Francisco Housing Authority has been managing the property since the Site was constructed circa 1955. Aside from what was observed during the Site reconnaissance, Ms. Purifoy was unaware of the current or former existence of hazardous materials/wastes and/or underground storage tanks (USTs)/aboveground storage tanks (ASTs) at the Site or of hazardous substance releases on-Site or in the Site vicinity.

Mr. Ron Fazzio indicated that he has been the property manager for Potrero Terrance since 1992. Mr. Fazzio reported that this portion of the Site was first developed with the current buildings and has been used as a residence ever since. Mr. Fazzio is unaware of any previous development

of the property. Mr. Fazzio explained that the only chemicals used or stored on-Site include SRQs of janitorial supplies and landscaping supplies, which are stored in the storage shed and storage area at the office building. Mr. Fazio also stated that the source of heating at the Site is boilers operated by natural gas since 1941. With the possible exception of the hazardous materials listed in the table above, Mr. Fazzio is unaware of the current or former existence of hazardous materials/wastes and/or USTs/ASTs at the Site.

Ms. Dominica Henderson, current owner's representative stated that to her knowledge, and with the possible exception of typical maintenance supplies, hazardous materials and petroleum products are not used or stored; hazardous waste is not generated at the Site. Also to her knowledge there have been no releases of hazardous materials, petroleum products, and/or hazardous waste at the Site.

## USER REQUIREMENTS

In order to qualify for one of the landowner liability protections offered by the Small Business Liability Relief and Brownfields Revitalization Act of 2001 (discussed in the Background section above), 40 CFR Part 312 requires that the user (Client) provide the following information to the environmental professional. The following table summarizes the responses by the Client.

Question	Response
Have environmental cleanup liens been filed or recorded against the Site?	
Are activity or land use limitations in place at the Site or have they been filed or recorded in the registry?	No
Does the user have specialized knowledge or experience in connection with the Site?	No
Does the purchase price being paid for the Site reasonably reflect the fair market value of the Site?	Yes
Is the Client aware of commonly known or reasonably ascertainable information about the Site, which would indicate releases or threatened releases?	No
Are there obvious indications that point to the presence of contamination at the Site?	No

## DATA GAPS IN CONNECTION WITH CURRENT SITE LAND USE

Based on observations and research, there are no obvious indications of data gaps in connection with the current Site land use.

## Findings and Opinions—Current Site Land Use

Based on observations and research, there is a low likelihood that a recognized environmental condition exists at the Site as a result of the current Site land use.

Prior to being disturbed as a result of demolition activities, light ballast identified as PCB-containing or not labeled and fluorescent light bulbs, must be removed and properly disposed.

In addition, prior to being disturbed as a result of demolition activities, thermostat containing

## Findings and Opinions—Current Site Land Use

mercury identified at the Site building must be removed and properly disposed.

# TOPOGRAPHY, SOIL, GEOLOGY, HYDROGEOLOGY AND WATER QUALITY SURVEY

## Topography

A topographic map for the Site vicinity was reviewed and is summarized in the following table:

Reported Elevation	200 feet above mean sea level		
Reported Slope Direction	Reportedly slopes down to the south, southeast, and east		
Source	United States Geological Survey 7.5 Minute Topographic Map, San Francisco		
	North Quadrangle, California - San Francisco, 1968		

## Soil Survey

A soil survey for the Site vicinity was reviewed and is summarized in the following table:

Reported Soil Type	Quaternary sands		
Reported Description	Includes some Quaternary sands, sandstones and mudstones, some Upper		
Tertiary sandstones, mudstones and limestone, some Lower Tertian			
The second second	mudstones and sandstones, and Franciscan melange and serpentinite.		
Source	San Francisco, Soil Survey, San Francisco City and County, California, by the		
	United States Department of Agriculture, issued December 1973		

## Geology

A geological map for the Site vicinity was reviewed and is summarized in the following table:

Reported Formation Holocene alluvial fan deposits				
Reported Description	Alluvial fan sediment includes sand, gravel, silt, and clay, and is moderately			
	to poorly sorted, and moderately to poorly bedded.			
Source Rocks and Geology in the San Francisco Bay Region, San Franc				
<u> </u>	by Phillip Stoffer, United States Geological Survey Bulleting 2195, 2002			

## Hydrogeology

Data regarding groundwater depth and flow direction for the Site were not readily available. In the absence of Site-specific data, groundwater depth and flow direction information was reviewed for a property located adjacent to the south of the Site.

Property Location Approximately 250 feet south of the Site (1095 Indiana Street)			
Reported Depth	7 to 9 feet below grade. The Site is on top of a hill approximately 200		
	feet above sea level. Therefore groundwater depth is estimated to be 207		
	to 209 feet below grade at the Site.		

Reported Flow Direction South to southeast				
Source	Final Quarterly Groundwater Monitoring Report, Fourth Quarter 2007, Yellow Cap Cooperative, 1200 Mississippi Street, San Francisco, California, Clearwater Group Environmental Services, Inc. (Clearwater), dated March 25, 2008.			

Please note that many variables influence groundwater depth and flow direction, and the actual depth and flow direction at the Site may be different than presented in this section.

## Water Quality Survey

The following table summarizes the reported water quality in the Site vicinity:

Reported Groundwater basin	Islais Valley A (Basin 2-33A)
Reported Beneficial Use	Beneficial uses in this basin include existing uses for process and
	industrial uses and potential uses for municipal and agricultural uses
Source	RWQCB's Comprehensive Water Quality Plan (Plan)

# SITE VICINITY RECONNAISSANCE AND OFF-SITE SOURCE SURVEY

## **Current Site Vicinity Conditions**

The following table summarizes land use and observations in the immediate Site vicinity. Viii For the purpose of this Report, the immediate Site vicinity includes those properties judged to be adjacent to the Site.

Direction	Land Use	Comments
North	999 Wisconsin Street, and 1800 to 1824 23rd Street (multi-family residential [MFR]) (Figure 3e-2)  789 Arkansas Street (Potrero Hills Recreation Center) (Figure 3f-1)  696 to 698 Missouri Street (MFR) (Figure 3f-2)  650 to 670 Texas Street (MFR) (Figure 3g-1)	No obvious indications of the use, storage, or generation of hazardous materials/wastes or petroleum products were observed.

Phase I Environmental Site Assessment Limited Asbestos and Lead Paint Sampling

<sup>&</sup>lt;sup>7</sup> Adjacent is defined by ASTM E1527-05 as any real property the border of which is contiguous or partially contiguous with that of the Site or would be contiguous or partially contiguous with that of the Site but for a street, road, or other public thoroughfare separating them.

Direction	Land Use	Comments
	790 Pennsylvania Street (California Mini Storage) (Figure 3g-2)	No obvious indications of the use, storage, or generation of hazardous
	898 Pennsylvania Street (Trayer Engineering Corporation) (Figure 3h-1)	materials/wastes or petroleum products were observed; however,
East	900 Pennsylvania Street (San Francisco Food Bank) (Figure 3h-2)	hazardous materials/ wastes are judged likely to be present at adjacent
	1030 to 1079 Texas Street (MFR)	facilities as discussed in the Permits section below.
	1518 to 1522 25 <sup>th</sup> Street (MFR)	
South	1232 Connecticut Street (San Francisco Millwork Incorporated) (Figure 3i-2)	Hazardous materials/wastes or petroleum products use,
	1113 Connecticut Street (Heieck Supply)	storage, or generation were observed and are discussed in the Additional
	1 200 Mississippi Street (Yellow Cab Corporation) ( Figure 3i-1)	SCS Research section below.
West	1208 to 1280 Wisconsin Street (SFRs)	No obvious indications of the use, storage, or generation of hazardous
	1105 to 1926 Wisconsin Street (SFR and MFR)	materials/wastes or petroleum products were observed
	1106 to 1120 Wisconsin Street Star King Elementary School) (Figure 3j-2)	observed .
	1000 to 1050 Wisconsin Street (SFR, MFR, and Health Center)	

## Environmental FirstSearch™ Site Assessment Report

A Site Assessment Report<sup>ix</sup> was prepared by the FirstSearch Technologies Corporation (FirstSearch) for the Site. Local, state, and federal regulatory databases were reviewed for the Site and for those facilities within up to 1 mile of the Site. The FirstSearch report was reported to have been prepared in general accordance with the ASTM standard for the regulatory database review for Phase I Environmental Site Assessments. The locations of the referenced facilities relative to the Site are shown on FirstSearch's *Map of Sites within One Mile*, which is included in its report. A description of the various databases, as well as the date each database was most recently updated, is included in the FirstSearch report. The FirstSearch report is attached as an appendix to this Report.

Based on a review of the FirstSearch Report, the following table summarizes the facilities within the selected search circumferences, and whether the Site or a facility that was interpreted to be adjacent to the Site was listed on each database.

Federal or State Government Database	Search Radius	Number of Reported Facilities	On Site	Adjacent to the Site
National Priorities List (NPL)	1.00 mile	0	No	No
Comprehensive Environmental Response Compensation and Liability System (CERCLIS)	0.50 mile	0	No	No
No Further Remedial Action Planned (NFRAP)	0.50 mile	7	No	No
Resource Conservation and Recovery Act- Corrective Action (RCRA COR ACT)	1.00 mile	1	No	No
RCRA Treatment and Disposal Facilities (RCRA TSD)	0.50 mile	0	No	No
RCRA Generators (RCRA GEN)	0.25 mile	20	No	Yes
RCRA no longer listed facilities (RCRA NLR)	0.125 mile	0	No	No
Federal Engineering and Institutional Controls (IC/EC)	0.25 mile	0	No	No
Emergency Response Notification System (ERNS)	0.25 mile	2	No	No
Tribal Lands	1.00 mile	0	No	No
State/Tribal Sites	1.00 mile	14	No	No
Spills-1990	0.125 mile	0	No	No
State/Tribal solid waste list (SWL)	0.50 mile	4	No	No
State/Tribal leaking underground storage tanks (LUST)	0.50 mile	85	No	Yes
State/Tribal underground/aboveground storage tanks (USTs/ASTs)	0.125 mile	5	No	No
State/Tribal deed-restriction site listing (EC/IC)	0.125 mile	0	No	No
State/Tribal voluntary cleanup program (VCP)	0.50 mile	2	No	No
State/Tribal Brownfields	0.50 mile	0	No	No
State Permits	0.125 mile	5	No	Yes

The following sections discuss facilities identified on the regulatory database within the required search radii. The tables in the following sections summarize the following information: facility name, address, distance and direction from the Site, status, the likelihood that the facility has resulted in a recognized environmental condition at the Site, and the rationale for this judgment. The following table provides definitions for abbreviations found in the Rationale column in the tables below:

Abbreviation	Definition	
S	Regulatory status (e.g., case closed)	
СТ	ase type (e.g., soil only)	
D	Distance from Site	
GWD	Reported depth to groundwater in the Site vicinity	
GWF	Reported groundwater flow direction	

## Known, Reported, or Suspected Releases within the Site Vicinity

## No Further Remedial Action Planned (NFRAP)

Seven facilities, within 0.5 mile of the Site, were identified on the NFRAP database. These facilities are summarized in the following table:

Facility (Distance and Direction from Site)	Status	REC	Rationale*
Karkar General Signal 1920-2190 Army Street (0.18 mile southeast)	Case closed, no further remediation action planned.	Low	S, CT, D, GWF
Federated Fry 1901 Army Street (0.19 mile southeast)	Case closed, no further remediation action planned.	Low	S, CT, D, GWF
ASARCO 1901 Army Street (0.19 mile southeast)	Case closed, no further remediation action planned.	Low	S, CT, D, GWF
NL INDS Inc. 2240 24th Street (0.19 mile southwest)	Case closed, no further remediation action planned.	Low	S, CT, D, GWF
PG&E Potrero Power Plant 1201 Illinois Street (0.45 mile northeast)	Case closed, no further remediation action planned.	Low	S, CT, D, GWF
Armstrong James Vacant Lot 2250 Jerrold Avenue (0.49 mile southwest)	Case closed, no further remediation action planned.	Low	S, CT, D, GWF
Southwest Marine Illinois Street and 20 <sup>th</sup> Street (0.50 mile northeast)	Case closed, no further remediation action planned.	Low	S, CT, D, GWF

## **Notes:**

REC: Likelihood that the facility has resulted in a recognized environmental condition at the Site.

\*: Rationale abbreviation definitions are provided in the table at the beginning of this section above.

## **RCRA COR**

One facility, within one mile of the Site, was identified on the RCRA COR database. This facility is summarized in the following table:

Facility (Distance and Direction from Site)	Status	REC	Rationale*
Potrero Power Plant 1201 Illinois Street (0.46 mile northeast)	Case closed, no further remediation action planned.	Low	S, CT, D

#### **Notes:**

REC: Likelihood that the facility has resulted in a recognized environmental condition at the Site.

\*: Rationale abbreviation definitions are provided in the table preceding this section above.

## **State Sites**

Fourteen facilities, within 1 mile of the Site, were identified on the State Sites database. These facilities are summarized in the following table:

Facility (Distance and Direction from Site)	Status	REC	Rationale*
Infoimage, Inc. 890 Pennsylvania Avenue (0.13 mile northeast)	Inactive since 1992 (Soil contaminated with lead)	Low	S, D, CT, GWF
2222 Limited 2222 24 <sup>th</sup> Street (0.18 mile southwest)	Certified (Contaminated soil was excavated and disposed at a Class I landfield. Confirmation samples taken of the remaining soil met cleanup levels)	Low	S, CT, D, GWF
San Francisco Newspaper Agency 1901 Cesar Chavez (0.19 mile southeast)	Certified/ Operation and Maintenance (Soil only)	Low	S, CT, D, GWF
Federated Fry Metals Division of ASARCO (0.19 mile southeast)	Certified/ Operation and Maintenance (Soil only)	Low	S, CT, D, GWF
NL Industries, San Francisco Paint Plant 2240 24 <sup>th</sup> Street (0.19 mile southeast)	No further action for Department of Toxic Substance Control (DTSC)	Low	S, D, GWF
Pioneer Soap Co. 470 Carolina Street (0.38 mile northwest)	Property referred to another agency	Low	S, D
Western Pacific Railroad Yard 25 <sup>th</sup> and Illinois Streets (0.42 mile northeast)	Property referred to another agency (RWQCB)	Low	D, GWF
PG and E Potrero Power Plant 22 <sup>nd</sup> and Illinois Streets (0.47 mile northeast)	Backlog, potential AWP Site	Low	D, GWF

Facility (Distance and Direction from Site)	Status	REC	Rationale*
Polita Hawley Forge 2350 Jerrold Avenue (0.47 mile southwest)	Certified (Metals contaminated soil)	Low	CT, D, GWF
Ruber, E. G. and Sons 725 18 <sup>th</sup> Street (0.50 mile northeast)	Site referred to another agency (No problem based on Quest)	Low	D, DWF
North Half Of Mississippi Street 17 <sup>th</sup> and Mississippi Street (0.54 mile northeast)	Site referred to another agency (REFOA)	Low	D, DWF
Deharo/Rhode Island Live/Work 16th and 17th Streets (0.59 mile northwest)	Voluntary Cleanup Agreement Complete	Low	S, CT, D
Consolidated Iron Works 634 Townsend Street (0.97 mile northwest)	Certified (Soil contaminated with metals. After 1984's inspection showed the source of metals had been removed.)	Low	S, CT, D

#### Notes:

REC: Likelihood that the facility has resulted in a recognized environmental condition at the Site.

\*: Rationale abbreviation definitions are provided in the table preceding this section above.

#### **ERNS**

Two facilities, within 0.25 mile of the Site, were identified on the ERNS database. These facilities are summarized in the following table:

Facility (Distance and Direction from Site)	Status	REC	Rationale*
1504 25 <sup>th</sup> Street (0.09 mile northeast)	Fixed	Low	GWF
Golden Dragon Printing 699 Mississippi Street (0.12 mile northeast)	UST leak, soil only	Low	CT, GWF

#### Notes:

REC: Likelihood that the facility has resulted in a recognized environmental condition at the Site.

\*: Rationale abbreviation definitions are provided in the table preceding this section above.

## Solid Waste Landfill (SWL)

Four facilities, within 0.5 mile of the Site, were identified on the SWL database. These facilities are summarized in the following table:

Facility (Distance and Direction from Site)	Status	REC	Rationale*
Department of Public Works Corporation Yard 2323 Army Street (0.10 mile southwest)	Closed	Low	S, GWD, GWF
West Coast Recycling Company 1900 17th Street (0.43 mile northwest)	Closed	Low	S, D
West Coast Recycling 350 Rhode Island Street (0.47 mile northwest)	Active (Large volume transfer facility)	Low	D
AC Auto Wreckers 220 Rankin Street (0.49 mile southeast)	Waste tire location	Low	D, GWF

#### Notes:

REC: Likelihood that the facility has resulted in a recognized environmental condition at the Site.

\*: Rationale abbreviation definitions are provided in the table preceding this section above.

#### LUST and HE-17

These databases list facilities where a release, usually from a UST, is known to have occurred. The following table summarizes the unauthorized release cases listed in the FirstSearch report. Please note that some of the facilities may be listed more than once because different databases sometimes use different names/addresses for the responsible party. Also, please note that a single facility can have multiple releases that result in separate cases. For the purposes of this Assessment, multiple cases for a single property are considered as a single release location with the worst case (e.g., an open groundwater case with free product) taking precedence.

Based on the project performance by the Lawrence Livermore National Laboratory (LLNL) for distribution and remediation of methyl tertiary butyl ether (MTBE) in groundwater, on the average, approximately 94 percent of the MTBE plumes studied in detail (as measured by MTBE in a concentration of 20 micrograms per liter [ $\mu$ g/L] did not extend more than approximately 400 feet from the source, while approximately 89 percent of the benzene plumes (as measured by benzene in a concentration of  $1\mu$ g/L) extended less than 400 feet. Therefore, the detailed review radius for open groundwater cases has been conservatively established by SCS at 0.20 mile (approximately 1,000 feet).

The following table summarizes the LUST cases identified on the regulatory database:

Number of Reported Facilities	85
Number of Reported Facilities Within 0.20 Mile	9
Number of Facilities Within 0.20 Mile With Open LUST Cases	0

With the possible exception of the closed LUST case located adjacent to the Site (discussed in the Additional SCS Research section below), the remaining LUST cases do not meet the criteria for additional analysis (i.e., no open, groundwater-impacted LUST cases within 0.20 mile of the Site); therefore, no further evaluation of these LUST cases was conducted.

## Permitted Hazardous Materials/Waste Facilities within the Site Vicinity

While there are facilities within the Site vicinity that are reported to be on the UST/AST, RCRA GEN, or the Permits databases (hazardous materials users, hazardous waste generators, and violations), inclusion in these databases is only an indication of the use or storage of hazardous materials, or the generation of hazardous waste and related violations. Only those facilities that were judged to be immediately adjacent to the Site are discussed in this Report. Information regarding the other facilities can be found in the FirstSearch report in the Appendix.

#### **USTs and ASTs**

Of the five facilities identified on the USTs and ASTs database, one facility (Yellow Cab Cooperative, located at 1200 Mississippi Street) was interpreted to be located adjacent (south) to the Site. The regulatory files for this facility were reviewed and are discuss in the Additional SCS Research section below. The remaining facilities were interpreted not to be located at or adjacent to the Site.

## Waste Generators (RCRA GEN)

The RCRA GEN database list facilities that generate, store, and/or transport hazardous waste. A RCRA GEN facility is a facility that generates at least 100 kilograms (kg) per month of nonacutely hazardous waste. Twenty facilities were listed on the RCRA GEN database. One facility (Yellow Cab Cooperative, located at 1200 Mississippi Street) was interpreted to be located within 0.25 mile to the Site and is discussed in the Additional SCS Research section below. The remaining facilities were interpreted not to be located at or adjacent to the Site.

#### Permits Database

Five facilities within 0.125 mile from the Site were reported by FirstSearch to be included in the Permits database. This database, maintained by the DEH, is a listing of those facilities within the County that use, store, and/or generate hazardous materials/wastes. The database also includes those facilities that have had a known unauthorized release from a UST, which were evaluated in a prior section of this Report.

One facility (Potrero Hills Health Center) was reported to be located adjacent to the west of the Site. A Health Center representative was interviewed. She reported that small amounts (less than 5 pounds in aggregate) of infectious waste (sharps, syringes, etc) are generated at this facility. She reported that the infectious waste is disposed of from the health center on a regular basis. Based on the small quantity of waste generated and the lack of known or reported releases at this facility, there is a low likelihood that this facility has resulted in a recognized environmental condition at the Site. The remaining facilities were interpreted not to be located at or adjacent to the Site.

#### **Non-Geocoded Sites**

FirstSearch listed twenty-six facilities as being non-geocoded. Non-geocoded sites are facilities for which FirstSearch does not have sufficient information to accurately locate them on a map. Based on a review of the non-geocoded facilities, it is interpreted that none of the facilities are within requisite search radii for their reported database listings.

#### Additional SCS Research

Yellow Cab Cooperative (1200 Mississippi Street) (Adjacent to the south of the Site)

Based on its proximity (adjacent) to the Site and listing on the LUST database, the DEH files for this facility were requested. Mr. Albert Lee from the DEH indicated that all the files for this facility are on the Regional Water Quality Control Board Geotracker Database (Geotracker). Therefore, files from Geotracker were reviewed. Copies of the files are included in the Appendix.

The following reports were reviewed in connection with this known and reported release:

- Clearwater Group Environmental Services, Inc. (Clearwater), Site Closure Activity Summary, Yellow Cap Cooperative, 1200 Mississippi Street, San Francisco, CA, Clearwater Group Project No. CP003L, dated May 27, 2008.
- Clearwater Group Environmental Services, Inc. (Clearwater), Final Quarterly Groundwater Monitoring Report, Fourth Quarter 2007, Yellow Cap Cooperative, 1200 Mississippi Street, San Francisco, California, dated March 25, 2008.

In February 1999, one 6,000-gallon motor oil UST, one 1,000-gallon automatic transmission fluid UST, and one 1,000-gallon waste oil UST were removed from this facility. Evidence of an unauthorized release was found during the excavation.

In May of 2001, Environmental Bio Systems (EBS) performed subsurface investigations at this facility. A total of three soil samples were collected from beneath two existing dispensers. The results indicated releases of gasoline (2.6 milligrams per kilogram [mg/kg]), MTBE (890 micrograms per kilogram [ $\mu$ g/kg]), and ter-butyl alcohol (1,100  $\mu$ g/kg) at the dispensers area.

In addition, product lines were excavated and removed. While excavating, groundwater was observed at the bottom of the UST excavation. The groundwater was pumped into two portable 10,000-gallon tanks. EBS collected soil samples from beneath the piping run at approximately 20-feet intervals along its length. Laboratory analysis reported total recoverable petroleum hydrocarbons at concentrations ranging from 39 mg/kg to 23,000 mg/kg. Benzene, toluene, ethyilbenzene, and xylenes (BTEX) and MTBE were also detected in the majority of these samples.

In December of 2001, nine additional exploratory soil borings were drilled at the Site. Groundwater was encountered at approximately 6.5 to 7.5 feet below grade. Soil samples were reported to contain detectable concentrations of total petroleum hydrocarbons gasoline based

(TPHg) (130 mg/kg), benzene (0.24 mg/kg), toluene (0.44 mg/kg), ethylbenzene (0.94 mg/kg), xylenes (4.4 mg/kg), and total recoverable petroleum hydrocarbons TRPH (13,000 mg/kg).

In June 2002 EBS installed five groundwater monitoring wells. Analytical data from monitoring wells indicated concentrations of TPHg at 1,800  $\mu$ g/L, MTBE at 1,800  $\mu$ g/L, and benzene at 12  $\mu$ g/L.

In November 2002, EBS prepared a Corrective Action Plan and Workplan for the evaluation of remediation alternatives for the Site.

During 2003 and 2004 several pilot tests were conducted at this facility.

In mid April 2005, Clearwater conducted an in-situ oil recovery process to remove the heavy oil trapped in the former tank pit area.

In October of 2005, after six months of oil pumping events, the oil thickness was reduced. On October 19, 2006 Clearwater conducted the first phase of the final cleanup of residual oil sheen and groundwater extraction.

Several groundwater monitoring events were conducted during 2006 and 2007.

In May 27, 2008 Clearwater prepared a document entitled *Site Closure Activity Summary*, recommending that the San Francisco Department of Health (SFDH) issue a certificate of No Further Action to confirm that no further site investigation or cleanup was required at this facility. A case closure letter was issued by the SFDH in 2009.

Based on the case status (closed), distance from the Site (approximately 250 feet), location with respect to the reported groundwater flow direction (downgadient), and SCS's experience, there is a low likelihood that a recognized environmental condition exists at the Site as a result of this known and reported release.

## California Division of Oil and Gas

SCS personnel reviewed the California Division of Oil and Gas (DOG) Map regarding oil and gas well locations within 1 mile of the Site. There were no wells interpreted to be located within a 1-mile radius of the Site.

## DATA GAPS IN CONNECTION WITH OFF-SITE SOURCES

Based on the Site vicinity reconnaissance and off-Site source survey, there are no obvious indications of data gaps in connection with off-Site sources.

## Findings and Opinions—Off-Site Source Survey

Based on the off-Site source survey, several facilities in the Site vicinity were reported to have had releases of hazardous materials/waste or petroleum products. However, there is a low likelihood that a recognized environmental condition exists at the Site as a result of known and

## Findings and Opinions—Off-Site Source Survey

reported releases of hazardous materials/wastes or petroleum products from an off-Site source. This judgment is based on one or more of the following: reported regulatory status (e.g., case closed), media affected (i.e., soil contamination only), distance from the Site, reported depth to groundwater, direction from the Site with respect to reported groundwater flow direction, and information obtained through a review of the Regional Water Quality Control Board Geotracker Database files.

## HISTORICAL LAND USE REVIEW

In accordance with the ASTM Standard and AAI rule, numerous reasonably ascertainable standard historical information sources were reviewed, and an attempt was made to interpret the historical Site and Site vicinity land use back to the obvious first developed use of the Site. The following table summarizes the historical resources reviewed as part of this Assessment:

Resource	Location	Years Available
Aerial Photographs	Track Info Services, LLC	1946, 1956, 1968, 1974, 1984, 1996, and 2000
City Directories	Track Info Services, LLC	1953, 1957, 1962, 1967, 1973, 1974, 1984, 1989, 1994, 1999, 2003, and 2007
Sanborn Fire Insurance Maps	Track Info Services, LLC	1900, 1914, 1950, 1975, 1987, 1989, and 1991
Topographic Maps	Track Info Services, LLC	1895, 1899, 1915, 1947, 1956, 1968, 1973, and 1995
Building Department Records	SFBD	1940 to 1994
Interviews	Not applicable	Please see Interview section above

## Historical Site Land Use

The following table provides a chronology of the apparent historical Site land uses as interpreted from a review of information from the sources referenced:

Years	Interpreted Site Tenants	Interpreted Site Use
1895-1940	Unknown	Undeveloped land
1941- present	Various	Multi-family residences

Because the dates listed above are based on a limited selection of historical resources, they are considered to be approximations only; the actual beginning/ending dates for many of the Site uses listed above may have been earlier or later than indicated.

With the possible exception below, no obvious historical facilities, features of concern, or land uses indicative of the use, storage, or generation of hazardous materials/wastes or petroleum products were found in the historical resources reviewed.

#### Lead-Based Paint

Based on the current presence of buildings greater than 30 years old and located on lots with unpaved areas adjacent to the buildings, the potential exists for the presence of elevated concentrations of lead in the soil due to the use of lead-based paints (LBP). The soils immediately adjacent to buildings painted with LBP may have high concentrations of lead, due to the lead being leached from the exterior of the structure as the paint weathers and ages. The scraping and sanding of LBP during maintenance and repainting of the exteriors of buildings may also contribute to the lead content of the soil in the immediate vicinity. The resulting lead concentrations may exceed published health risk guidelines and other environmental standards, and may constitute a recognized environmental condition. However, there is insufficient information available at this time to assess the likelihood that elevated lead concentrations are present in the soil at the Site.

If excavated, soil with lead concentrations greater than natural background concentrations would be considered a waste and must be characterized by laboratory analysis and classified appropriately. Soil deemed to be a waste must be disposed of at a classified waste management unit. However, it may be possible to reuse such soils on Site with approval from the appropriate regulatory agency. An assessment of the near surface soil in the vicinity of the current and former buildings at the Site should be conducted to assess lead concentrations as possible health risk and to characterize soil.

## Historical Site Vicinity Land Use

The following table provides a chronology of the apparent historical Site vicinity land uses as interpreted from a review of information from the sources referenced:

Years	Interpreted Site Vicinity Tenants	Interpreted Site Vicinity Use
	North (various ad	dresses)
1900-2009	Various	SFRs
	1111 and 1113 Connection	cut Street (South)
1900-1946	None	Vacant land
1953-2009	Heieck, Inc.	Commercial
	1111 Connecticut St	reet (South)
1900-1946	None	Vacant land

Because many of the dates listed above are based on a limited selection of historical resources, they are considered to be approximations only; the actual beginning/ending dates for many of the Site uses/development described above may have been earlier or later than indicated.

With the possible exception of the Yellow Cab Cooperative reported to be located adjacent (south) to the Site (discussed in the Additional SCS Research section above), no obvious historical facilities, features of concern, or land uses indicative of the use, storage, or generation of hazardous materials/wastes or petroleum products were found in the historical vicinity resources reviewed.

# DATA GAPS IN CONNECTION WITH THE HISTORICAL SITE LAND USE

Readily available historical information was limited, and information was not available that would provide 5-year data intervals between 1900 and 1946. Based on the corroborating data from the historical information reviewed, SCS judged it likely that the historical Site land use during this time period was not significantly different from our interpretation presented in the table above. The year the Site was first developed is interpreted to have been circa 1941.

## Findings and Opinions—Historical Site and Site Vicinity Land Use

Based on a review of historical resources, and with the possible exception below, there is a low likelihood that a recognized environmental condition exists at the Site as a result of a release of hazardous materials/wastes or petroleum products from a known or interpreted historical Site or Site vicinity land use.

## Findings and Opinions—Historical Site and Site Vicinity Land Use

#### Lead-Based Paint

Based on the current presence of buildings greater than 30 years old and located on lots with unpaved areas adjacent to the buildings, the potential exists for the presence of elevated concentrations of lead in the soil due to the use of lead-based paints (LBP). The soils immediately adjacent to buildings painted with LBP may have high concentrations of lead, due to the lead being leached from the exterior of the structure as the paint weathers and ages. The scraping and sanding of LBP during maintenance and repainting of the exteriors of buildings may also contribute to the lead content of the soil in the immediate vicinity. The resulting lead concentrations may exceed published health risk guidelines and other environmental standards, and may constitute a recognized environmental condition. However, there is insufficient information available at this time to assess the likelihood that elevated lead concentrations are present in the soil at the Site.

If excavated, soil with lead concentrations greater than natural background concentrations would be considered a waste and must be characterized by laboratory analysis and classified appropriately. Soil deemed to be a waste must be disposed of at a classified waste management unit. However, it may be possible to reuse such soils on Site with approval from the appropriate regulatory agency. An assessment of the near surface soil in the vicinity of the current and former buildings at the Site should be conducted to assess lead concentrations as possible health risk and to characterize soil.

## LIMITED ASBESTOS AND LEAD PAINT SURVEY

This limited asbestos and lead sampling (Sampling) activities were designed to assess the possible presence and type of asbestos containing materials (ACMs), asbestos containing construction materials (ACCMs), and LBPs in a limited number of apartment units (30 units). Mr. Cristobal Ramirez of SCS supervised by Mr. Ryan T. Marcos conducted the Survey on June 10, 11, and 12, 2009, in general accordance with current California regulations. Mr. Marcos is an experienced Department of Occupational Safety and Health (DOSH) Certified Asbestos Consultant. Mr. Ramirez is an Asbestos Hazards Emergency Response Act (AHERA) Building Inspector and Contractor Supervisor.

A visual inspection of the 30 units was conducted to determine representative suspect materials and homogeneous areas which are visually similar in color, texture, general appearance, and which were installed at the same time. Only materials which were accessible and/or exposed were inspected. The inspector listed materials found that are suspected of containing asbestos and gave a generic description of their location. The inspector also evaluated the overall condition of the materials and determined whether the materials were friable or non-friable by touching the material, where practicable.

SCS performed a limited sampling of lead-paint systems. Painted surfaces were collected from interior and exterior paint surfaces in accessible areas. Forty paint chip samples were collected and analyzed for total lead in general accordance with EPA Method 7420.

## ASBESTOS SURVEY ANALYTICAL RESULTS

Bulk samples collected from Site buildings were delivered to Patriot Environmental Laboratory Services, Inc. for analysis of asbestos content. Bulk samples were analyzed using polarized light microscopy (PLM) and dispersion staining in accordance with the EPA Interim Method for the Determination of Asbestos in Bulk Samples (40 CFR 763, Subpart F, Appendix A). Analytical results are provided in the following table. The rows in bold represent materials in which asbestos was detected.

Sample Number	Material	Sample Location	F/NF	Cond.	Asbestos Analytical Results <sup>1</sup>
1-1AB to 1-7AB	A: White drywall B: White joint compound	North wall of living room of unit 901 (1-1), north wall of kitchen of unit 37 (1-2), south wall of kitchen of unit 39 (1-3), north wall of living room of unit 29 (1-4), north wall of living room of unit 815 (1-5), east wall of kitchen of unit 775 (1-6) and west wall bedroom 1 of unit 1015 (1-7)	F*	Good	ND

#### Notes:

F/NF: Friable/non-friable

1: Asbestos content as determined by polarized light microscopy (PLM) with dispersion staining as recommended by the Environmental Protection Agency (EPA).

Non-friable in current condition, but will be considered friable upon demolition and/or renovation.

\*\*: Paper beneath the sheet vinyl is considered friable.

ND: None detected

The following condition types were used to assess the suspect materials:

Good: No damage or deterioration, material is intact and shows little or no signs of damage or deterioration, and/or no debris was present.

Fair: Moderate damage or deterioration, material is breaking up into layers or beginning to come loose from the substrate, there are small areas where the material is deteriorating, and/or minor debris may be present.

Poor: Severe damage or deterioration, the material is non-cohesive, pieces are dislodged and debris is evident, and/or non-friable material has become friable.

### LEAD SURVEY ANALYTICAL RESULTS

Paint samples collected during the Survey were placed in plastic Ziplock bags, labeled, and transported under chain of custody to Patriot Environmental Laboratory Services, Inc. Paint samples were analyzed for lead in general accordance with EPA Method 7420 and digested in general accordance with EPA Method 3050B. Analytical results are provided in the following table.

Sample Number	Material Location / Sample Location	Color	Cond.	Lead Content (mg/kg)
L-1	Paint on stucco/Northeast corner of unit 901	Peach	Good	<160*

Sample Number	Material Location / Sample Location	Color	Cond.	Lead Content (mg/kg)
L-2	Paint on wood/Door frame of unit 901	Pink	Good	<380*
L-3	Paint on drywall/North wall living room of unit 901	Off-white	Good	<580*
L-4	Paint on plaster/South wall kitchen of unit 901	White	Good	<68*
L-5	Paint on wood/Exterior stairway of unit 901	Red	Fair	<560*
L-6	Paint on wood/Stairway of unit 37	Peach	Good	<370*
L-7	Paint on drywall/South wall of living room of unit 37	Off-white	Fair	<230*
L-8	Paint on wood/Stairway of unit 39	Brown	Good	<210*
L-9	Paint on stucco/West wall of unit 39	Gray	Good	<230*
L-10	Paint on metal/Pipe west wall of unit 39	Blue	Fair	14,000
L-11	Paint on wood/Exterior window frame of unit 39	Blue	Good	<450*
L-12	Paint on drywall/East wall bedroom of unit 39	Off-white	Good	<530*
L-13	Paint on wood/Main door of unit 29	Orange	Fair	<490*
L-14	Paint on metal/Main door frame of unit 29	Dark blue	Fair	<400*
L-15	Paint on metal/Main door frame of unit 815	Light green	Good	<830*
L-16	Paint on metal/Main door of unit 815	Dark green	Good	<810*
L-1 <i>7</i>	Paint on plaster/East wall living room of unit 815	Off-white	Good	<300*
L-18	Paint on wood/Closets of unit 753	Off-white	Poor	680
L-19	Paint on plaster/West wall living room of unit 1015	Off-white	Good	1,200
L-20	Paint on wood/Main door of unit 1015	Blue	Fair	<490*
L-21	Paint on wood/Main door frame of unit 1015	Red	Good	<280*
L-22	Paint on wood/Interior door frame of unit 1011	Off-white	Fair	<370*
L-23	Paint on drywall/West wall restroom of unit 1011	Off-white	Fair	<470*
L-24	Paint on metal/Handrail porch of unit 975	Black	Good	<870*
L-25	Paint on plaster/West wall of restroom of unit 975	Off-white	Good	<1,100
L-26	Paint on concrete/North wall of unit 954	Dark pink	Fair	<210*
L-27	Paint on plaster/East wall of restroom of unit 954	Off-white	Good	<710
L-28	Paint on concrete/North wall of unit 954	Light pink	Good	<180*
L-29	Paint on wood/Handrail stairway of unit 954	Dark brown	Good	780
L-30	Paint on wood/Door frame living room of unit 48	Tan	Good	<180*
L-31	Paint on plaster/South wall of restroom of unit 63	Off-white	Good	<580
L-32	Paint on plaster/South wall of kitchen of unit 63	Yellow	Good	<210
L-33	Paint on plaster/North wall living room of unit 63	Light blue	Good	<540*
L-34	Paint on concrete/ East wall building of unit 70	Gray	Poor	4,400
L-35	Paint on plaster/South wall restroom of unit 70	Off-white	Good	<340*

Sample Number	Material Location / Sample Location	Color	Cond.	Lead Content (mg/kg)
L-36	Paint on concrete/North wall building of unit 1911	Blue	Good	<470*
L-37	Paint on wood/Door frame of unit 1010	Pink	Fair	<430*
L-38	Paint on plaster/Bedroom 2 of Unit 104	Off-white	Good	<210*
L-39	Paint on plaster/Bedroom 1 of Unit 47	Off-white	Good	<360*
L-40	Paint on plaster/Restroom of unit 31	Off-white	Good	<320*

#### Note:

mg/kg: milligram per kilogram

\*: Based on the condition of the sample and content of substrate, the detection limit was established at the concentration indicated.

#### Access Limitations

Please note that only readily accessible suspect ACMs and ACCMs were sampled as part of these limited sampling activities (i.e., destructive or intrusive sampling techniques were minimized). Examples of access limitations are provided below; however, please note that this is not a complete list:

- Bulk samples of flooring material were collected until the substrate was reached (e.g., concrete, wood, etc.). SCS did not conduct visual or sampling activities beneath this substrate.
- Sample locations were limited (i.e., three, five, or seven samples were collected for each homogeneous material). Therefore, if suspect material or material layering is present in areas where samples were not collected, they may have gone uncharacterized.
- SCS only had access to a limited number of units within the Site buildings (30 units) and a limited number of samples (174 samples for ACMs and ACCMs, and 75 samples for LBP). Therefore additional ACMs, ACCMs, and LBPs may be present in other units or within wall or attic spaces, plenums, mechanical systems, etc., that were not accessible during this Survey. Prior to renovation and/or demolition, a more comprehensive asbestos and lead survey should be conducted and asbestos and lead paint in poor condition (e.g., loose and flaking, not adhered to substrate) should be abated prior to construction/renovation.

### 6 CONCLUSIONS AND RECOMMENDATIONS

### PHASE I ENVIRONMENTAL SITE ASSESSMENT

This Assessment has been conducted by an environmental professional whose qualifications<sup>8</sup> were made known to the Client. The conclusions and recommendations presented below are based on the review of readily available data obtained as part of this Assessment, current regulatory guidelines, the Site and Site vicinity reconnaissance, and SCS's experience.

SCS has performed a Phase I Environmental Site Assessment of 1 to 11, 15 to 29, 33 to 43, 40 to 54, 51 to 65, 71 to 81, and 85 to 95 Turner Terrace; 1 to 11, 15 to 29, 31 to 43, 47 to 61, 65 to 79, and 85 to 97 Watchman Way; 700 to 714, 701 to 717, 730 to 744, 750 to 765, 762 to 774, 771 to 783, 803 to 815, 853 to 861, 873 to 879, and 901 to 915 Missouri Street; 1001 to 1029, and 1255 to 1275 Wisconsin Street; 1720 to 1740, and 1800 to 1828 26<sup>th</sup> Street; 900 to 914, 901 to 1079, 918 to 946, 950 to 978, 1000 to 1028, 1032 to 1050, 1054 to 1068, 1072 to 1090, 1100 to 1120, and 1130 to 1149 Connecticut Street; 1620 to 1638, 1700 to 1720, 1801 to 1855, 1820 to 1834, 1840 to 1860, 1864 to 1892, and 1901 to 1915 25<sup>th</sup> Street; and 1 to 49, 2 to 22, 30 to 48, 55 to 83, 60 to 88, 100 to 128, 101 to 129, 140 to 168, 145 to 173, and 174 to 194 Dakota Street, San Francisco, California, in general conformance with the American Society for Testing and Materials (ASTM) Standard Practice for Phase I Environmental Site Assessment Process E 1527-05 and the Environmental Protection Agency (EPA), 40 CFR Part 312, Standards and Practices for All Appropriate Inquiries; Final Rule (AAI). Any exceptions to, or deletions from, the ASTM and AAI Scope of Work were previously described in this Report where applicable.

With the possible exception below, there is a low likelihood that recognized environmental conditions are present at the Site as a result of the current or historical Site land use or from a known and reported off-Site source.

#### Lead-Based Paint

Based on the current presence of buildings greater than 30 years old and located on lots with unpaved areas adjacent to the buildings, the potential exists for the presence of elevated concentrations of lead in the soil due to the use of lead-based paints (LBP). The soils immediately adjacent to buildings painted with LBP may have high concentrations of lead, due to the lead being leached from the exterior of the structure as the paint weathers and ages. The scraping and sanding of LBP during maintenance and repainting of the exteriors of buildings may also contribute to the lead content of the soil in the immediate vicinity. The resulting lead concentrations may exceed published health risk guidelines and other environmental standards, and may constitute a recognized environmental condition. However, there is insufficient information available at this time to assess the likelihood that elevated lead concentrations are present in the soil at the Site.

<sup>&</sup>lt;sup>8</sup> SCS declares that, to the best of our professional knowledge and belief, the reviewer meets the definition of Environmental Professional as defined in §312.10 of 40 CFR 312 and we have the specific qualifications based on education, training, and experience to assess a property of the nature, history, and setting of the subject property. We have developed and performed the All Appropriate Inquiries in conformance with the standards and practices set forth in 40 CFR Part 312. The qualifications of the report preparers are included in the Appendix.

If excavated, soil with lead concentrations greater than natural background concentrations would be considered a waste and must be characterized by laboratory analysis and classified appropriately. Soil deemed to be a waste must be disposed of at a classified waste management unit. However, it may be possible to reuse such soils on Site with approval from the appropriate regulatory agency. An assessment of the near surface soil in the vicinity of the current and former buildings at the Site should be conducted to assess lead concentrations as possible health risk and to characterize soil.

- Prior to being disturbed as a result of demolition activities, light ballast identified as PCB-containing or not labeled and fluorescent light bulbs, must be removed and properly disposed.
- Prior to being disturbed as a result of demolition activities, thermostat containing mercury identified at the Site building must be removed and properly disposed.

#### LIMITED ASBESTOS AND LEAD PAINT SURVEY

The following conclusions are associated with the limited asbestos and lead sampling activities. Although not considered part of the AAI and ASTM Standards for Assessments and not considered a recognized environmental condition, the following summarizes the findings on the limited sampling activities.

### Asbestos and Lead Paint Sampling

• The following is a summary of asbestos-containing materials (ACMs) identified at the Site buildings during the limited sampling activities:

Material	Sample Location	F/NF	Cond.	Asbestos Analytical Results <sup>1</sup>
Brown flooring material with black mastic	Southwest area of bedroom 1 of unit 1015 (10-1), north area of living room of unit 1011 (10-2), and southeast area of living room of unit 1025 (10-3)	NF	Good	5 to 10% Chrysotile
Off-white 9" x 9" vinyl composition tiles	West area kitchen of unit 1025 (12-1), east area of kitchen of unit 41 (12-2), and north area of kitchen of unit 70 (12-3)	NF	Good	3% Chrysotile
Dark brown 9" x 9" vinyl composition tiles	Closet 2 of unit 1025 (13-1), east area of restroom of unit 1025 (13-2), and north area of kitchen of unit 975 (13-3)	NF	Good	15% Chrysotile
Yellow flooring material with black mastic	Northwest area living room of unit 1025 (14-1) and east area of living room of unit 1043 (14-2 and 14-3)	NF	Good	10% Chrysotile
Gray rock pattern sheet vinyl	Stairway of unit 70 (19-1 to 19-3)	F**	Good	30% Chrysotile
Black roof mastic	Roofs of units 873, 47, and 31	NF	Good	12% Chrysotile

#### Notes:

F/NF: Friable/non-friable

1: Asbestos content as determined by polarized light microscopy (PLM) with dispersion staining as

recommended by the Environmental Protection Agency (EPA).

\*: Paper beneath the sheet vinyl would be considered friable.

SF: Square feet

- Based on the results of this Survey, lead-based paint (LBP), as defined by Housing and Urban Development (HUD) (greater than or equal to 5,000 parts per million [ppm]) was detected in one of the painted system sampled at the Site buildings. California Occupational Health and Safety Act (Cal-OSHA) guidelines indicate that coatings or materials containing lead at concentrations equal to or exceeding 0.06 percent by weight or 600 milligrams per kilogram (mg/kg) may constitute a health hazard for employees engaged in lead-related construction work. Please note that five painted systems sampled and analyzed at the Site buildings were reported to have concentrations of lead greater than 600 mg/kg (and maybe more based on detection limits established because of sample condition or substrate).
- SCS only had access to a limited number of units within the Site buildings (30 units) and a limited number of samples (174 samples for ACMs and ACCMs, and 75 samples for LBP). Therefore additional ACMs, ACCMs, and LBP may be present in other units or within wall or attic spaces, plenums, mechanical systems, etc., that were not accessible during this Survey. Prior to renovation and/or demolition a more comprehensive asbestos and lead survey should be conducted and asbestos and lead paint in poor condition (e.g., loose and flaking, not adhered to substrate) should be abated prior to construction/renovation.
- Prior to being disturbed as a result of renovation activities, ACMs must be removed by a
  properly licensed abatement contractor. ACMs must be disposed of at an approved
  landfill.
- Asbestos abatement should be monitored by an independent third party. Third party
  monitoring is conducted to ensure documentation of the abatement activities and to limit
  the building owner's liabilities. Monitoring should include development of project
  specifications, visual inspections during and after the project, and air monitoring prior to,
  during, and at project completion to verify that the area is safe for re-occupancy or
  demolition. Air monitoring will determine if the air/fiber concentration levels are within
  acceptable levels.
- Based on SCS's review and interpretation of relevant Cal-OSHA guidelines, coating or
  materials containing lead at concentrations equal to or exceeding 0.06 percent by weight
  or 600 ppm are to be considered a potential health hazard for employees engaged in leadrelated construction work. Therefore, SCS recommends that the painted surfaces in poor
  condition (i.e., loose and flaking) with lead content greater to or equal to 600 ppm be
  stabilized and/or removed prior to renovation activities.

• If any lead is present in Site buildings paint systems, regardless of its concentration, the building renovation contractor must comply with Occupational Safety and Health Administration (OSHA) regulations (Title 8, Section 1532.1) related to the demolition or salvage of structures where lead or materials containing lead are present.

### 7 REPORT USAGE AND FUTURE SITE CONDITIONS

This Report is intended for the sole usage of the Client and other parties designated by SCS. The methodology used during this Assessment was in general conformance with the requirements of the Client and the specifications and limitations presented in the Agreement between the Client and SCS. This Report contains information from a variety of public and other sources, and SCS makes no representation or warranty about the accuracy, reliability, suitability, or completeness of the information. Any use of this Report, whether by the Client or by a third party, shall be subject to the provisions of the Agreement between the Client and SCS. Any misuse of or reliance upon the Report shall be without risk or liability to SCS.

Phase I Environmental Site Assessments are qualitative, not comprehensive, in nature and may not identify all environmental problems or eliminate all risk. For every property, but especially for properties in older downtown or urban areas, it is possible for there to be unknown, unreported recognized environmental conditions, underground storage tanks, or other features of concern that might become apparent through demolition, construction, or excavation activities, etc. In addition, the scope of services for this project was limited to those items specifically named in the scope of services for this Report. Environmental issues not specifically addressed in the scope of services for this project are not included in this Report.

Land use, condition of the properties within the Site, and other factors may change over time. The information and conclusions of this Report are judged to be relevant at the time the work described in this Report was conducted. This Report should not be relied upon to represent future Site conditions unless a qualified consultant familiar with the practice of Phase I Environmental Site Assessments in San Francisco County is consulted to assess the necessity of updating this Report.

The property owners at the Site are solely responsible for notifying all governmental agencies and the public of the existence, release, or disposal of any hazardous materials/wastes or petroleum products at the Site, whether before, during, or after the performance of SCS services. SCS assumes no responsibility or liability for any claim, loss of property value, damage, or injury that results from hazardous materials/wastes or petroleum products being present or encountered within the Site.

Although this Assessment has attempted to assess the likelihood that the Site has been impacted by a hazardous material/waste release, potential sources of impact may have escaped detection for reasons that include, but are not limited to: 1) inadequate or inaccurate information rightfully provided to SCS by third parties, such as public agencies and other outside sources; 2) the limited scope of this Assessment; and 3) the presence of undetected, unknown, or unreported environmental releases.

Please note that this Report is predicated on sampling program that included asbestos samples from a selected number of rooms and building materials (Sample). While Samples are intended to assess the possible presence of asbestos in accessible and building materials, it may not, due to limited access, heterogeneity of building materials, remodeling and rehabilitation/renovation of Site buildings. In addition, materials may have been inaccessible for sampling (e.g., materials hidden/enclosed behind walls or ceilings or samples that are not possible but for destruction of building materials, among other reasons). Therefore, the Client should recognize that SCS is only estimating the levels of asbestos in building materials based on Sample results and that we may not have identified asbestos in all building materials. An alternative approach is the invasive and destructive collection of material samples readings from all room and building materials which most of our clients find to be cost prohibitive and impractical. SCS can provide you with a cost estimates for a more detailed or invasive sampling program.

### 8 LIKELIHOOD STATEMENTS

Statements of "likelihood" have been made in this report. Likelihood statements are based on professional judgments of SCS. The term "likelihood," as used herein, pertains to the probability of a match between the prediction for an event and its actual occurrence. The likelihood statement assigns a measure for a "degree of belief" for the match between the prediction for the event and the actual occurrence of the event.

The likelihood statements in this Report are made qualitatively (expressed in words). The qualitative terms can be approximately related to quantitative percentages. The term "low likelihood" is used by SCS to approximate a percentage range of 10 to 20 percent; the term "moderate likelihood" refers to an approximate percentage range of 40 to 60 percent; and the term "high likelihood" refers to an approximate percentage range of 80 to 90 percent.

# 9 SPECIAL CONTRACTUAL CONDITIONS BETWEEN USER AND ENVIRONMENTAL PROFESSIONAL

There were no special contractual conditions between the user of this Assessment and the environmental professional, SCS.

Pennsylvania St. and Texas St.

**DPH SAM 818** 

Dear Ms. Curtis:

In accordance with California Health and Safety Code, Sections 101480-101490, the San Francisco Department of Public Health, Site Assessment and Mitigation (DPH SAM) has reviewed the following documents:

- Phase I Environmental Site Assessment and Limited Asbestos and Lead Paint Sampling, prepared by SCS Engineers (SCS) August 2009
- Work Plan for Site Characterization, prepared by ENGEO, August 4, 2011

### Site History

The overall project area includes the current Potrero Terrace and Potrero Annex Housing Project areas on Potrero Hill in San Francisco. The total proposed redevelopment project area is approximately 33 acres. The existing residential buildings were constructed in two phases. Potrero Terraces was constructed circa 1941. The Potrero Annex development was constructed circa 1955. Historical site land use was reported as undeveloped prior to 1941 per the SCS Phase I report. Some adjacent properties on Connecticut and Pennsylvania streets have, or have had, commercial or industrial uses from approximately 1953 to the dates of the Phase I report (2009).

The SCS 2009 report includes a description of limited sampling for asbestos and lead based paint. The report findings state that a low likelihood exists of a release of hazardous material/wastes or petroleum products from a known or interpreted historical site land use. The findings also state the potential for high lead concentration in soil due to the use of lead based paint on the buildings. DPH SAM requests regarding sampling and handling of soils is discussed under the Work Plan review and Voluntary Remedial Action Program Activities sections below.

### Planned Use

DPH SAM understands that the current redevelopment plans include demolition of the existing buildings, 469 units in Potrero Terraces and 137 units in Potrero Annex, plus

associated administrative and recreational buildings. A new public housing project will be constructed on the property. The new housing project will be constructed in phases.

Work Plan for Site Characterization by Engeo August 2011-Review A January 5, 2011 letter from DPH SAM, then EHS-HWU, requested:

- Characterization of shallow soils for lead
- Characterization of soils for asbestos, California 17 metals, and total petroleum hydrocarbons, as a minimum soil sampling should extend (at least) to the depth of the proposed excavation.
- Compliance with San Francisco Public Health Code Article 22B (Demolition and Construction Dust Control)
- Submittal of a work plan for site characterization to the depths of the proposed excavation and a dust control plan in accordance with Article 22B. Based on the characterization results, a site mitigation plan may be required.

The August 2011 Work Plan was submitted in response to the January 2011 DPH letter. The Work Plan proposed to sample exposed soils near the perimeter of existing buildings for lead-based paint (presumed to mean lead metal analyses). Soil samples would be collected from depths of about 6 to 9 inches below the ground surface. Soil samples would also be collected from the near surface soils in areas of stained and discolored soils and analyzed for petroleum hydrocarbons (TPH) and LUFT metals.

The 2011 Work Plan states that if lead is detected in the near surface soils, a Soil Analysis Plan for lead in soil only (not building materials) should be developed for the remediation of lead in soil. DPH usually refers to the remediation/mitigation plan as the Site Mitigation Plan (SMP).

The 2011 work plan states that naturally occurring asbestos (NOA) should be addressed in a later stage of the project, possible at site grading and excavation.

### Voluntary Remedial Action Program (VRAP) Activities

DPH SAM has the following concerns with the 2011 Engeo Work Plan. The work plan does not include sufficient information to adequately address the concerns in the January 2011 letter.

DPH SAM understands that the project area will be demolished and redeveloped in phases. DPH SAM prefers that the proponent submit separate project VRAP application, work plans, subsequent SMP, and other reports for each phase of redevelopment. DPH SAM is using this approach for other large projects such as Mission Bay. The work plan for each phase should address the following items:

 A description of the proposed project phase including number and location of buildings, building configuration and the depths of excavation

- Figures showing proposed building and other feature locations, lateral and vertical extent of excavation
- Samples will be collected prior to grading but may be collected after building demolition
- Sampling should be performed to the depth of any project excavation
- If groundwater is encountered, a grab sample should be collected and analyzed
- Samples should be analyzed for TPH gasoline through motor oil ranges, California 17 metals and asbestos.
- Include a figure showing the proposed number and locations of samples and listing the depths of samples to be collected and analyzed.
- Sample locations should be around the existing buildings plus additional random sample locations

A Sampling Analysis Report (SAR) should be submitted describing the sampling procedures and results. The SAR should include a summary and tables of the analyses, plus figures showing sample locations with sample depths.

### In Summary

Submit a VRAP application and Work Plan for each Project Phase. The Work Plans should address the concerns listed above. Work Plans shall be approved by DPH SAM prior to performing sampling.

Work Plans should be submitted sufficiently in advance of planned sampling to allow time for work plan approval, Sampling and Analysis Report (SAR) preparation, submittal to and approval by DPH SAM. The Work Plan submittal time frame should also be sufficient for subsequent preparation and approval of a Site Mitigation Plan following acceptance of the SAR.

Voluntary Remedial Action Program (VRAP) Requirements Following Site Assessment

Criteria to be considered in Soil/Site Management Plans (SMP)
The California Regional Water Quality Control Board (RWQCB) Environmental
Screening Level (ESL) for lead in shallow soils is 200 mg/kg. Please note that the
California Human Health Screening Level (CHHSL) promulgated by the Office of
Environmental Health Hazard Assessment (OEHHA) is 80 mg/kg in soil.

Soils that meet or exceed the California Total Threshold Limit Concentration (TTLC) listed in the California Code of Regulations (CCR) Title 22 Section 66261 for lead (1000 mg/kg) must be removed, transported and handled as Class I hazardous waste. Soils containing less than 1000 mg/kg lead but more than 200 mg/kg lead may be reused on site if placed beneath buildings. Mixing or grading of soils to reduce surface lead or other chemical concentration is not acceptable.

DPH SAM recommends that soils containing between 200 mg/kg lead and 80 mg/kg lead should be placed under buildings, sidewalks, roadways, other paved or concrete capped areas, or covered by a visual barrier such as brightly colored plastic fencing, netting or fabric, plus 2 ft. of clean fill.

Clean up levels for petroleum hydrocarbons, associated chemicals, asbestos or metals should be proposed to DPH SAM if elevated concentrations are reported in the SAR.

### Items to Address in a SMP

A Site Management Plan (SMP) may be requested for a project phase based on the results presented in the SAR. The SMP and related documents should address:

- Proposed project description building locations, configurations, and maximum proposed lateral and vertical extent of excavation. Include figures showing proposed project features and the lateral and vertical extent of excavation
- Confirmation sample collection following implementation of mitigation measures and excavation. Confirmation sample locations should be provided on a figure
- Options for handling contaminated soils, including storage of soils on plastic sheeting and covering with sheeting when soil is not actively being added or removed from a stockpile.
- The frequency of soil stockpile sampling
- All soil samples should be analyzed for at least lead metal plus other chemicals detected above ESL as reported in the SAR
- Additional excavation should be performed, or other mitigating measures acceptable to DPH SAM implemented, if confirmation samples exceed the residential clean up guidelines
- The contractor/developer should receive written concurrence from DPH SAM prior to reusing soils that exceed the clean up limits.
- Identify the proposed soil transporter and disposal locations.
- Contingency Plan that describes the procedures for controlling, containing, remediating, testing and disposing of any unexpected contaminated soil, water, or other material.
- A site specific worker Health and Safety Plan
- Storm water control and noise control protocols as applicable

DPH SAM should be notified in writing if confirmation sample analytical results exceed the clean up criteria. The communication should include sample locations and the analytical results. Additional excavation or other mitigating measures may be required.

Soils meeting the clean up criteria described above or in an approved SMP may be reused on site as engineered fill. Soils containing TPH above the agreed upon clean up levels may be suitable as engineered fill, particularly if placed beneath buildings. DPH SAM should be provided the soil analytical data and sampling locations if reuse of such soils is proposed. The contractor/developer should receive written concurrence from DPH SAM prior to reusing soils that exceed the clean up limits. DPH SAM will expedite such a request to the extent feasible.

A Dust Control Plan should be submitted to DPH SAM that complies with San Francisco Public Health Code Article 22B (Demolition and Construction Dust Control). A site specific worker Health and Safety Plan should also be submitted.

Copies of documents submitted in compliance with California Code of Regulations (CCR) Title 17 regarding Naturally Occurring Asbestos should also be submitted to DPH SAM. CD submittals are preferred.

Submit Site Mitigation Plans least 6 weeks prior to beginning construction grading and excavation work. The SMP should be approved by DPH SAM prior to beginning construction fieldwork. The Health and Safety Plan and the Dust Control Plan may be submitted two weeks prior to beginning construction fieldwork.

A SMP completion report shall be prepared and submitted to DPH SAM following SMP implementation. The completion report will include documentation of the work performed. The SMP completion report should include figures showing the final lateral and vertical extent of the excavation, the finished grade and the location of reused soils relative to proposed buildings and hardscape. The SMP completion report should include a summary of the analytical results for the confirmation and stockpile samples plus copies of the laboratory reports. Copies of bills of lading and manifests should be attached to the report for hazardous waste, California hazardous waste and non hazardous soils removed from the site.

Should an underground storage tank (UST) be encountered, work will be suspended and the owner notified. The site owner will notify the San Francisco Department of Public Health of the situation and of the proposed response actions. The UST shall be removed under permit with the San Francisco Department of Public Health- Hazardous Materials Unified Program Agency (HMUPA) and the San Francisco Fire Department. DPH SAM should be sent a copy of any documents received from or prepared for HMUPA or the Fire Department.

Should you have any questions or wish to discuss details of the plans, please contact Elyse Heilshorn at (415) 252-3885 or <a href="mailto:elyse.heilshorn@sfdph.org">elyse.heilshorn@sfdph.org</a>, or Scott Nakamura at (415) 252-3994.

Sincerely,

Rajiv Bhatia, MD, MPH

Street and Texas Street, San Francisco

EHS-HWU Case Number: 818

### Dear Ms. Curtis:

In accordance with California Health and Safety Code, Sections 101480-101490, the San Francisco Department of Public Health, Environmental Health-Hazardous Waste Unit (EHS-HWU) has reviewed the following document:

 Phase I Environmental Site Assessment and Limited Asbestos and lead Paint Sampling, prepared by SCS Engineers (SCS), August 2009.

The proposed project includes the demolition of Potrero Terrace and Potrero Annex that include 469 units and 137 units, respectively and the construction of newer public housing. The site covers 33 acres of land.

### EHS-HWU has the following concerns:

- SCA stated that lead based paint in the soil should be characterized at shallow depths. EHS-HWU concurs with this statement.
- The bedrock consists of serpentinite, EHS-HWU recommends that asbestos, LUFT metals (chromium, cadmium, lead, nickel and zinc) and total petroleum hydrocarbons at a minimum be sampled for in soils to the depths of the proposed excavations. This characterization may provide information for disposal options.
- Compliance with San Francisco Health Code Article 22B (Demolition and Construction Dust Control) is required.

Please submit a workplan for site characterization to the depths of proposed excavation, and prepare a dust control plan in accordance with Article 22B. Based on site characterization results, a site mitigation plan may be required.

Should you have any questions, please contact Scott Nakamura at (415) 252-3994 or Stephanie Cushing at (415) 252-3926.

Sincerely,

Rajiv Bhatia, MD, MPH

City and County of San Francisco Department of Environmental Health, Environmental Health Section; Review of Environmental Documents, Potrero Annex and Potrero Terrace, Hope Project, San Francisco, Wisconsin St., 25<sup>th</sup> St., 26<sup>th</sup> St., Potrero Recreation Center and 23<sup>rd</sup> St., Pennsylvania St. and Texas St. DPH SAM 818, February 29, 2012.
- 2. ENGEO; Work Plan for Site Characterization, Potrero Terrace & Potrero Annex Redevelopment, San Francisco, California; August 4, 2011.

### Dear Ms. Heilshorn:

As requested, we are responding to the referenced letter from the City and County of San Francisco (Reference 1) regarding the proposed site characterization work plan for the Potrero Terrace and Potrero Annex redevelopment in San Francisco, California. As we discussed at our meeting with you on March 20, 2012, the referenced work plan was prepared to provide a broad overview of the anticipated scope for future characterization. Detailed grading plans and building designs are not available at this time to delineate more clearly the scope of the soil characterization across the entire planned redevelopment area. In addition, the site will be redeveloped in multiple phases over at least a ten-year period commencing at an as yet undetermined date.

At our meeting, we agreed that in the future, ENGEO at the request of our client, will submit separate project Volunteer Remedial Action Program (VRAP) applications, work plans, subsequent Site Mitigation Plans, and other reports for each phase of redevelopment. Further, the work plan for each phase will address the following items:

• A description of the proposed project phase, including number and location of buildings, building configuration, and the depths of excavation.

- Figures showing proposed building and other feature locations, lateral and vertical extent of excavation.
- Sample locations with sample collection prior to grading but after building demolition.
- Since the grading plans will be available for each project phase, the sampling will be performed to the depth of any project excavation.
- Samples will be analyzed for TPH-gasoline (TPH-g) through motor oil (TPH-mo) ranges, CAM-17 metals, and asbestos.
- The work plan will include a figure showing the proposed number and locations of samples and listing the depths of samples to be collected and analyzed.
- The sample locations will be situated adjacent to the existing building footprint plus additional random sample locations to establish background levels for the constituents of concern.
- A Sampling Analysis Report (SAR) will be submitted describing the sampling procedures and results. The SAR will include a summary and tables of the analyses, plus figures showing sample locations with sample depths.

To summarize, a VRAP application and work plan will be submitted prior to the start of each phase for the planned redevelopment of Potrero Terrace and Potrero Annex. The work plans will address the concerns listed above and will be submitted to your office for approval prior to implementing the sampling program.

If this proposal is acceptable to you, it would be helpful if you could communicate that directly to staff at the Planning Department. We look forward to continuing to work with your office as this project moves forward through the planning and design phases. Please contact us if you have any questions.

Sincerely,

**ENGEO** Incorporated

Appendix I. EDR Radius Map<sup>TM</sup> Report with Geocheck®

#### 1.0 INTRODUCTION

On behalf of Asian Neighborhood Design (AND), LEE Incorporated (LEE) conducted a Phase I Environmental Site Assessment (Phase I ESA) of 1101 Connecticut Street, San Francisco, California 94107 (*subject property*). The attached **Figure 1** shows the general location of the City and County of San Francisco (City) where the *subject property* is located.

The *subject property* is currently owned by the San Francisco Unified School District (SFUSD). Providing technical assistance to the San Francisco Mayor's Office of Housing (SFMOH), AND is assessing multiple surplus sites currently owned by SFUSD that have been identified as potential acquisition properties for affordable housing. The goal is to assess the value of the parcels and perform basic due diligence tasks required for acquisition. This Phase I ESA was performed as part of the assessment of the SFUSD sites being considered for potential acquisition by SFMOH.

## 1.1 Purpose

The Phase I ESA was performed in conformance with the scope and limitations of the American Society of Testing and Materials (ASTM) Standard Designation E1527-05, Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process.

## 1.2 Scope of Services

The scope of services was as follows:

- Visual reconnaissance of the *subject property* and vicinity to assess existing conditions, activities, and potential environmental concerns.
- Reviewing documents available from federal, state, and local agencies that pertain to the *subject property*.
- Reviewing documents provided by SFMOH and SFUSD, and interviewing an SFUSD representative familiar with the *subject property*.
- Reviewing historical aerial photographs, Sanborn® fire insurance maps, topographical maps, and other records to evaluate historical conditions and activities at the *subject property* and vicinity.
- Acquisition of a computerized review of federal and state agency databases including the National Priority List (NPL); Resource Conservation and Recovery Act (RCRA); Comprehensive Environmental Response, Compensation, and Liability Information System (CERCLIS); RCRA Treatment, Storage and Disposal (TSD) Facilities; California

Leaking Underground Storage Tanks (LUSTs); and registered underground and aboveground storage tanks (USTs/ASTs).

Preparation of this report following ASTM E1527-05.

## 1.3 Limitations and Exceptions

This Phase I ESA does not guarantee, imply, or assert that all potential contaminant sources have been located because of the possible presence of an unlisted or unidentified contaminant occurrence. Even with the proper application of ASTM E1527-05 methodology, conditions may exist that could not be identified within the scope of the assessment, or which were not reasonably identifiable from the available information. Although the information obtained from the Phase I ESA is considered to be reliable, LEE does not warrant or guarantee that the information provided by these sources is accurate or complete.

This Phase I ESA did not include non-scope items in ASTM E1527-05, such as sampling and laboratory analyses of soil and other environmental media. Potential seismic hazard concerns, lead-based paint, aerially deposited lead, asbestos, radon, ecological, cultural and historical resources, industrial hygiene, health and safety, endangered species, high-voltage power lines, and mold and microorganism concerns are outside of the scope of work.

The findings presented in this report apply solely to conditions existing at the time the assessment was performed. The Phase I ESA was conducted for the purpose of evaluating the potential for contamination through limited research and investigative activities, and does not represent a conclusive or complete site characterization. This Phase I ESA does not provide any guarantees, certifications, or warranties that the project site is free from environmental contamination.

#### 1.4 User Reliance

This Phase I ESA report is for the exclusive use of AND and SFMOH. LEE will distribute any information regarding this assessment and report only upon the request of AND and SFMOH. Use of this report by any other party shall be at such party's sole risk. This Phase I ESA is considered to be a privileged and confidential communication.

#### 2.0 PROPERTY DESCRIPTION

#### 2.1 Location and Current Use

The *subject property* corresponds to assessor parcel Lot 007, Block 4287 located at 1101 Connecticut Street in a residential area on the south slope of the Potrero Hill District in San Francisco. The attached **Figure 2** shows the location of the *subject property*. The Potrero Hill District is an established residential neighborhood bound to the north by the South of Market (SoMa) District, to the east by U.S. Highway 280 (Highway 280) and the Mission Bay and Central Waterfront Districts, to the south by Cesar Chavez Street and the Bayview Hunters Point District, and to the east by U.S. Highway 101 (Bayshore Freeway) and the Mission District.

The Potrero Hill District is on a hill that has well defined north and south slopes. The south slope where the *subject property* is located is occupied over a third by two (2) public housing projects on land owned by the San Francisco Housing Authority (SFHA). The Potrero Terrace Project was built in 1942 and consists of thirty-seven (37), long rectilinear buildings distributed in four (4) blocks, the blocks are separated from each other by city streets. The Potrero Annex Project was built in 1955 and consists of twenty-three (23) townhouse/garden style apartment buildings scattered over a nine (9) acre contiguous site. The remainder of the south slope consists mainly of private single-family and multi-family residential parcels. Commercial and some industrial sites occur along and to the south of Cesar Chavez Street. The north slope of the Potrero Hill District consists predominantly of single-family and multi-family residential parcels with commercial developments along the major traffic streets that cross the District.

**Appendix A** presents copies of the assessor's parcel map (Block 4287) and a historical fire insurance map obtained from the San Francisco Planning Department (SFPD). According to assessor records, the parcel (Lot 007, Block 4287) comprises 24,999 square feet and is located near the southeast corner of the intersection of Connecticut Street and 25<sup>th</sup> Street.

**Appendix B** presents copies of a site plan and preliminary title report received in February 2013 from Mr. Kevin Kitchingham, SFMOH Project Manager.

In February 2013, Environmental Data Resources, Inc. (EDR) conducted a title search of the *subject property*. The title search involved research of the City's assessor records and recorded title transactions to track the line of successive owners from the present back to 1940. EDR searched public records from January 1, 1940 to February 26, 2013. According EDR, the assessor records list the current owner as the San Francisco Unified School District (SFUSD). No conveyance or other deeds vesting title were found. SFUSD apparently acquired title to the property prior to 1940. EDR's Chain of Title Report is in **Appendix C**.

The attached **Figure 3** is a site plan of 1101 Connecticut Street and vicinity. The southern portion of the *subject property* is surfaced with concrete that represents the foundation of a one (1)-story building that occupied the area up until the early 1990s. According to information provided by SFUSD, the building served as a children's nursery and child development center since the 1940s. The center closed and the building was removed following extensive damage that resulted in the early 1990s when a truck crashed into and damaged the building. The concrete surfaced area is on relatively flat grade and enclosed by chain-link fencing. The remainder of the *subject property* to the north of the former building site is a sloped grassy surface with no structures.

## 2.2 Adjoining Sites

The following describes the adjoining sites to the *subject property*; refer to the attached **Figure 3**.

- North: 25<sup>th</sup> Street followed by a SFHA's Potrero Terrace Project. The public housing is comprised of rows of multi-family residential buildings of two (2)- and three (3)- stories with landscaped areas and sidewalks that occupy the block bound by 25<sup>th</sup> Street, Connecticut Street, 23<sup>rd</sup> Street, Dakota Street, and Wisconsin Street. Dedicated vehicular parking areas occur off 25<sup>th</sup> Street, Connecticut Street, and Dakota Street.
- Northwest: The parcel of 5,000 square feet (1101A Connecticut Street) at the southeast corner of the intersection of 25<sup>th</sup> Street and Connecticut Street is improved with a concrete surfaced basketball court open to the public. SFHA's Potrero Terrace Project occupies the area to the northwest of the intersection. The public housing consists of rows of multifamily residential buildings of two (2)- and three (3)-stories with landscaped areas and sidewalks. Dedicated vehicle parking areas occurs off 25<sup>th</sup> Street and Connecticut Street.
- West: Connecticut Street followed by SFHA's Potrero Terrace Project that occupies the block bound by 25<sup>th</sup> Street, Connecticut Street, 26<sup>th</sup> Street, and Wisconsin Street. The public housing consists of rows of multi-family residential buildings of one (1)-, two (2)-, and three (3)-stories with landscaped areas and sidewalks. Dedicated vehicle parking areas occur off 25<sup>th</sup> Street, Connecticut Street, and 26<sup>th</sup> Street.
- <u>South:</u> The adjoining property is a light-industrial condominium facility built in 1995 and consisting of a one (1) story warehouse-type building with a mezzanine and adjoining paved driveway and parking area. The facility is occupied by multiple tenants that include a heating and ventilation engineering firm, painting and wallpaper installer, commercial art framing contractor, commercial research firm, and various wholesale retailers.
- <u>East</u>: The right of way (ROW) of Missouri Street extends north-south along the east side of the *subject property*. Adjacent to the *subject property*, the ROW consists of a steeply sloped surface that is largely covered with grass, shrubs and other low vegetation. There is

evidence of past mass erosion and debris slides along the base of the slope. The ground surface slopes steeply south to southeast towards the north end of the graded and paved portion of the Missouri Street ROW. The property to the east of the Missouri Street ROW corresponds to a taxi dispatching service facility, Yellow Cab Cooperative at 1200 Mississippi Street. The north portion of the property consists of a paved parking lot that has a south-sloped cliff face along 25<sup>th</sup> Street. Evidence of erosion and debris slides is evident along the base of the cliff face. South of the parking lot, the property is occupied by a building with an adjoining paved parking area.

## 2.3 Historical City Directories

In February 2013, EDR researched city directories for the *subject property* and surrounding addresses. Business and telephone directories were reviewed at approximately five (5) year intervals for the years spanning 1910 through 2012. The information gathered was compiled by geocoding the latitude and longitude of the properties identified and gathering information about properties within 332 feet of the *subject* property. EDR's City Directory Abstract in **Appendix D** presents the city directory research results.

EDR's City Directory Abstract found listings for 1101 Connecticut Street in historical directories published by R. L. Polk and Company, Pacific Bell, Pacific Telephone, Haines and Company, and Cole Information Services. Listing from the 1950s to 2012 include "Potrero Terrace Children's Center and Day Nursery," "Potrero Terrace Nursery and School Age Center," and "Childs Health Center." The city directory research indicates the *subject property* was in use since at least the 1940s as a children's nursery and school-age children development center. No historical industrial or commercial use is evident in the city directory data (**Appendix D**).

The address of 1095 Connecticut Street currently corresponds to the property manager's office of SFHA's Potrero Terrace Public Housing Project. City directories for the 1940s list "Houseworth Authority of the City and County of San Francisco." However, the oldest directory (1944) lists "Terrace Project, WJ Flinn Manager." Later directories (1960s to 1980s) list "SF Housing Authority General Offices" and "San Francisco Housing Authority, Potrero Terrace and Wisconsin Projects." With respect to addresses for the public housing buildings to the north, northwest, and west of the *subject property*, city directories dating back to the 1940's list the names of individuals, consistent with a residential land use. City directories from the 1990s and 2000s suggest taxi/cab and support service tenants occupied 1200 Mississippi Street. The listings include "Yellow Cab Co," "Yellow Airport and Charter Service," Yellow Paratransit Program," "Yellow Van and Tour," "All Taxi Radio Services," "Clear Channel," and "Flag A Cab Taxi School."

City directories for 2000s list light industrial and commercial tenants at 1113 Connecticut Street and further south along the east side of Connecticut Street. Tenants for 1113 Connecticut include "Decker WM & Co," Albion Sheet Metal," Matthews Art Framing,"

"BOTO Servicing," and "Nidus Company." Individual names are listed for 1113 Connecticut Street in the 1970s and 1980s, suggesting residential land use. City directories dating to the 1940s indicate a plumber and building materials supplier occupied 1111 Connecticut Street to the south of 1113 Connecticut Street. A wholesale plumbing supplier continues to occupy and operate from 1111 Connecticut Street (**Appendix D**).

## 2.4 Geological Setting

San Francisco encompasses forty-nine (49) square-miles in the western part of the Coast Ranges along the central California coast. The city spreads across a peninsula bound by the Pacific Ocean on the west and San Francisco Bay on the north and east. The present topography is the result of erosion of Mesozoic Franciscan Complex rocks of varying hardness with deposits of windblown sand that locally mantle the bedrock exposures. Quaternary tectonism, marine and estuarine deposition, and artificial fill (man-made land) have also contributed to the development of the current topography of San Francisco.

The United States Geological Survey (USGS) has compiled the geological information available for San Francisco in a series of USGS 7.5-minute quadrangle topographic maps and reports. Based on these compilations, San Francisco is underlain by three (3) main geological formations that differ in age: older bedrock, Tertiary strata, and surficial deposits.

- The older bedrock consists of the Franciscan Complex of Cretaceous to Jurassic age. The
  Franciscan Complex is subdivided into lithological units that include sedimentary rocks
  at various stages of metamorphism, greenstone, serpentinite, gabbro and diabase, and
  various other metamorphic and sheared rocks.
- Tertiary rocks are prominent in the southwestern part of the City and represented by the Merced Formation of late Pliocene to Pleistocene age. The Merced Formation consists of sand, silt, and clay basin deposits that originated in a shallow marine and coastal nonmarine depositional setting.
- The Colma Formation of Pleistocene age was deposited unconformably on the Merced Formation, notably in the northwestern and central part of the City. The Colma Formation consists of fine- to medium-grained sand with lesser beds of sandy silt, clay and gravel. Other Pleistocene and Holocene surficial deposits consist of rubbly slope debris and ravine fill, old beach deposits, dune deposits, alluvium, bay mud, recent beach deposits, undifferentiated sedimentary deposits, landslides, and artificial fill. Surficial deposits were deposited on the old topographic surface of the Franciscan Complex and Tertiary deposits.

Regional geologic information for the *subject property* vicinity is available in USGS Professional Paper 782, *Geology of the San Francisco North Quadrangle, California* (Schlocker, 1974), and summarized in the report's *Geologic Map of the San Francisco North Quadrangle, San Francisco and Marin Counties, California*. According to the geological

compilation, the area encompassing the *subject property* is underlain by the Jurassic-Cretaceous Franciscan Complex and unconsolidated Quaternary sediments derived from the weathering and erosion of the Franciscan Complex.

In the Potrero Hill District, the Franciscan Complex is represented mainly by serpentinite (Schlocker, 1974). The serpentinite ranges from hard to soft, is locally sheared, and contains small bodies or knobs of hard serpentinite, partially serpentinized peridotite, and other rocks of the Franciscan Complex. The Quaternary sediments atop the Franciscan Complex include slope debris and ravine fill such as stony silty to sandy clay, and silty to clayey sand and gravel derived from the weathering and erosion of Franciscan Complex. Artificial fill occurs locally and includes dune sand as well as silt, clay, and rock waste from excavations, manmade debris, and imported fill. Maximum thickness of the fill in the Potrero Hill District varies, ranging up to sixty (60) feet. There is also surficial slope debris along the base of cliff faces and steep slopes that consists of angular rock fragments intermixed with finer materials. Slope debris deposits are evident in adjoining properties to the east of the *subject property*.

## 2.5 Hydrological Setting

Based on the hydrological compilation of groundwater basins in San Francisco Bay Area by the California Regional Water Quality Control Board, San Francisco Bay Region (RWQCB, April 4, 1996), and the California Department of Water Resources (DWR, October 2003), the *subject property* lies in the Islais Groundwater Basin. The Islais Basin encompasses approximately 5,000 acres in San Francisco, and 600 acres in adjoining San Mateo County. The groundwater basin occurs in sedimentary deposits and is bounded laterally by bedrock of the Franciscan Complex, except to the east where it is open to the Bay. The main water-bearing units are the Colma Formation up to 100 feet thick, and the overlying undifferentiated alluvium deposits up to 60 feet thick. In proximity to the Bay, the Basin contains artificial fill and deposits of bay mud.

According to RWQCB (April 4, 1996), the regional groundwater flow in the Basin is eastwards towards the Bay. Rainfall and leakage from underground water and sewer pipes provides the bulk of the groundwater recharge in the basin. Shallow groundwater quality tends to be reduced east of the Bayshore Freeway where the Basin contains significant artificial fill, most notably in the industrial areas along the waterfront. There are fuel and non-fuel leak and release cases in commercial and industrial areas that involve a variety of pollutants including petroleum hydrocarbons, solvents, and metals. Along the bayshore, groundwater quality is non-potable due to high salinity from the incursion of bay saltwater.

Groundwater flow direction for a particular site is best determined using site-specific well data. However, there are no groundwater monitoring wells or site-specific groundwater information available for the *subject property*. Since such data is not available, groundwater conditions can be inferred from other sources of information, such as topographic maps, hydrological information, and well data from nearby sites. EDR has developed the

AQUIFLOW Information System (**Appendix I**) to provide data on the general direction of groundwater flow in an area based on a review of groundwater reports submitted by environmental professionals to regulatory agencies. Based the topography and available groundwater data, the groundwater flow direction around the *subject property* is inferred to be predominantly south to southeast towards the Bay. The Bay (Islais Creek Channel) is located approximately 1,800 feet southeast of the *subject property*.

#### 3.0 SITE RECONNAISSANCE

On February 13, 2013, a LEE representative conducted a reconnaissance of 1101 Connecticut Street to assess site usage and identify observable signs of environmental impairments and concern, if any.

In February and March 2013, LEE held discussions on the *subject property* with Ms. Karen Smith, Senior Project Architect for AND; Mr. Kevin Kitchingham, Project Manager for SFMOH; and Mr. Paul Cardoni, Facilities for SFUSD. User provided information including a site assessment questionnaire completed by Mr. Cardoni is presented in **Appendix B**.

## 3.1 Existing Conditions

The *subject property* consists of an irregular shaped parcel located at 1101 Connecticut Street to the southeast of the intersection of Connecticut Street and 25<sup>th</sup> Street. **Figure 3** presents a plan view of the *subject property* and vicinity.

Formerly the site of a one (1)-story building, the south portion of the *subject property* is currently surface with concrete set on a relatively flat grade. The concrete represents the foundation of the building that was reportedly removed in the early 1990s after a truck crashed into and heavily damaged the building. Referenced as the Potrero Terrace Children's Center and Day Nursery, the building housed up to the early 1990s a nursery and development center for pre-school and school-age children. Since the early 1990s, the *subject property* has been vacant and in disuse. The concrete surfaced area is enclosed by chain-link fencing with an access gate in front of Connecticut Street that is locked and limits access to the former building site.

To the north of the concrete surface area, the *subject property* is a grassy slope that generally slopes south to southeast and extends upslope to 25<sup>th</sup> Street. A parcel of approximately five-thousand (5,000) square feet and defined as Lot 1A, Block 4769, occupies the southeast corner of the 25<sup>th</sup> Street vs. Connecticut Street intersection. According to assessor records, the corner parcel is owned by SFHA. The corner parcel is improved with a concrete surfaced basketball court accessible to the general public from Connecticut Street and 25<sup>th</sup> Street.

A photographic log of the *subject property* is presented in **Appendix E**.

#### 3.2 Surface Drainage

Stormwater runoff at the *subject property* is influenced by the topography and surface cover. Although the south portion has a relatively flat grade and comprised of relatively impermeable concrete, the remainder of the *subject property* is sloped ground covered with grass and other low vegetation. In the impermeable concrete surfaced area, stormwater collects in low spots on the concrete and some infiltrates the ground via cracks and overflow

along the concrete perimeter. In permeable areas, stormwater infiltrates the ground and excess stormwater flows or seeps onto the concrete sidewalk and pavement on Connecticut Street. Connecticut Street and other streets in the Potrero Hill District are serviced by San Francisco's combined stormwater and sanitary sewer system. Maintained by the San Francisco Public Utilities Commission (SFPUC), the sewer system in this part of San Francisco drains to the Southeast Water Pollution Control Plant, approximately 0.75 miles to the southeast of the *subject property*. The treated water from the plant is released via outfalls into the Bay.

#### 3.3 Surface Water Bodies

No surface water bodies (rivers, creeks, lakes) occur on or near the *subject property*. The nearest surface water body is the Bay and Islais Creek Channel, approximately 1,800 feet southeast of the *subject property*.

## 3.4 Municipal Utilities

Review of underground utilities servicing the subject property, and the layout of utilities in the surrounding streets, was outside of the scope of work for this Phase I ESA. Connecticut Street and 25th Street contain municipal sewers, water and gas pipelines, and electrical and telecommunication utilities, with connections to service the surrounding properties. Water service is provided by the SFPUC's water infrastructure system. Groundwater is not used at the *subject property*. The *subject property* is currently vacant and not occupied.

#### 3.5 Wells

No evidence for the occurrence of water supply wells, dry wells, irrigation wells, injection wells, and monitoring wells was observed during the site reconnaissance.

## 3.6 Clarifiers, Sumps, and Industrial Discharge Sources

No evidence for the occurrence of clarifiers, sumps, and industrial discharge sources was observed during the site reconnaissance of the *subject property*.

## 3.7 Storage Tanks

No evidence was found for the occurrence of underground storage tanks (USTs) or aboveground storage tanks (ASTs), or associated dispensers and amenities, at the *subject property*.

#### 3.8 Pits, Ponds, and Lagoons

No pits, ponds, or lagoons occur on or near the *subject property*.

#### 3.9 Wetlands

The *subject property* is located in Potrero Hill District, an established residential neighborhood of San Francisco. There are no wetlands on or around the *subject property*.

#### 3.10 Pools of Liquid

No visible standing surface water or pools of liquid were observed during the site reconnaissance of the *subject property*.

#### 3.11 Surface Staining

No surface staining indicative of a spill of petroleum hydrocarbons or chemical substances, or other unusual surface residues or deposits, was observed during the reconnaissance of the *subject property*.

#### 3.12 Drums and Waste Refuse

The *subject property* was found to be free of trash and debris accumulations. No drums or other containers were observed during the site reconnaissance.

#### 3.13 Radon

Radon is a naturally occurring colorless, odorless gas that is the by-product of the decay of radioactive materials present in bedrock and soil throughout the United States. The potential for naturally-occurring radon to occur is related to geological formations and can be evaluated by consulting the National Radon Database developed by the U. S. Environmental Protection Agency (EPA) in cooperation with the USGS. The EPA has prepared maps to assist federal, state and local organizations to target their resources and to implement radon-resistant building codes. The map divides the country into three (3) radon zones, Zones 1, 2 and 3. Radon gas becomes a concern when it enters a building's indoor space through floor cracks, structural joints, or plumbing conduits.

Based on information in the EDR Radius Map<sup>TM</sup> Report with Geocheck® (**Appendix I**) that indicates San Francisco is in Zone 2 with a corresponding predicted average indoor radon gas level of less than the EPA residential screening level of 4.0 picoCuries per liter (pCi/L), naturally-occurring radon is not considered to be a significant environmental concern at the *subject property*.

#### 3.14 Polychlorinated Biphenyls, PCBs

The past use of polychlorinated biphenyls (PCBs) in electrical equipment such as transformers, fluorescent lamp ballasts, and capacitors was commonplace in the United

States. PCBs in electrical and mechanical equipment are controlled by EPA Regulation 40 CFR, Part 761. Although a PCBs survey was not in the scope of work for this Phase I ESA, no transformers or other electrical equipment were noted on the *subject property*.

#### 3.15 Asbestos

In 1975, the EPA promulgated a three-stage ban to prohibit the future use of asbestos-containing material (ACM) in buildings. An asbestos inspection is required prior to any renovation or demolition that would impact suspect ACM. Asbestos can be found in certain pre-1975 drywall, plaster, flooring, glues and adhesives, wall and ceiling tiles, and insulation materials. The Occupational Safety and Health Administration (OSHA) requires certain untested materials to be presumed to contain asbestos for buildings constructed prior to 1981.

There are no buildings on the *subject property* to warrant an environmental concern with respect to building associated ACM.

The available geological information indicates the area encompassing the *subject property* is underlain by the Franciscan Complex and serpentinite containing variable amounts of naturally occurring asbestos (NOA). Serpentinite with NOA may be encountered during trenching and excavation on the *subject property*, below the surficial sediments that mantle the Franciscan Complex bedrock. A present environmental asbestos exposure concern is not evident inasmuch as no outcrops of friable serpentinite were noted during the site reconnaissance.

#### 3.16 Lead-Based Paint

In 1978, the Consumer Product Safety Commission banned the use of lead as an additive in paint. Lead-based paint (LBP) is common on structures built prior to 1978. Like asbestos, if the paint is in good condition with no chalking, chipping or peeling, it presents little risk. LBP can create hazards during the demolition, renovation or remodeling of buildings and painted structures where lead dust may be generated. A LBP survey that includes the sampling and analysis of paint samples for lead is typically performed before demolition, renovation, or remodeling. Construction activities that disturb LBP would be subject to certain OSHA requirements pertaining to lead contained in 29 CFR 1910.1025 and 1926.62.

LBP is identified by the EPA as paint that contains more than 0.5 percent lead by dry weight. RCRA 40 CFR 261 requires the generator of construction demolition waste to characterize the wastes to determine if they are "hazardous wastes" with special disposal requirements. Lead is recognized by RCRA as having potential toxicity characteristics identifying it as a hazardous waste.

Although there are no existing buildings, the south portion of the *subject property* was occupied by a building dating to the 1940s-1950s. The building was removed in the early

1990s. The only LBP concern is the potential that residues of LBP may remain in shallow soil around the concrete foundation of the former building.

## 3.17 Aerially Deposited Lead

Lead in soils near roadways attributed to the historical use of lead in gasoline is referred to as aerially deposited lead (ADL). Because the *subject property* is in an established residential area and does not adjoin major highways or historical vehicular travel routes, ADL is not suspected to be a significant environmental concern at the *subject property*.

## 3.18 Traffic Stripes and Pavement Marking Materials

No significant traffic stripping or other types of pavement markings (paint, thermoplastic, tape) were observed during the site reconnaissance.

#### 4.0 ENVIRONMENTAL DATABASE AND FILES REVIEW

Environmental Data Resources, Inc. (EDR) of Milford, Connecticut was contracted to scan electronically available agency and environmental databases following guidelines in ASTM E1527-05. The results of the database scan are discussed below.

## 4.1 Topographic Maps

The following describes conditions in the vicinity of the *subject property* as inferred from reviewing topographical maps provided in EDR's Historical Topographic Map Report in **Appendix F**:

- 1895: The San Francisco Quadrangle, 15 Minute Series, dated 1895 (Scale: 1:62,500) shows the area that encompassing the *subject property* is developed with a street layout on the southern slope of a hill or ridge referenced as Potrero Nuevo. The street and block layout appears to include 25<sup>th</sup> Street, Missouri Street, and Connecticut Street. No structures are shown at the location of the *subject property* to the southeast of the intersection of 25<sup>th</sup> Street vs. Connecticut Street. The block layout in the vicinity consists of north-south and east-west aligned streets more or less resembling the existing street layout.
- 1915: The San Francisco Quadrangle, 15 Minute Series, dated 1915 (Scale: 1:62,500) shows the area encompassing the *subject property* is on a hillside sloping southward; no structures are shown in the area of the *subject property*. As compared to 1895, there is increased urbanization in the district and infilling of the Bay to the east.
- 1947: The San Francisco North Quadrangle, 7.5 Minute Series, dated 1947 (Scale: 1:24,000) shows the street and block layout around the *subject property* resembles existing conditions. No structures are shown in the area of the *subject property*. The north-south alignment of the Southern Pacific Railroad tracks is evident alongside Pennsylvania Avenue to the east of the *subject property*.
- <u>1948</u>: In the San Francisco North Quadrangle, 15 Minute Series, dated 1948 (Scale: 1:50,000), the area encompassing the *subject property* resembles conditions in 1947.
- <u>1950</u>: In the San Francisco North Quadrangle, 7.5 Minute Series, dated 1950 (Scale: 1:24,000), the street layout around the intersection of 25<sup>th</sup> Street and Connecticut Street resembles conditions in 1948. No structures are shown in the area of the *subject property*.
- <u>1956</u>: In the San Francisco North Quadrangle, 7.5 Minute Series, dated 1956 (Scale: 1:24,000), the street layout, topography, and features of the *subject property* vicinity resemble conditions in 1950.

- <u>1968:</u> In the San Francisco North Quadrangle, 7.5 Minute Series, dated 1968 (Scale: 1:24,000), the street layout, topography, and features of the *subject property* vicinity resemble conditions in 1956. A segment of Highway 280 is shown to the east of the *subject property* alongside the Southern Pacific Railroad and Pennsylvania Avenue.
- 1973: In the San Francisco North Quadrangle, 7.5 Minute Series, dated 1973 (Scale: 1:24,000), the street layout, topography, and features of the *subject property* vicinity resemble conditions in 1968. Highway 280 is evident to the east of the *subject property*.
- <u>1993</u>: In the San Francisco North Quadrangle, 7.5 Minute Series, dated 1993 (Scale: 1:24,000), the street layout, topography, and features of the *subject property* vicinity resemble conditions in 1973.
- 1995: In the San Francisco North Quadrangle, 7.5 Minute Series, dated 1995 (Scale: 1:24,000), the street layout, topography, and features of the *subject property* vicinity resemble conditions in 1993.

## 4.2 Aerial Photographs

Historical aerial photographs with coverage of the *subject property* were purchased from EDR to assess historical conditions and operations. EDR provided ten (10) aerial photos with coverage of the *subject property*. The photos are dated 1946, 1956, 1968, 1974, 1982, 1993, 1998, 2005, 2009, and 2010. The aerial photographs are presented in **Appendix G**. Google Maps provides a recent aerial photograph for comparison. The review of the aerial photos is presented in the attached **Table 1**.

## 4.3 Sanborn® Fire Insurance Maps

Sanborn® Fire Insurance (Sanborn®) Maps have been produced for approximately 12,000 cities and towns from 1867 to present. The maps contain useful information for assessing potential environmental impacts to a given site. The complete Sanborn® Library collection was searched by EDR and historical maps having coverage of the *subject property* were identified. EDR provided seven (7) maps dated 1999, 1991, 1989, 1987, 1975, 1950, and 1914 with coverage of the *subject property*. The EDR Sanborn® Map Report is presented in **Appendix H**. The review of the Sanborn® Maps is presented in the attached **Table 2**.

## 4.4 California Department of Water Resources

In February 2013, the California Department of Water Resources (DWR) was contacted to request a review of the DWR's well completion records. DWR responded that there were no well completion reports or well records for 1101 Connecticut Street.

## 4.5 California Regional Water Quality Control Board

In March 2013, the California Regional Water Quality Control Board, San Francisco Bay Region (RWQCB) was contacted to inquire on the availability of files for the *subject property*. The RWQCB responded that the agency had no files for 1101 Connecticut Street.

## 4.6 California Department of Toxic Substances Control

The Department of Toxic Substances Control (DTSC) maintains an electronic database (ENVIROSTOR) of environmental cases that are under the jurisdiction and oversight of DTSC. The database is accessible via the DTSC website at <a href="www.dtsc.ca.gov">www.dtsc.ca.gov</a>. The ENVIROSTOR database was researched in February 2013. No listings or records were found for 1101 Connecticut Street or the adjoining properties.

## 4.7 Bay Area Air Quality Management District

The Bay Area Air Quality Management District (BAAQMD) maintains files on air quality and permitting cases in the San Francisco Bay Area. In March 2013, the BAAQMD reviewed its records and responded that the agency had no files for 1101 Connecticut Street.

## 4.8 San Francisco Department of Public Health

The San Francisco Department of Public Health (SFDPH) maintains public records on underground storage tanks, above-ground storage tanks, local oversight program cases, hazardous waste facilities, environmental permits, and industrial cleanup program cases in San Francisco County. This City agency administers the Local Oversight Program and the Hazardous Materials Unified Program.

SFDPH was contacted in February 2013 to inquire on the availability of files. SFDPH reviewed its public records and reported there were no files for 1101 Connecticut Street.

The 1986 Maher Ordinance, as amended, requires an investigation of hazardous materials in soil at certain construction sites as a prerequisite for any building permit in the City. The Maher Area encompasses the area of San Francisco bayward of a historical, pre-1906 earthquake high tide line. This land area of San Francisco was largely created by landfill material where past industrial land uses and debris fill associated with the 1906 earthquake and bay reclamation often left hazardous residue in local soils and groundwater. The Maher Ordinance was developed to protect workers and citizens from exposure to potential hazardous waste during project construction.

The *subject property* is not within the Maher Area and therefore not subject to the Maher Ordinance.

## 4.9 San Francisco Fire Department

San Francisco Fire Department (SFFD) maintains public records on fire hazards and permits. SFFD was contacted in March 2013 to inquire on the availability of files pertaining to the *subject property*. SFFD reported there were no files for 1101 Connecticut Street.

#### 4.10 Environmental Databases Scan

A Radius Map<sup>TM</sup> Report with Geocheck® was purchased from EDR, one that includes a scan of federal, state and local regulatory and environmental databases (**Appendix I**). The report is designed to meet the due diligence search requirements of EPA 40CFR Part 312 and ASTM E1527-05 for evaluating environmental risk associated with real estate.

According to the USGS San Francisco North 7.5-minute topographic quadrangle map (USGS, 1995) and topographic information in **Appendix I**, the *subject property* is on a hillside with a southerly slope and elevation of approximately 102 feet above mean sea level.

The databases scanned by EDR for this Phase I ESA included the following among others:

Radius Search	Agency	Database	Type of Records
1 mile	EPA	RCRA CORRACTS	RCRA facilities undergoing corrective actions
	EPA	NPL	Sites designated for Superfund cleanup
	EPA	FUDS	Formerly Used Defense Sites where the US Army is actively working or will take cleanup action
	DTSC	ENVIROSTOR	Sites in DTSC's ENVIROSTOR database
	DTSC	RESPONSE	Response List Sites of permitted hazardous waste facilities and corrective action cleanups
	DTSC	HIST Cal-Sites	Historical database contains known and potential hazardous substances listed sites
	DTSC	HWP	Sites in the list of permitted hazardous waste facilities and corrective action cleanups
	SWRCB	Notify 65	Listing of California Proposition 65 incidents
	EPA	ROD	Record of Decision mandates a permanent remedy at an NPL (Superfund) site.
	EDR	MGP	EDR's proprietary manufactured gas plant database.
0.5 mile	EPA	CERCLIS	Sites under review by the EPA
	EPA	US Brownfields	Sites in the federal listing of brownfield sites

Radius Search	Agency	Database	Type of Records
	EPA	CERCL-NFRAP	Sites with no further remedial action planned
	EPA	Non-CORRACTS	Non-CORRACTS RCRA TSDFs
	SWRCB	LUST	Sites with LUSTs
	SWRCB	SLIC	Sites listed in SLIC
	SWRCB	CA FID UST	Listing of active and inactive UST locations
	SWRCB	HIST UST	Listings of historical UST sites
SWRCB H & DTSC		HIST CORTESE	Historical sites in the Cortese database associated with USTs and release sites
	DTSC	VCP	Low threat level sites with either confirmed or unconfirmed releases
0.25 mile	EPA	RCRA LQG	Large quantity generators that treat, store, and/or dispose of hazardous waste
	EPA	RCRA SQG	Small quantity generators that treat, store, and/or dispose of hazardous waste
	EPA	RCRA CESQG	Conditionally exempt SQGs
	EPA	RCRA NonGen	RCRAs not presently generating hazardous waste
	EPA	DRY CLEANERS	Sites in the EPA's dry cleaners list
	SWRCB	UST/AST	Sites with registered USTs and ASTs
	EDR	US Hist Auto Stat	EDR's historical listing of potential gas station/service station sites in the United States
	EDR	US Hist Cleaners	EDR's historical listing of potential dry cleaner sites in the United States
	SWRCB	SWEEPS UST	Sites in the SWEEPS UST database

TAT	- 4	-	

AST = Aboveground storage tank

CA FID = California Facility Inventory Database

Cal = California

CERCLIS = Comprehensive Environmental Response

CESQG = Conditionally Exempt Small Quantity Generator

CORRACTS = Corrective Action Reports

DTSC = Department of Toxic Substances Control

EDR = Environmental Data Resources, Inc.

EPA = Environmental Protection Agency

HWP = EnviroStor Permitted Facilities Listing

LQG = Large Quantity Generator

LUST = Leaking Underground Storage Tank

NFRAP = No Further Remedial Action Planned

NPL = National Priorities List

RCRA = Resource Conservation and Recovery Act

SLIC = Spills, Leaks, Investigations and Cleanups

SQG = Small Quantity Generator

SWEEPS = Statewide Environmental Evaluation and Planning System

SWRCB = State Water Resources Control Board

UST = Underground storage tank

VCP = Voluntary cleanup sites

The 1101 Connecticut Street property was not listed in any of the databases search by EDR.

The following summarizes the listings identified within a maximum one (1) mile radius of the target site, 1101 Connecticut Street (**Appendix I**):

Subject property listed in databases searched by EDR?	Yes		No 🖂
Sites within a 1/4-mile radius of the target site listed in databases searched by EDR?	Yes	≥ 24	No 🗌
National Priority List (NPL) sites within 1-mile radius of target site?	Yes		No 🖂
Comprehensive Environmental Response, Compensation And Liability Information System (CERCLIS) sites within 1/2-mile radius of target site?	Yes		No 🖂
CERCLIS No Further Remedial Action Planned (NFRAP) sites within 1/2-mile radius of target site?	Yes	⊠ 4	No 🗌
Resource Conservation and Recovery Act (RCRA) Corrective Action Sites (CORRACTS) within 1-mile radius of target site? RCRA Non-CORRACTS within 1/2-mile radius of	Yes		No 🖂

target site?	Yes	No 🖂
RCRA Large Quantity Generator (LQG) within 1/4-mile radius of target site?	Yes	No 🖂
RCRA Small Quantity Generator (SQG) within 1/4-mile radius of target site?	Yes 🖂 7	No 🗌
RCRA Non-Generators sites within 1/4-mile radius of target site?	Yes 🖂 2	No 🗌
DTSC's Historical California Sites (HIST Cal-Sites) within 1-mile radius of target site?	Yes 🖂 4	No 🗌
State Facility Inventory Database (FID) sites within 1/4 mile radius of target site?	Yes 🖂 6	No 🗌
Formerly Used Defense Sites (FUDS) within 1-mile radius of target site?	Yes 🛛 2	No 🗌
DTSC's deed restriction listing (DEED) within 1/2-mile radius of target site?	Yes 🛛 1	No 🗌
Integrated Waste Management Board (IWMB)'s Solid Waste Information System Solid Waste Facility (SWF)/ Landfill Facilities (LF), 1/2-mile radius of target site?	Yes 🛛 2	No 🗌
Federal Brownfield Sites (US BROWNFIEDLS) within 1/2-mile radius of target site?	Yes 🗌	No 🖂
DTSC RESPONSE listed sites within 1-mile radius of target site?	Yes 🖂 4	No 🗌
DTSC ENVIROSTOR listed sites within 1-mile radius of target site?	Yes 🛛 21	No 🗌
DTSC Voluntary Cleanup (VCP) sites within 1/2-mile radius of target site?	Yes 🛛 1	No 🗌
Underground Storage Tank (UST) sites within 1/4-mile radius of target site? State Water Resources Control Board (SWRCB)'s Leaking Underground Storage Tank (LUST) sites	Yes 🖂 4	No 🗌

within 1/2-mile radius of target site?	Yes 🖂 64	No 🗌
SWRCB's Spills, Leaks, Investigations and Cleanups (SLIC) sites within 1/2-mile radius of target site?	Yes 🛛 2	No 🗌
Sites with registered USTs listed in HIST UST within 1/4-mile radius of target site?	Yes 🛛 3	No 🗌
Sites in the Notify Proposition 65 list within 1-mile radius of target site?	Yes 🛭 5	No 🗌
State historical Cortese's hazardous waste and substance sites within 1/2-mile radius of target site?	Yes 🛭 37	No 🗌
Cortese listed sites designated by the SWRCB, IWMB, and DTSC within 1/2-mile radius of target site?	Yes 🛭 3	No 🗌
State Cleaner Facilities (DRY CLEANERS) within 1/4-mile radius of target site?	Yes 🛛 1	No 🗌
Statewide Environmental Evaluation and Planning System (SWEEPS) UST sites within 1/4-mile radius of target site?	Yes ⊠ 6	No 🗌
EDR's Proprietary Manufactured Gas Plants (MGP)n within 1-mile radius of target site?	Yes 🛛 1	No 🗌
EDR's potential historical auto station sites within 1/4-mile radius of target site?	Yes 🖂 7	No 🗌
EDR's potential dry cleaner sites within 1/4-mile radius of target site?	Yes 🖂 3	No 🗌
Orphan sites identified in the EDR database scan?	Yes 🛭 20	No 🗌

#### 4.11 Assessment of Database Listings

To assess the significance to the *subject property*, the sites identified in the EDR's Radius Map<sup>TM</sup> Report with Geocheck® were evaluated by reviewing site details provided by EDR and other sources, such as EPA Region 9's website at www.epa.gov/aboutepa/region9, SWRCB's Geotracker database at www.geotracker.swrcb.ca.gov, and DTSC's ENVIROSTOR database via www.dtsc.ca.gov.

The listings identified in EDRs Radius Map<sup>TM</sup> with Geocheck® were discounted as posing a significant environmental concern to the *subject property* for the following reasons:

- Many of the listings were for tracking of hazardous materials or waste at commercial and industrial sites located in the radius search area. RCRA-SQG, RCRA-SQG, HAZNET, and FINDS contain information on sites that generate, transport, store, treat, and/or dispose of hazardous materials, or in the past, generated, transported, stored, treated and/or disposed of hazardous materials. Database listings include petroleum hydrocarbons and other hazardous materials release and remediation cases, as well as facilities engaged in operations that use or generate hazardous materials or waste. A portion of these listings are located along and south of Cesar Chavez Street to the southeast and southwest at lower topographic elevations, and hydraulically downgradient of the subject property. Commercial and industrial listings more than \(^1\)4-mile to the northeast and southeast of the *subject property*, including those along the waterfront, are relatively distant and topographically at lower elevations in areas where groundwater flow is towards the Bay away from the *subject property*. The remaining hazardous material tracking database listings are more than 1/4-mile west, north and northwest of the subject property where surface topography and groundwater flow do not suggest a potential impact risk to the *subject property*.
- Petroleum hydrocarbons and hazardous materials release sites (ENVIROSTOR, LUST, HIST CORTESE, SLIC, SWEEPS UST, CA FID UST, HIST UST, RESPONSE, VCP, FINDS, HIST Cal) southeast to southwest of the *subject property*, along and south of Cesar Chavez Street, are topographically at lower elevations, and relatively downgradient with respect to groundwater flow, and therefore, considered unlikely to adversely impact the *subject property*.
- The EDR listed site to the subject property, Heieck Supply at 1111 Connecticut Street (CA FID UST, SWEEPS UST) is located approximately 144 feet south of the *subject property*. This historical wholesale plumbing supply facility is topographically at a lower elevation, and relatively downgradient with respect to the inferred groundwater flow. Therefore, any potential releases at 1111 Connecticut Street are unlikely to adversely impact the *subject property*.

- Petroleum hydrocarbons and hazardous materials release sites (ENVIROSTOR, LUST, HIST CORTESE, SWEEPS UST, CA FID UST, UST, HIST UST, RESPONSE, VCP, FINDS, HIST Cal) southeast to northeast of the *subject property* are topographically at lower elevations and located on the eastern sloped side of Potrero Hill, or else on the waterfront, where groundwater flow is eastward towards the Bay. Given the distance and groundwater flow regime, releases of hazardous materials at these sites are considered unlikely to adversely impact the *subject property*.
- Petroleum hydrocarbons and hazardous materials release sites (ENVIROSTOR, LUST, HIST CORTESE, SWEEPS UST, CA FID UST, HIST UST, CERC-NFRAP, RESPONSE, VCP, FINDS, and HIST Cal) located to the north and northwest of the subject property are on the north-sloping side of Potrero Hill where available groundwater data suggest groundwater flow follows topography towards low lying and waterfront areas. Furthermore, release sites in the commercial and industrial area along the Bayshore Freeway to the northwest and southwest of the subject property are on the west-sloping side of Potrero Hill where topography and available groundwater data indicate groundwater flow is westward. Given the distance and groundwater flow regime, releases of hazardous materials from sites identified to the north, northwest, and southwest are considered unlikely to adversely impact the subject property.
- Some of the petroleum hydrocarbon and hazardous material releases sites with associated soil or groundwater impact, are distant from the *subject property*, and are either closed/mitigated cases or had releases limited to their property boundaries. No release sites were identified where the plume of impacted soil or groundwater extends to the vicinity of the *subject property*.

#### Orphan Sites

"Orphan sites" are sites that were not plotted with confidence by EDR, but were identified as located within or near the radius search area. EDR will not map a site that has inaccurate or incomplete address information. LEE reviewed available street address information, SWRCB's Geotracker database, and other sources of information to identify the location and environmental status of orphan sites. The evaluation indicated the orphan sites are not near the *subject property*, and do not pose an environmental concern for reasons discussed in Section 4.11.

The following orphan sites were identified (**Appendix I**):

Candlestick Point State Recreational Area (CERCLIS-NFRAP) is located near the bayshore in the Hunter's Point area, approximately 3.1 miles south-southeast of the *subject property*. EX USS Tripoli LPH 10 (RCRA-LQG) corresponds to a hazardous material tracking database listing for a waterfront site in the former Hunter's Point Naval Shipyard. The Bay

View Green Waste Mgt. Company Site (SWF/LF) refers to a solid waste handling facility in the Bayview Hunters Point District, 2.2 miles south-southeast of the *subject property*.

The SF Energy Company Cogeneration Project (VCP, ENVIROSTOR) refers to a site on infilled Bay near the Islais Creek Channel and Pier 94, approximately one (1) mile southeast of the *subject property*. SF Pier 98 India Basin (SWF/LF) in on bayfill along the India Basin waterfront, and Pier 80 (LUST) and Islais Creek Area (CERC-NFRAP) are on the waterfront near the Islais Creek Channel, between 0.5 and 2.0 miles southeast of the *subject property*. The Marina Vista Project (DEED, VCP, ENVIROSTOR) is also on the waterfront, in the South Beach Marina/China Basin, approximately 2.5 miles northeast of the *subject property*. SF Electric Reliability Project (SLIC) is a four (4) acre site near 25th Street and Maryland Street on the waterfront near Potrero Point, 0.6 miles east of the *subject property*.

Other waterfront sites include the Commercial Site near Evans and Keith Street (UST/LUST), a petroleum hydrocarbon release case that received case closure in October 2008, approximately 1.35 miles southeast of the *subject property*. The Brennan and Embarcadero Site corresponds to a LUST case near the South Beach Marina that received case closure in August 1996, approximately 2.6 miles northeast of the *subject property*.

The Pacific Gas and Electric Company (PGE) Gas Plant (CERC-NFRAP) is in downtown San Francisco, near the corner of Howard Street and 1st Street, approximately 2.8 miles north-northeast of the *subject property*.

Knudson Park (CERC-NFRAP) attained No Further Action status in 1985 and is located on the west side of the Bayshore Freeway between 25th and 26th Streets, 0.5 miles west-southwest of the *subject property*. California Beverages on Cesar Chavez Street received case closure in September 2000, approximately 0.4 miles southwest of the *subject property*. The California Highway Patrol Site (DEED, VCP, ENVIROSTOR) received case closure in May 2007 and is located approximately 0.4 miles north-northwest of the *subject property*.

The Pacific Bell Sites (SWEEPS UST, CHMIRS, HIST UST) are also too distant to be significant. Pacific Bell (R1-009) received case closure in December 1996 and is approximately 1.5 miles to the north-northeast. Pacific Bell (TD-043) is in Gualala, Mendocino County north of San Francisco.

#### 5.0 FINDINGS AND CONCLUSIONS

LEE performed a Phase I ESA of 1101 Connecticut Street, San Francisco, California (*subject property*) in general conformance with the scope and limitations of ASTM E1527-05.

## 5.1 Site Description and History

Based on information gathered during the performance of the Phase I ESA, the *subject property* was developed in the 1940s into a children's nursery and development center (Potrero Terrace Children's Center and Day Nursery) housed in a one (1)-story building. Located in south slope of the Potrero Hill District, the *subject property* is in an established residential neighborhood with multi-family apartment buildings of SFHA's Potrero Terrace and Potrero Annex Public Housing Projects. In the early 1990s, the nursery and day care building was removed after a truck crashed into and heavily damaged the building. The concrete foundation of the former building remains in-situ in the south portion of the *subject property*. The north portion consists of south to southeast sloping ground surfaced with grass. The *subject property* has remained vacant and in disuse since the early 1990s.

## 5.2 Recognized Environmental Conditions

Recognized Environmental Conditions (RECs) are defined by ASTM E1527-05 as "the presence or likely presence of any hazardous substances or petroleum products on a property under conditions that indicate an existing release, a past release, or a material threat of a release of any hazardous substances or petroleum products into structures on the site or into the ground, groundwater, or surface water of the site."

No RECs were identified in connection with the *subject property* at 1101 Connecticut Street.

## 5.3 Historical Recognized Environmental Conditions

A Historical Recognized Environmental Condition (HREC) is defined by ASTM E1527-05 as "an environmental condition which in the past would have been considered a recognized environmental condition, but which may or may not be considered a REC currently."

No HRECs were identified in connection with the *subject property* at 1101 Connecticut Street.

#### 5.4 Business Environmental Risk

Business Environmental Risk (BER) is defined by ASTM E1527-05 as "a risk that can have a material environmental or environmentally-driven impact on the business associated with the current or planned use of a parcel of commercial real estate, not necessarily limited to those environmental issues required to be investigated in this practice. Consideration of

business environmental risk issues may involve addressing one or more non-scope considerations." BERs may affect liabilities and financial obligations, health and safety concerns, and the value and marketability of a property.

The following BER is recognized with respect to the *subject property*. Although there are no buildings currently on the *subject property*, the concrete foundation of a 1940's-era building remains in the south portion of the *subject property*. There is the potential that pesticides were historically applied for weed abatement and pest control and to maintain the building perimeter, and that residues of pesticides as well as of lead-based paint may occur in shallow soil around the perimeter of the concrete foundation of the building removed in early 1990s. However, any existing contaminants in soil likely pose a low human risk inasmuch as the *subject property* is in disuse, and the chain-link fencing around the former building site and ground vegetation provide a physical barrier to potential human receptors.

#### 5.5 De Minimis Environmental Conditions

De Minimis environmental conditions are defined by ASTM E1527-05 as environmental conditions that "generally do not present a threat to human health or the environment and that generally would not be the subject of an enforcement action if brought to the attention of appropriate governmental agencies."

No De Minimis conditions were identified in connection with the *subject property* at 1101 Connecticut Street.

## 6.0 RECOMMENDATIONS

The following recommendation is made to address the BER identified in Section 5.4. In the event redevelopment of the *subject property* is planned, soil characterization should be performed to evaluate the potential of historical residues of pesticides and lead-based paint in shallow soils around the footprint of the former nursery and day care center. Construction worker safety, a health and safety plan, and a soil management plan should be developed prior to redevelopment of the *subject property*.

			Aerial Photo Description	
Site and Address	Current Conditions	2010	2009	2005
		Good Resolution	Good Resolution	Moderate Resolution
1101 Connecticut Street (subject property)	The south portion of the subject property is underlain by concrete representing the foundation of a former building removed in the 1990s. The concrete surfaced area is on relatively flat grade and enclosed by chain link fencing. The remainder consists of grass-covered ground that slopes south to southeast.	Subject property features resemble current conditions.	Subject property features resemble conditions in 2010.	Subject property features resemble condition in 2009.
Adjoining Properties	s to the North			
25th Street	Public sidewalk and roadway of 25th Street.	Street features resemble current conditions.	Street features resemble conditions in 2010.	Street features resemble conditions in 2009.
Potrero Terrace Public Housing, SFHA, 1095 Connecticut Street	Rows of multi-family residential buildings of 2- to 3-stories with landscaped areas and sidewalks occupying the block bound by 25th Street, Connecticut Street, 23rd Street, Dakota Street, and Wisconsin Street. Dedicated vehicular parking areas occur off 25th Street, Connecticut Street, and Dakota Street.	Property features and building layout resemble current conditions.	Property features and building layout resemble conditions in 2010.	Property features and building layout resemble conditions in 2009.
Adjoining Properties	s to the Northwest			
SFHA Parcel Lot 001A, Block 4287	The parcel (5,000 square feet) is occupied by a concrete surfaced basketball court open to the public, at the SE corner of the Connecticut Street vs. 25th Street intersection.	Parcel features resemble current conditions.	Parcel features resemble conditions in 2010.	The area resembles conditions in 2009.
Intersection of 25th Street and Connecticut Street	Public sidewalk and roadway at the 25th Street vs. Connecticut Street intersection.	Street features resemble current conditions.	Street features resemble conditions in 2010.	Street features resemble conditions in 2009.
Potrero Terrace Public Housing, SFHA, 1095 Connecticut Street	Rows of multi-family residential buildings of 2-to 3-stories with landscaped areas and sidewalks occupying the east portion of the block bound by 25th Street, Connecticut Street and Wisconsin Street. Dedicated vehicle parking areas occur off 25th Street and Connecticut Street.	Property features and building layout resemble current conditions.	Property features and building layout resemble conditions in 2010.	Property features and building layout resemble conditions in 2009.
Adjoining Properties	s to the West			
Connecticut Street	Public sidewalk and roadway of Connecticut Street	Street features resemble current conditions.	Street features resemble conditions in 2010.	Street features resemble conditions in 2009.
Potrero Terrace Public Housing, SFHA, 1095 Connecticut Street	Rows of multi-family residential buildings of 1-, 2- and 3-stories with landscaped areas and sidewalks occupying the block bound by 25th Street, Connecticut Street, 26th Street, and Wisconsin Street. Dedicated vehicle parking areas occur off 25th Street, Connecticut Street, and 26th Street.	Property features and building layout resemble current conditions.	Parcel features and building layout resemble condition in 2010.	Parcel features and building layout resemble conditions in 2009.
Adjoining Properties	s to the South			
1113 Connecticut Street	Light industrial condominium facility with a warehouse-type building having a mezzanine and adjoining paved driveway and parking area.	Property features and building layout resemble current conditions.	Property features and building layout resemble conditions in 2010.	Property features and building layout resemble conditions in 2009.
Adjoining Properties	s to the East			
Missouri Street	The right of way (ROW) of Missouri Street. The ROW fronting the subject property consists of a steeply sloped surface partially covered with low vegetation. Evidence of past mass erosion and debris slides noted along the base of the slope. The ground surface slopes steeply south-southeast to the north end of the graded and paved portion of Missouri Street ROW.	Area resembles current conditions.	Area resemble conditions in 2010.	Area resembles conditions in 2009.
1200 Mississippi Street	Paved vehicle parking lot with a south-sloped cliff face along 25th Street. South of the parking lot, there is a building complex with adjoining paved parking area.	Property features and building layout resemble current conditions.	Property features and building layout resemble conditions in 2010.	Parcel features and building layout resemble conditions in 2009.

Site and Address	Current Conditions		Sanborn® Map Description	
Site and Address	Current Conditions	1999	1991	1989
1101 Connecticut Street (subject property)	The south portion of the <i>subject property</i> is underlain by concrete representing the foundation of a former building removed in the 1990s. The concrete surfaced area is on relatively flat grade and enclosed by chain link fencing. The remainder consists of grass-covered ground that slopes south to southeast.	No structures are evident on the parcel.	A buildring or structure labeled "Nursery" is evident in the southern portion of the <i>subject property</i> . Two auxiliatry 1 story structures adjoing the south side of the building.	
Adjoining Properties	s to the North			
25th Street	Public sidewalk and roadway of 25th Street.	Street features resemble current conditions.	Street features resemble those evident in 1999.	Street features resemble those evident in 1991.
Potrero Terrace Public Housing, SFHA, 1095 Connecticut Street	Rows of multi-family residential buildings of 2- to 3-stories with landscaped areas and sidewalks occupying the block bound by 25th Street, Connecticut Street, 23rd Street, Dakota Street, and Wisconsin Street. Dedicated vehicular parking areas occur off 25th Street, Connecticut Street, and Dakota Street.	Property features and building layout resemble current conditions; building complex is labeled "Potrero Terrace SFHA."	Property features and building layout resemble conditions in 1999.	Property features and building layout resemble those evident in 1991.
Adjoining Properties	s to the Northwest			
SFHA Parcel Lot 001A, Block 4287	The parcel (5,000 square feet) is occupied by a concrete surfaced basketball court open to the public, at the SE corner of the Connecticut Street vs. 25th Street intersection.	The outline of the parcel is not shown.	In contrast to 1999, the parcel perimeter is outlined.	The area resembles conditions in 1991.
Intersection of 25th Street and Connecticut Street	Public sidewalk and roadway at the 25th Street vs. Connecticut Street intersection.	Street features resemble current conditions.	Street features resemble conditions in 1999.	Street features resemble conditions in 1991.
Potrero Terrace Public Housing, SFHA, 1095 Connecticut Street	Rows of multi-family residential buildings of 2-to 3-stories with landscaped areas and sidewalks occupying the east portion of the block bound by 25th Street, Connecticut Street and Wisconsin Street. Dedicated vehicle parking areas occur off 25th Street and Connecticut Street.	Property features and building layout resemble current conditions.	Property features and building layout resemble conditions in 1999.	Property features and building layout resemble those evident in 1991.
Adjoining Properties	s to the West			,
Connecticut Street	Public sidewalk and roadway of Connecticut Street	Street features resemble current conditions.	Street features resemble those evident in 1999.	Street features resemble those evident in 1991.
Potrero Terrace Public Housing, SFHA, 1095 Connecticut Street	Rows of multi-family residential buildings of 1-, 2- and 3-stories with landscaped areas and sidewalks occupying the block bound by 25th Street, Connecticut Street, 26th Street, and Wisconsin Street. Dedicated vehicle parking areas occur off 25th Street, Connecticut Street, and 26th Street.	Property features and building layout resemble current conditions; labeling reads "Potrero Terrace, Federal Housing Project."	Parcel features and building layout resemble those evident in 1999.	Parcel features and building layout resemble those evident in 1991.
Adjoining Properties	s to the South			,
1113 Connecticut Street	Light industrial condominium facility with a warehouse-type building having a mezzanine and adjoining paved driveway and parking area.	Parcel features resemble current conditions; labeling reads "7 - W.HO" and "Conc. Park'g Ramp."	No structures are shown on the parcel.	Area features resemble those evident in 1991.
Adjoining Properties	s to the East	1	1	I
Missouri Street	The right of way (ROW) of Missouri Street. The ROW fronting the <i>subject property</i> consists of a steeply sloped surface partially covered with low vegetation. Evidence of past mass erosion and debris slides noted along the base of the slope. The ground surface slopes steeply south-southeast to the north end of the graded and paved portion of Missouri Street ROW.	Missouri Street is shown extending north to end at 25th Street.	Missouri Street ROW features resemble those evident in 1999.	Missouri Street ROW features resemble those evident in 1991.
1200 Mississipi Street	Paved vehicle parking lot with a south-sloped cliff face along 25th Street. South of the parking lot, there is a building complex with adjoining paved parking area.	No structures are shown directly east of the <i>subject</i> property and Missouri Street ROW; labeling reads "Steep Cliff." A building complex of 1- to 2-stories occurs further to the south, resembling the current complex on the south portion of 1200 Mississippi Street.	Parcel features and building layout resemble those evident in 1999.	Parcel features and building layout resemble those evident in 1991.

SFUSD Facilities Use Permit Application

Page 3 of 5

#### **TERMS & CONDITIONS OF THE FACILITIES USE PERMIT**

- 1. Site Principal. The site principal has full authority and responsibility for supervision and management of School Property at all times.
- 2. Public School Purposes Are Primary. Use of School Property shall be primarily for public school purposes, and consistent with Cal. Education Code 38130-38138. Any use of the Property for other than a public school purpose shall be secondary and subordinate to this primary purpose. School Property shall not be available to non-school organizations on such occasions or during such hours as have been scheduled in advance by the school principal for school exercises or functions in connection with school activities. The District may terminate any Permit where conflicting dates have resulted or where need of the Property for public school purposes has subsequently developed. The District may terminate any Permit at any time upon provision of written notice pursuant to Section 10 (\*Termination\*).
- 3. Definitions. "Applicant/Permittee" or either of these terms used individually, as used herein shall refer to the party that completed the Permit Application, any representative of such party. Applicant/Permittee shall be legally bound by the Permit if it is approved by the District and fully executed.
- "Facilities Use Permit Application," "Permit Application," "Permit," and "Application" as used herein shall refer to the Permit Application completed by the Applicant/Permittee, and shall also refer to the Permit which shall be legally binding on the parties if approved by SFUSD and fully executed.
- "School Property" or "Property" as used in herein shall refer to the School Property listed in this Permit and shall include without limitation all buildings, grounds, appurtenances, furnishings and equipment therein/thereon.
- "SFUSD" and "District" as used herein shall refer to the San Francisco Unified School District.
- 4. Use of School Mail, Telephone, Storage is Prohibited. The school site whose Property Permittee requests to use assumes no responsibility for Permittee's mail. Use of school mail or telephone by Permittee is prohibited. Storage of personal and/or organizational supplies or equipment by Permittee on School Property is prohibited.
- 5. Access to School Property; District Custodian. After a Permit is approved, the Real Estate Office will work with the Custodial Dept. to assign a District custodian to open the School Property. Opening of the School Property for use will be dependent upon Permittee showing a valid, approved Permit to the custodian. The custodian will be on duty during Permittee's time of usage, will be in charge of the School Property during that time, and will secure the Property after such use. The custodian is empowered to enforce the rules applicable to Permittee's use of the Property. Permittee shall cooperate with requests and orders from the custodian, or other District representative, regarding compliance with the requirements of the Permit and applicable rules. The custodian is required to report any violations or attempted violations to the principal and/or custodial supervisor. Whenever the District has reason to believe that Permittee has violated applicable rules regarding use of the School Property, the Permit may be terminated pursuant to Section 10 ("Termination"), and the violation may constitute grounds for denial of further use of School Property.
- 6. Furniture, Equipment and Systems. Permittee shall not remove or displace District furniture, equipment, or apparatuses. Permittee shall not use District computers, computer equipment, or network systems at any time. Only SFUSD employees may use District computers, computer equipment, or network systems. Permittee shall not staple or attach any item to walls, draperies or curtains. Except as approved in the Permit, or by the school principal at the time of use, Permittee shall not: (i) change or manipulate any School Property systems or controls, including without limitation stage or stage equipment controls, or (ii) use District audio/visual or related equipment. A Permittee that wishes to use District audio/visual or related equipment which may require an operator (including without limitation motion picture projectors, public-address systems, scoreboards, and lighting or sound control boards) shall submit Addendum E ("Audio/Visual Equipment Services Contract"). Approval and additional fees will apply. Kitchen use

- requires prior written approval of Student Nutrition Services, (415) 749-3604, and Permittee must submit Addendum C "Application for Use of Kitchen." Additional fees and terms will apply.
- 7. Use Pursuant to Approved Permit Only. District restricts access to the School Property except those areas designated for Permittee's use in the approved Permit. Neither the custodian, nor any school representative other than the principal, has the authority to allow Permittee to use any equipment, room or facilities that are not designated on the approved Permit. Permittee shall notify the Real Estate Office of any departure from the approved Permit that is allowed by the school principal by providing the Real Estate Office with a copy of the Permit showing handwritten revisions initiated by the principal. Permittee is responsible for additional charges resulting from change of use, per Section 21 ("Fee for Cancellation/Change").
- 8. Use of Designated Entrance/Exit and Restrooms Only. District restricts access to all exits, entrances, and restrooms, in or on the School Property except those designated for Permittee's use by the Principal or Custodian.
- 9. Prohibited Activities; Compliance. No food or beverages will be allowed for sale or use on or in School Property without the prior approval of SFUSD The following are prohibited on and in School Property: Smoking; possession or being under the influence of alcohol, intoxicants or narcotics; possession of a firearm or other weapon; possession of a dangerous substance including but not limited to flammable, explosive or otherwise hazardous materials; fighting, assault, or battery; gambling; or other conduct that poses a threat to the health or safety of self or others, or of property damage, at the sole discretion of the District. Permittee shall comply with all Permit requirements, applicable rules and laws in its use of the School Property. District reserves the right to add further requirements depending upon Permittee's requested use. Violation of Permit requirements or other applicable rules or laws by Permittee or any invitee or guest of Permittee shall constitute cause for termination of this Permit pursuant to Section 10 ("Termination") at the District's sole discretion. Such violation may also constitute grounds for denial of further use of School Property.
- 10. Termination. The District will have the option, in its sole discretion, to terminate this Permit at any time before or during the term hereof, for cause as provided in Section 9 ("Prohibited Activities; Compliance"), due to an emergency pursuant to Section 11 ("Termination Due to Emergency") or pursuant to Section 2 ("Public School Purposes Are Primary"). In the event of any termination, the District will provide written notice to Permittee. If use is already in progress, the notice will specify the date on which termination will become effective. A termination may be effective immediately. Permittee shall fully vacate the School Property on or before the effective date of termination. If District terminates a Permit pursuant to Section 11 ("Termination Due to Emergency") or Section 2 ("Public School Purposes Are Primary"), the District will refund the unused portion of any permit fee paid by Permittee. If District terminates for cause pursuant to Section 9 ("Prohibited Activities; Compliance"), Permittee will not be refunded any fees.
- 11. Termination Due to Emergency. The District may terminate any Permit pursuant to Section 10 ("Termination") in the event of an emergency situation including without limitation a natural disaster such as flood, earthquake or fire, or a health, sanitation, or safety issue such as a gas leak, plumbing or water main breach, pest infestation, or other such emergency, as determined by the District in its sole discretion.
- 12. Security. Permittee shall be responsible to protect School Property, and Permittee's participants, personnel and personal property associated with its events/activities held on School Property. The Real Estate Office or principal may require security and/or police protection for any event/activity. If so required, Permittee must submit Addendum B ("Security Contract") for District security (T10), or a private security contract if District security is not available or private security is preferred. Private security contracts require Real Estate Office approval. Permittee shall be responsible for all security/police costs.
- 13. Attachments. Any attachments required by the Real Estate Office are

incorporated and attached to this Permit as though fully set forth herein.

- 14. Permittee Announcements; Advertisements. Any announcement, advertisement or information distributed by Permittee about the event/activity on School Property shall include this disclaimer: "SFUSD neither endorses nor sponsors the organization or activity described in this document."
- 15. Recycling and Composting. All Permittees approved to use School Property on a more than one-time basis must comply with District Board Resolution 311-18A5 by instituting a comprehensive recycling and composting program to help meet the District's goal of 75% diversion by 2015 and 85% by 2025. Such Permittees may access a variety of resources from SF Dept. of Environment ("SFDOE") at (415) 355-3742. Every such Permittee must provide the name of its on-site contact to coordinate recycling and composting efforts with SFDOE. Every such Permittee shall contact SFDOE to see if a waste site assessment is needed, and shall ensure that all waste generated by its activities shall be sorted as follows: recyclable waste in designated recycling carts (blue); compostable food, garden, and/or soiled paper waste in designated compost carts (green); remaining waste items (e.g. styrofoam, plastic films, foil packaging, etc.) in designated trash carts (black). Permittees approved for a one-time use Permit shall also sort, as detailed above, any waste generated by Permittee's use of the Property.
- 16. Indemnity. Permittee shall indemnify, defend and hold harmless the San Francisco Unified School District, its Board, individual members thereof, and all District officers, agents and employees from any loss, damage, claim, demand, liability, obligation, cost or expense (including legal fees and cost of investigation) that may arise during or be caused in any way directly or indirectly by Permittee's use of School Property, including without limitation any injury, accident, illness, or death, or any loss or damage to personal or other property. Permittee shall protect School Property from damage and return it in substantially the same condition in which it was provided. In the event that any School Property is damaged, stolen or lost, Permittee shall pay the cost for repair or replacement thereof. This Section shall survive the termination or expiration of this Permit.
- 17. Waiver of Liability. Permittee acknowledges and agrees the Property is provided in its present condition and "as-is," and that any request to inspect the Property must be made prior to use. Permittee stipulates that the Property is clean, safe, and in usable condition. Permittee assumes all risks of the Property whether visible or not. Permittee agrees to fully RELEASE AND DISCHARGE (agreeing to make no claim, and not to sue) the District, its Board, employees, and agents, from any and all claims of injury, damage, loss, expense or other cost which Permittee may suffer, arising directly or indirectly, in whole or in part, from Permittee's use of the School Property, including without limitation any injury, accident, illness, or death, or any loss or damage to personal or other property occurring during or by reason of Permittee's use of the School Property. This Section shall survive the termination or expiration of this Permit.
- 18. Insurance. Without in any way limiting Permittee's liability under this Permit, Permittee shall procure and maintain during the term of this Permit a General Liability insurance policy with limits not less than \$1,000,000 (one million) each occurrence combined single limit for bodily injury and property damage. Coverage must include damage to rented premises with a sublimit, if any, of not less than \$100,000 (one hundred thousand). The General Liability policy must name as Additional Insured "San Francisco Unified School District, its Board, officers and employees." Such policy must be primary insurance to any other insurance available to the Additional Insured relating to any claims arising out of this Permit and must apply separately to each insured against who claim is made or suit is brought. Permittee must submit the insurance certificate and endorsement to the Real Estate Office at least 10 business days prior to the first scheduled use of School Property.
- 19. Application Fee. Permittee must pay a \$50 non-refundable application fee, due with Permittee's submission of the Facilities Use Permit Application.
- 20. Permit Fees. Any Permittee not exempt under the Civic Center Act will be charged for the use of School Property the fee rates in effect at the time

- of the use, as set forth in the Schedule of Fees, available from the Real Estate Office. For a Permittee qualifying under the Civic Center Act, there will be no charge for the use of School Property when the District custodian is on regular duty, provided that the Property is available and there is adequate time or personnel to cover the event. The Permittee is required to pay for current custodian overtime charges if there is not sufficient time for the custodian to clean and secure the Property within the custodian's regular working shift. The Permittee is required to pay for custodian overtime charges during any times and dates other than the custodian's regular work schedule for the Property. Full payment of any applicable Permit Fee is due no later than 15 business days prior to the first requested date of use. If a Permittee's check is returned due to insufficient funds. Permittee must submit payment via cashier's check or money order plus an additional \$50 for each returned check, or the District may terminate the Permit pursuant to Section 10 ("Termination"). A Permittee whose check is returned for insufficient funds may be required, for future use, to submit payment via cashier's check or money order.
- 21. Fee for Cancellation/Change. If Permittee decides, for whatever reason, not to use the Property as detailed in the Permit-including without limitation change of dates, change of use, or cancellation-Permittee must give written notice of such change(s) to the Real Estate Office at least 5 business days prior to the first requested use date. Permittee shall be responsible for any additional charges resulting from change of date or use, if approved. In the event of Permittee cancellation, District will refund Permit Fees upon written request by Permittee as follows. For cancellation at least 10 business days prior to the first requested use date, District will refund Permit Fees minus a 15% cancellation fee. For cancellation at least 5 business days prior to the first requested use date, District will refund Permit Fees minus a 30% cancellation fee. For cancellation less than 5 business days prior to the first requested use date, no refund will be issued. Notwithstanding the above, if Permittee owes an outstanding balance to District, any applicable refund shall be applied first to pay off such balance. with any remainder issued to Permittee at the end of the fiscal year.
- 22. Additional Fees. Permittee shall be responsible for any additional fees incurred if Permittee's actual use of the School Property goes beyond the use and schedule approved in the Permit.
- 23. Permit Application Process; Validity of Approved Permit. All arrangements for use of School Property must be made to the satisfaction of the Superintendent/designee, and are subject to the requirements detailed in this Permit Application, District policies, and California Education Code. A complete Facilities Use Permit Application—with all pages, signatures, required attachments, applicable fees, and insurance documentation—must be received by the Real Estate Office before it will be considered for approval. Failure to meet application requirements may result in delay/denial of the Application. A complete Application must be submitted to the Real Estate Office at least 20 business days prior to the first requested use date. In no event will the Real Estate Office accept any Application that is submitted less than 3 business days prior to the first use date. The Real Estate Office may not approve permits for an Applicant/Permittee with an outstanding balance. An approved Permit is only valid when signed by the Real Estate Office and with all pages and required attachments.
- 24. Permittee Affirmation and Signature. As the Applicant/Permittee for this Permit, I attest that I have read, understood and agree to be bound by the requirements herein for the use the designated School Property, if this Permit Application is approved by SFUSD.

Property Address:

1101 Connecticut Street, San Francisco, CA 94103

In response to the above referenced application for a policy of title insurance, OLD REPUBLIC TITLE COMPANY hereby reports that it is prepared to issue, or cause to be issued, as of the date hereof, a Policy or Policies of Title Insurance describing the land and the estate or interest therein hereinafter set forth, insuring against loss which may be sustained by reason of any defect, lien or encumbrance not shown or referred to as an Exception below or not excluded from coverage pursuant to the printed Schedules, Conditions and Stipulations of said policy forms.

The printed Exceptions and Exclusions from the coverage and Limitations on Covered Risks of said Policy or Policies are set forth in Exhibit A attached. The policy to be issued may contain an arbitration clause. When the Amount of Insurance is less than that set forth in the arbitration clause, all arbitrable matters shall be arbitrated at the option of either the Company or the Insured as the exclusive remedy of the parties. Limitations on Covered Risks applicable to the Homeowner's Policy of Title Insurance which establish a Deductible Amount and a Maximum Dollar Limit of Liability for certain coverages are also set forth in Exhibit A. Copies of the Policy forms should be read. They are available from the office which issued this report.

Please read the exceptions shown or referred to below and the exceptions and exclusions set forth in Exhibit A of this report carefully. The exceptions and exclusions are meant to provide you with notice of matters which are not covered under the terms of the title insurance policy and should be carefully considered.

It is important to note that this preliminary report is not a written representation as to the condition of title and may not list all liens, defects, and encumbrances affecting title to the land.

This report (and any supplements or amendments hereto) is issued solely for the purpose of facilitating the issuance of a policy of title insurance and no liability is assumed hereby. If it is desired that liability be assumed prior to the issuance of a policy of title insurance, a Binder or Commitment should be requested.

Dated as of October 31, 2012, at 7:30 AM

### OLD REPUBLIC TITLE COMPANY

For Exceptions Shown or Referred to, See Attached

Page 1 of 4 Pages

### OLD REPUBLIC TITLE COMPANY ORDER NO. 0227012414-DP

The form of policy of title insurance contemplated by this report is:

CLTA Standard Coverage Policy -1990; AND ALTA Loan Policy - 2006. A specific request should be made if another form or additional coverage is desired.

The estate or interest in the land hereinafter described or referred or covered by this Report is:

Fee

Title to said estate or interest at the date hereof is vested in:

San Francisco Unified School District, a political subdivision of the State of California

The land referred to in this Report is situated in the County of San Francisco, City of San Francisco, State of California, and is described as follows:

Beginning at the point of intersection of the Southerly line of Twenty-Fifth Street and the Westerly line of Missouri Street; running thence Southerly along said westerly line of Missouri Street 150 feet; thence at a right angle Westerly 200 feet to the Easterly line of Connecticut Street; thence at a right angle Northerly along said Easterly line of Connecticut Street 100 feet; thence at a right angle Easterly 100 feet; thence at a right angle Northerly 50 feet to said Southerly line of Twenty-Fifth Street; thence at a right angle Easterly along said Southerly line 100 feet to the point of beginning.

Being a portion of Potrero Nueva Block 253.

Assessor's Lot 007; Block 4287

At the date hereof exceptions to coverage in addition to the Exceptions and Exclusions in said policy form would be as follows:

- 1. NOTE: Assessor's Lot 007; Block 4287 is not being assessed for real property taxes for the fiscal year 2012 2013.
- 2. The lien of supplemental taxes, if any, assessed pursuant to the provisions of Section 75, et seq., of the Revenue and Taxation Code of the State of California.
- 3. The herein described property lying within the proposed boundaries of the City and County of San Francisco Special Tax District No. 2009-1 (San Francisco Sustainable Financing), as follows:

District No. : 2009-1

For : San Francisco Sustainable Financing

Disclosed by : Map filed December 7, 2009, in Book 1 of Maps of Assessment

and Community Facilities Districts, Page 33.

#### CALIFORNIA LAND TITLE ASSOCIATION STANDARD COVERAGE POLICY - 1990 EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy and the Company will not pay loss or damage, costs, attorneys' fees or expenses which arise by reason of:

- 1. (a) Any law, ordinance or governmental regulation (including but not limited to building or zoning laws, ordinances, or regulations) restricting, regulating, prohibiting or relating (i) the occupancy, use, or enjoyment of the land; (ii) the character, dimensions or location of any improvement now or hereafter erected on the land; (iii) a separation in ownership or a change in the dimensions or area of the land or any parcel of which the land is or was a part; or {iv} environmental protection, or the effect of any violation of these laws, ordinances or governmental regulations, except to the extent that a notice of the enforcement thereof or a notice of a defect, lien, or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.
  - (b) Any governmental police power not excluded by (a) above, except to the extent that a notice of the exercise thereof or notice of a defect, lien or encumbrance resulting from a violation or alleged violation affecting the land has been recorded in the public records at Date of Policy.
- 2. Rights of eminent domain unless notice of the exercise thereof has been recorded in the public records at Date of Policy, but not excluding from coverage any taking which has occurred prior to Date of Policy which would be binding on the rights of a purchaser for value without knowledge.
- 3. Defects, liens, encumbrances, adverse claims or other matters:
  - (a) whether or not recorded in the public records at Date of Policy, but created, suffered, assumed or agreed to by the insured claimant;
  - (b) not known to the Company, not recorded in the public records at Date of Policy, but known to the insured claimant and not disclosed in writing to the Company by the insured claimant prior to the date the insured claimant became an insured under this policy;.
  - (c) resulting in no loss or damage to the insured claimant;
  - (d) attaching or created subsequent to Date of Policy; or
  - (e) resulting in loss or damage which would not have been sustained if the insured claimant had paid value for the insured mortgage or for the estate or interest insured by this policy.
- 4. Unenforceability of the lien of the insured mortgage because of the inability or failure of the insured at Date of Policy, or the inability or failure of any subsequent owner of the indebtedness, to comply with the applicable doing business laws of the state in which the land Is situated.
- 5. Invalidity or unenforceability of the lien of the insured mortgage, or claim thereof, which arises out of the transaction evidenced by the insured mortgage and is based upon usury or any consumer credit protection or truth in lending law.
- 6. Any claim, which arises out of the transaction vesting in the insured the estate of interest insured by this policy or the transaction creating the interest of the insured lender, by reason of the operation of federal bankruptcy, state insolvency or similar creditors' rights laws.

#### **EXCEPTIONS FROM COVERAGE - SCHEDULE B, PART I**

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) which arise by reason of:

- 1. Taxes or assessments Which are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real property or by the public records.
  - Proceedings by a public agency which may result in taxes or assessments, or notices of such proceedings, whether or not shown by the records of such agency or by the public records.
- 2. Any facts, rights, interests, or claims Which are not shown by the public records but which could be ascertained by an inspection of the land which may be asserted by persons in possession thereof,
- 3. Easements, liens or encumbrances, or claims thereof, which are not shown by the public records.
- 4. Discrepancies, conflicts in boundary lines, shortage in area, encroachments, or any other facts which a correct survey would disclose, and which are not shown by the public records.
- 5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b) or (c) are shown by the public records.
- 6. Any lien or right to a lien for services, labor or material not shown by the public records.

### AMERICAN LAND TITLE ASSOCIATION LOAN POLICY OF TITLE INSURANCE - 2006 EXCLUSIONS FROM COVERAGE

The following matters are expressly excluded from the coverage of this policy, and the Company will not pay loss or damage, costs, attorneys' fees, or expenses that arise by reason of:

- 1. (a) Any law, ordinance, permit, or governmental regulation (including those relating to building and zoning) restricting, regulating, prohibiting, or relating to
  - (i) the occupancy, use, or enjoyment of the Land;
  - (ii) the character, dimensions, or location of any improvement erected on the Land;
  - (iii) the subdivision of land; or
  - (iv) environmental protection; or the effect of any violation of these laws, ordinances, or governmental regulations. This Exclusion 1(a) does not modify or limit the coverage provided under Covered Risk 5.
  - (b) Any governmental police power. This Exclusion 1(b) does not modify or limit the coverage provided under Covered Risk 6.
- 2. Rights of eminent domain. This Exclusion does not modify or limit the coverage provided under Covered Risk 7 or 8.
- 3. Defects, liens, encumbrances, adverse claims, or other matters
  - (a) created, suffered, assumed, or agreed to by the Insured Claimant;
  - (b) not Known to the Company, not recorded in the Public Records at Date of Policy, but Known to the Insured Claimant and not disclosed in writing to the Company by the Insured Claimant prior to the date the Insured Claimant became an Insured under this policy;
  - (c) resulting in no loss or damage to the Insured Claimant;
  - (d) attaching or created subsequent to Date of Policy (however, this does not modify or limit the coverage provided under Covered Risk 11, 13, or 14): or
  - (e) resulting in loss or damage that would not have been sustained if the Insured Claimant had paid value for the Insured Mortgage.
- 4. Unenforceability of the lien of the Insured Mortgage because of the inability or failure of an Insured to comply with applicable doing-business laws of the state where the Land is situated.
- 5. Invalidity or unenforceability in whole or in part of the lien of the Insured Mortgage that arises out of the transaction evidenced by the Insured Mortgage and is based upon usury or any consumer credit protection or truth-in-lending law.
- 6. Any claim, by reason of the operation of federal bankruptcy, state insolvency, or similar creditors' rights laws, that the transaction creating the lien of the Insured Mortgage, is
  - (a) a fraudulent conveyance or fraudulent transfer, or
  - (b) a preferential transfer for any reason not stated in Covered Risk 13(b) of this policy.
- 7. Any lien on the Title for real estate taxes or assessments imposed by governmental authority and created or attaching between Date of Policy and the date of recording of the Insured Mortgage in the Public Records. This Exclusion does not modify or limit the coverage provided under Covered Risk 11(b).

### EXCEPTIONS FROM COVERAGE - SCHEDULE B, PART 1, SECTION ONE

This policy does not insure against loss or damage (and the Company will not pay costs, attorneys' fees or expenses) that arise by reason of:

- (a) Taxes or assessments that are not shown as existing liens by the records of any taxing authority that levies taxes or assessments on real
  property or by the Public Records; (b) proceedings by a public agency that may result in taxes or assessments, or notices of such proceedings,
  whether or not shown by the records of such agency or by the Public Records.
- 2. Any facts, rights, interests, or claims that are not shown by the Public Records but that could be ascertained by an inspection of the Land or that may be asserted by persons in possession of the Land.
- 3. Easements, liens or encumbrances, or claims thereof, not shown by the Public Records.
- 4. Any encroachment, encumbrance, violation, variation, or adverse circumstance affecting the Title that would be disclosed by an accurate and complete land survey of the Land and not shown by the Public Records.
- 5. (a) Unpatented mining claims; (b) reservations or exceptions in patents or in Acts authorizing the issuance thereof; (c) water rights, claims or title to water, whether or not the matters excepted under (a), (b), or (c) are shown by the Public Records.
- 6. Any lien or right to a lien for services, labor or material not shown by the public records.

### OLD REPUBLIC TITLE COMPANY

### **Privacy Policy Notice**

### PURPOSE OF THIS NOTICE

Title V of the Gramm-Leach-Bliley Act (GLBA) generally prohibits any financial institution, directly or through its affiliates, from sharing nonpublic personal information about you with a nonaffiliated third party unless the institution provides you with a notice of its privacy policies and practices, such as the type of information that it collects about you and the categories of persons or entities to whom it may be disclosed. In compliance with the GLBA, we are providing you with this document, which notifies you of the privacy policies and practices of OLD REPUBLIC TITLE COMPANY

We may collect nonpublic personal information about you from the following sources:

Information we receive from you such as on applications or other forms.

Information about your transactions we secure from our files, or from [our affiliates or] others. Information we receive from a consumer reporting agency.

Information that we receive from others involved in your transaction, such as the real estate agent or lender.

Unless it is specifically stated otherwise in an amended Privacy Policy Notice, no additional nonpublic personal information will be collected about you.

We may disclose any of the above information that we collect about our customers or former customers to our affiliates or to nonaffiliated third parties as permitted by law.

We also may disclose this information about our customers or former customers to the following types of nonaffiliated companies that perform marketing services on our behalf or with whom we have joint marketing agreements:

Financial service providers such as companies engaged in banking, consumer finance, securities and insurance.

Non-financial companies such as envelope stuffers and other fulfillment service providers.

WE DO NOT DISCLOSE ANY NONPUBLIC PERSONAL INFORMATION ABOUT YOU WITH ANYONE FOR ANY PURPOSE THAT IS NOT SPECIFICALLY PERMITTED BY LAW.

We restrict access to nonpublic personal information about you to those employees who need to know that information in order to provide products or services to you. We maintain physical, electronic, and procedural safeguards that comply with federal regulations to guard your nonpublic personal information.

ORT 287-C 5/07/01

### Disclosure to Consumer of Available Discounts

Section 2355.3 in Title 10 of the California Code of Regulation necessitates that Old Republic Title Company provide a disclosure of each discount available under the rates that it, or its underwriter Old Republic National Title Insurance Company, have filed with the California Department of Insurance that are applicable to transactions involving property improved with a one to four family residential dwelling.

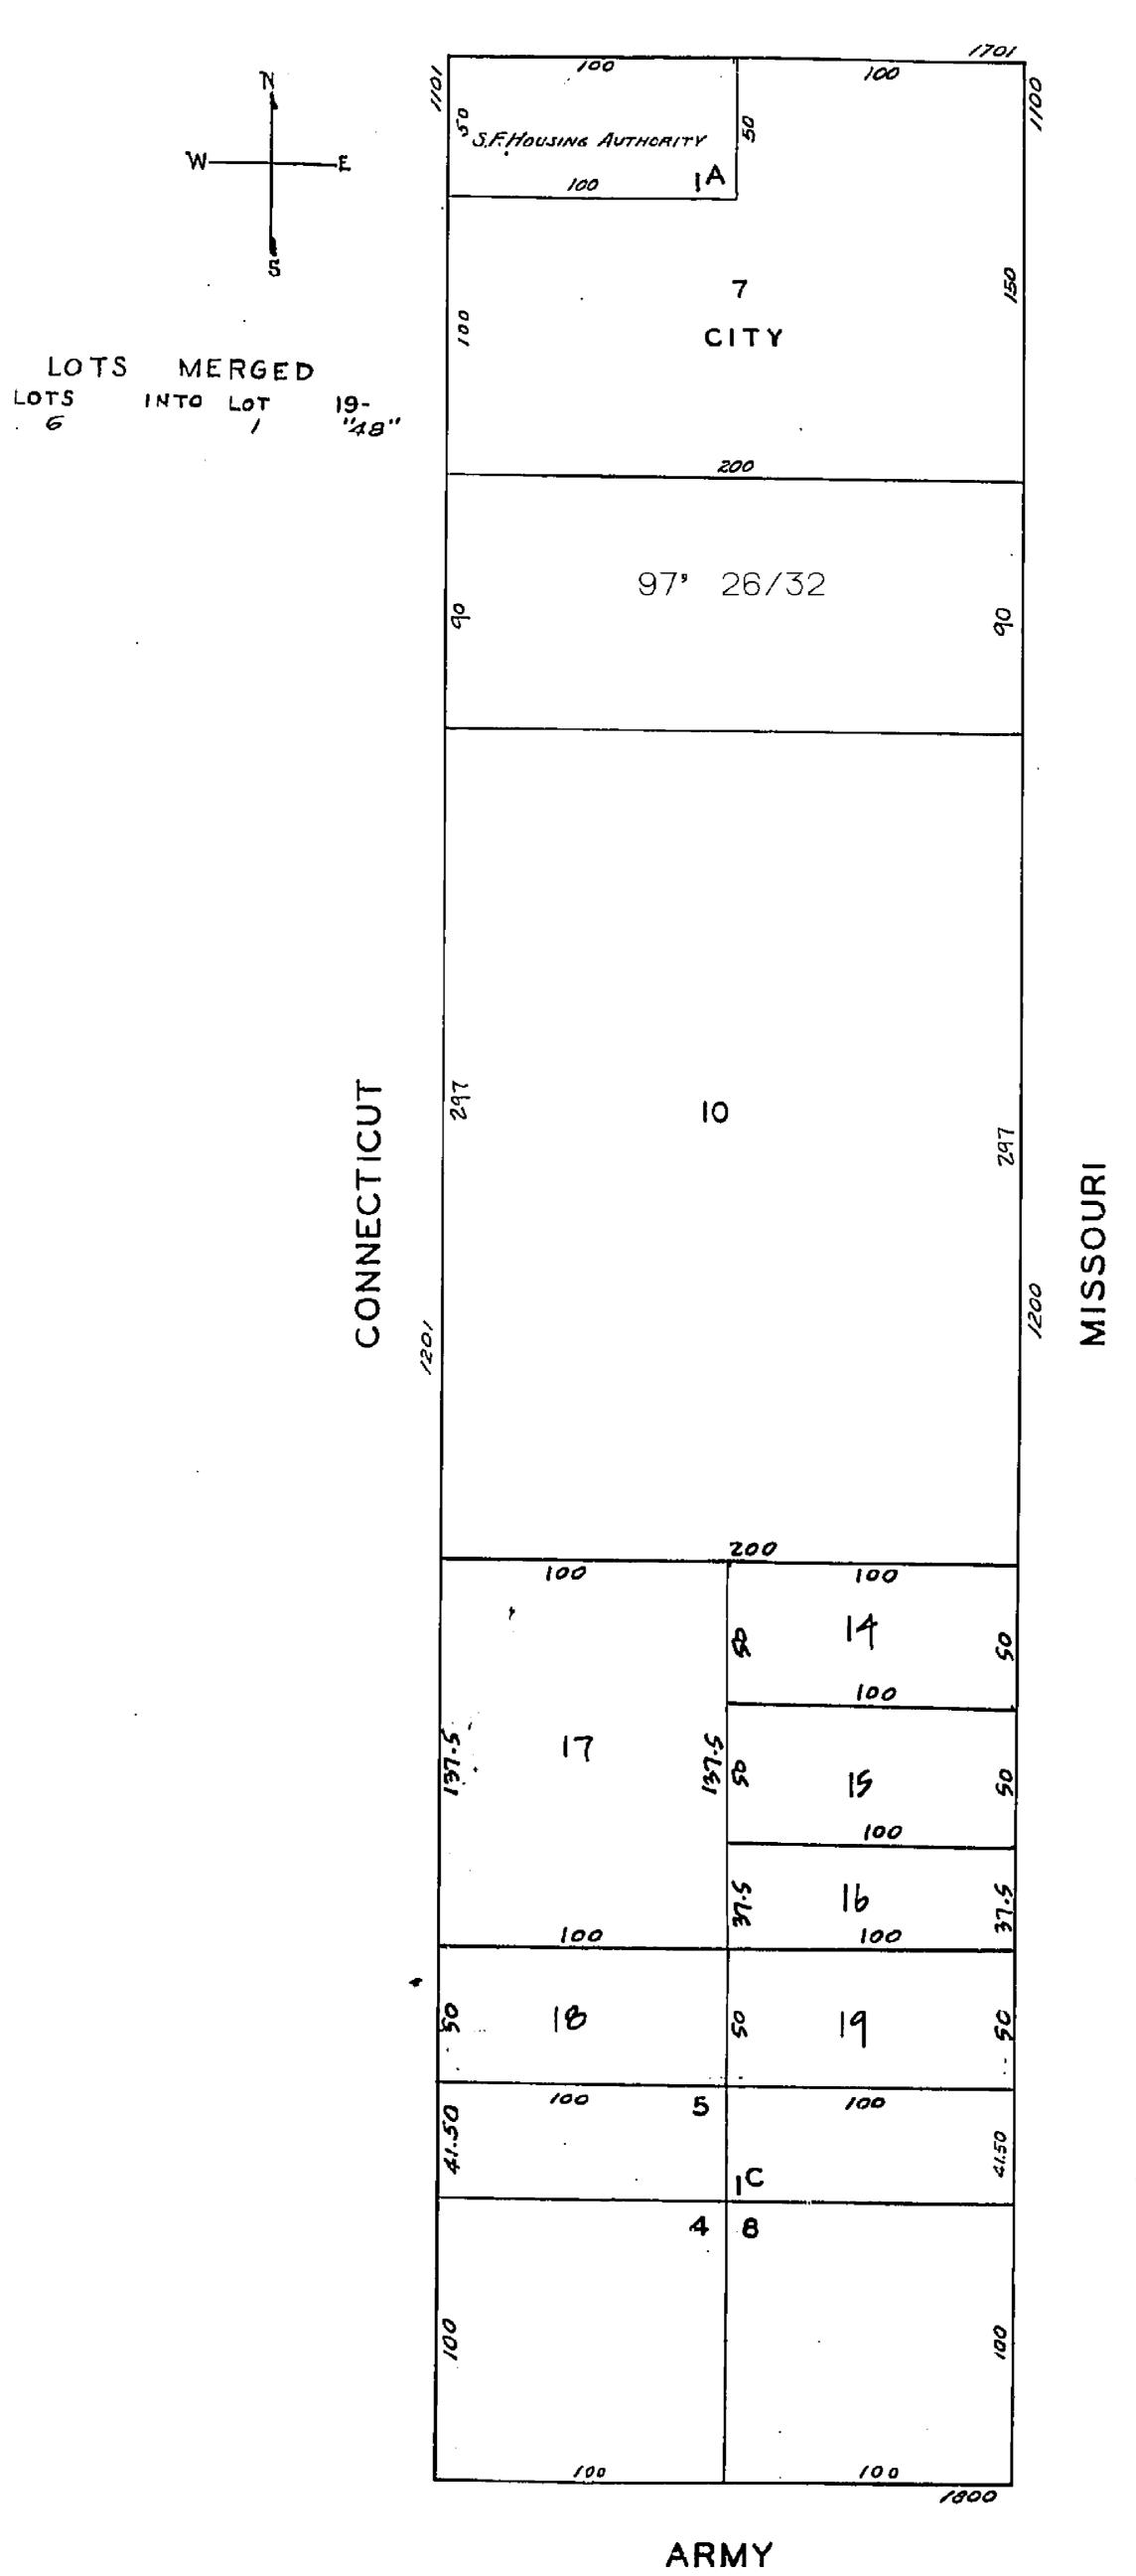

You may be entitled to a discount under Old Republic Title Company's escrow charges if you are an employee or retired employee of Old Republic Title Company including its subsidiary or affiliated companies or you are a member in the California Public Employees Retirement System "CalPERS" or the California State Teachers Retirement System "CalSTRS" and you are selling or purchasing your principal residence.

If you are an employee or retired employee of Old Republic National Title Insurance Company, or it's subsidiary or affiliated companies, you may be entitled to a discounted title policy premium.

Please ask your escrow or title officer for the terms and conditions that apply to these discounts.

A complete copy of the Schedule of Escrow Fees and Service Fees for Old Republic Title Company and the Schedule of Fees and Charges for Old Republic National Title Insurance Company are available for your inspection at any Old Republic Title Company office.

RE: SFUSD Surplus Sites - Historic Data and Interview

Hi Kevin,

I don't know what perspective I could possibly give but will do my best.

I'm available anytime between 7 a.m. and 4 p.m.

I can be reached at 241-4310.

Regards.

pc

Subject: SFUSD Surplus Sites - Historic Data and Interview

Hi Paul,

David Goldin passed on your contact email. I have a phase 1 consultant performing his report for due diligence on some of the SFUSD sites (1950 Mission, 11010 Connecticut, 200 Middlepoint Rd.).

Would you be available for a brief phone interview so that the consultant can get some of the historical perspective for his reports?

Thanks,

Kevin

Kevin Kitchingham

EDR Chain of Title Report

**1101 Connecticut** 1101 Connecticut Street San Francisco, CA 94107

Inquiry Number: 3519911.9S February 27, 2013

# The EDR Chain of Title Report

The EDR Chain of Title Report tracks a line of successive owners from the present back to 1940 of a particular parcel of property, linked together by recorded transactions which pass title. Available nationwide, this report provides a summary of a property's ownership history and is a valuable source for determining the prior uses of a property

A network of professional abstractors following established procedures, uses client supplied address Information to locate:

- · Historical Chain of Title research
- Leases and Miscellaneous

Thank you for your business.

Please contact EDR at 1-800-352-0050 with any questions or comments.

#### **EXECUTIVE SUMMARY**

# **DESCRIPTION**

Environmental Data Resources, Inc.'s (EDR) City Directory Abstract is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's City Directory Abstract includes a search and abstract of available city directory data. For each address, the directory lists the name of the corresponding occupant at five year intervals.

Business directories including city, cross reference and telephone directories were reviewed, if available, at approximately five year intervals for the years spanning 1910 through 2012. This report compiles information gathered in this review by geocoding the latitude and longitude of properties identified and gathering information about properties within 332 feet of the target property.

A summary of the information obtained is provided in the text of this report.

#### **RESEARCH SUMMARY**

EDR Historical Topographic Map Report

## 1101 Connecticut

1101 Connecticut Street San Francisco, CA 94107

Inquiry Number: 3519911.4

February 14, 2013

# **EDR** Historical Topographic Map Report

# **EDR Historical Topographic Map Report**

Environmental Data Resources, Inc.s (EDR) Historical Topographic Map Report is designed to assist professionals in evaluating potential liability on a target property resulting from past activities. EDRs Historical Topographic Map Report includes a search of a collection of public and private color historical topographic maps, dating back to the early 1900s.

**Thank you for your business.**Please contact EDR at 1-800-352-0050 with any questions or comments.

## **Disclaimer - Copyright and Trademark Notice**

This Report contains certain information obtained from a variety of public and other sources reasonably available to Environmental Data Resources, Inc. It cannot be concluded from this Report that coverage information for the target and surrounding properties does not exist from other sources. NO WARRANTY EXPRESSED OR IMPLIED, IS MADE WHATSOEVER IN CONNECTION WITH THIS REPORT. ENVIRONMENTAL DATA RESOURCES, INC. SPECIFICALLY DISCLAIMS THE MAKING OF ANY SUCH WARRANTIES, INCLUDING WITHOUT LIMITATION, MERCHANTABILITY OR FITNESS FOR A PARTICULAR USE OR PURPOSE. ALL RISK IS ASSUMED BY THE USER. IN NO EVENT SHALL ENVIRONMENTAL DATA RESOURCES, INC. BE LIABLE TO ANYONE, WHETHER ARISING OUT OF ERRORS OR OMISSIONS, NEGLIGENCE, ACCIDENT OR ANY OTHER CAUSE, FOR ANY LOSS OF DAMAGE, INCLUDING, WITHOUT LIMITATION, SPECIAL, INCIDENTAL, CONSEQUENTIAL, OR EXEMPLARY DAMAGES. ANY LIABILITY ON THE PART OF ENVIRONMENTAL DATA RESOURCES, INC. IS STRICTLY LIMITED TO A REFUND OF THE AMOUNT PAID FOR THIS REPORT. Purchaser accepts this Report AS IS. Any analyses, estimates, ratings, environmental risk levels or risk codes provided in this Report are provided for illustrative purposes only, and are not intended to provide, nor should they be interpreted as providing any facts regarding, or prediction or forecast of, any environmental risk for any property. Only a Phase I Environmental Site Assessment performed by an environmental professional can provide information regarding the environmental risk for any property. Additionally, the information provided in this Report is not to be construed as legal advice.

EDR Aerial Photo Decade Package

#### 1101 Connecticut

1101 Connecticut Street San Francisco, CA 94107

Inquiry Number: 3519911.5

February 15, 2013

# The EDR Aerial Photo Decade Package

### **EDR Aerial Photo Decade Package**

Environmental Data Resources, Inc. (EDR) Aerial Photo Decade Package is a screening tool designed to assist environmental professionals in evaluating potential liability on a target property resulting from past activities. EDR's professional researchers provide digitally reproduced historical aerial photographs, and when available, provide one photo per decade.

When delivered electronically by EDR, the aerial photo images included with this report are for ONE TIME USE ONLY. Further reproduction of these aerial photo images is prohibited without permission from EDR. For more information contact your EDR Account Executive.

Thank you for your business.
Please contact EDR at 1-800-352-0050
with any questions or comments.

#### **Disclaimer - Copyright and Trademark Notice**

This Report contains certain information obtained from a variety of public and other sources reasonably available to Environmental Data Resources, Inc. It cannot be concluded from this Report that coverage information for the target and surrounding properties does not exist from other sources. NO WARRANTY EXPRESSED OR IMPLIED, IS MADE WHATSOEVER IN CONNECTION WITH THIS REPORT. ENVIRONMENTAL DATA RESOURCES, INC. #### CODE STRUCTURAL UNIT

- Reinforced Concrete Frame
- Reinforced Concrete Joists, Columns, Beams, B. Trusses, Arches, Masonry Piers.
- Protected Steel Frame.
- Individually Protected Steel Joists, Columns, Beams, Trusses, Arches.
- Indirectly Protected Steel Frame
- Indirectly Protected Steel Joists, Columns, Beams, Trusses, Arches.
- Unprotected Steel Frame
- H. Unprotected Steel Joists, Columns, Beams, Trusses, Arches.
- Masonry Bearing Walls.

The coding for framing, floor and roof structural units as shown above used in describing the construction of fire-resistive buildings. In addion, reports for fire-resistive buildings will show the date built and wall onstruction when other than brick.

FP buildings have masonry floors and roof; concrete and/or directly or ndirectly protected steel framing; and clay brick, stone or poured con-

rete walls.

FPX buildings are FP buildings with inferior walls such as concrete looke, cement brick, metal or glass panels, etc.

NC buildings have unprotected steel framing and fire-resistive but non-nasonry floors and roof.

#### CODE STRUCTURAL UNIT

#### **Disclaimer - Copyright and Trademark Notice**

The EDR FieldCheck ®System enables EDR's customers to make certain online modifications to the maps and text contained in EDR Radius Map Reports. As a result, the maps and text contained in this Report may have been so modified. EDR has not taken any action to verify any such modifications, and this report and the findings set forth herein must be read in light of this fact. The EDR FieldCheck System accesses user-modified records from previously submitted reports. Any user-modified record from a previous report that is plotted outside the search radius of this report may not be included in this report.

This Report contains certain information obtained from a variety of public and other sources reasonably available to Environmental Data Resources, Inc. It cannot be concluded from this Report that coverage information for the target and surrounding properties does not exist from other sources. NO WARRANTY EXPRESSED OR IMPLIED, IS MADE WHATSOEVER IN CONNECTION WITH THIS REPORT. ENVIRONMENTAL DATA RESOURCES, INC. SPECIFICALLY DISCLAIMS THE MAKING OF ANY SUCH WARRANTIES, INCLUDING WITHOUT LIMITATION, MERCHANTABILITY OR FITNESS FOR A PARTICULAR USE OR PURPOSE. ALL RISK IS ASSUMED BY THE USER. IN NO EVENT SHALL ENVIRONMENTAL DATA RESOURCES, INC. BE LIABLE TO ANYONE, WHETHER ARISING OUT OF ERRORS OR OMISSIONS, NEGLIGENCE, ACCIDENT OR ANY OTHER CAUSE, FOR ANY LOSS OF DAMAGE, INCLUDING, WITHOUT LIMITATION, SPECIAL, INCIDENTAL, CONSEQUENTIAL, OR EXEMPLARY DAMAGES. ANY LIABILITY ON THE PART OF ENVIRONMENTAL DATA RESOURCES, INC. IS STRICTLY LIMITED TO A REFUND OF THE AMOUNT PAID FOR THIS REPORT. Purchaser accepts this Report "AS IS". Any analyses, estimates, ratings, environmental risk levels or risk codes provided in this Report are provided for illustrative purposes only, and are not intended to provide, nor should they be interpreted as providing any facts regarding, or prediction or forecast of, any environmental risk for any property. Only a Phase I Environmental Site Assessment performed by an environmental professional can provide information regarding the environmental risk for any property. Additionally, the information provided in this Report is not to be construed as legal advice.

Copyright 2013 by Environmental Data Resources, Inc. All rights reserved. Reproduction in any media or format, in whole or in part, of any report or map of Environmental Data Resources, Inc., or its affiliates, is prohibited without prior written permission.

EDR and its logos (including Sanborn and Sanborn Map) are trademarks of Environmental Data Resources, Inc. or its affiliates. All other trademarks used herein are the property of their respective owners.

A search of the environmental records was conducted by Environmental Data Resources, Inc. (EDR). EDR used the EDR FieldCheck System to review and/or revise the results of this search, based on independent data verification. The report was designed to assist parties seeking to meet the search requirements of EPA's Standards and Practices for All Appropriate Inquiries (40 CFR Part 312), the ASTM Standard Practice for Environmental Site Assessments (E 1527-05) or custom requirements developed for the evaluation of environmental risk associated with a parcel of real estate.

#### **SURROUNDING SITES: SEARCH RESULTS**

Surrounding sites were identified in the following databases.

Elevations have been determined from the USGS Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified. Sites with an elevation equal to or higher than the target property have been differentiated below from sites with an elevation lower than the target property.

Page numbers and map identification numbers refer to the EDR Radius Map report where detailed data on individual sites can be reviewed.

Sites listed in **bold italics** are in multiple databases.

Unmappable (orphan) sites are not considered in the foregoing analysis.

#### STANDARD ENVIRONMENTAL RECORDS

#### Federal CERCLIS NFRAP site List

CERC-NFRAP: Archived sites are sites that have been removed and archived from the inventory of CERCLIS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list this site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

An online review and analysis of the CERC-NFRAP list, as provided by EDR, and dated 11/02/2012 has revealed that there are 4 CERC-NFRAP sites within approximately 0.5 miles of the target property.

#### Federal RCRA generators list

RCRA-SQG: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

An online review and analysis of the RCRA-SQG list, as provided by EDR, and dated 02/12/2013 has revealed that there are 7 RCRA-SQG sites within approximately 0.25 miles of the target property.

#### State- and tribal - equivalent NPL

RESPONSE: Identifies confirmed release sites where DTSC is involved in remediation, either in a lead or oversight capacity. These confirmed release sites are generally high-priority and high potential risk.

An online review and analysis of the RESPONSE list, as provided by EDR, and dated 12/05/2012 has revealed that there are 4 RESPONSE sites within approximately 1 mile of the target property.

#### State- and tribal - equivalent CERCLIS

ENVIROSTOR: The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifies sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

An online review and analysis of the ENVIROSTOR list, as provided by EDR, and dated 12/05/2012 has revealed that there are 21 ENVIROSTOR sites within approximately 1 mile of the target property.

#### State and tribal landfill and/or solid waste disposal site lists

SWF/LF: The Solid Waste Facilities/Landfill Sites records typically contain an inventory of solid waste disposal facilities or landfills in a particular state. The data come from the Integrated Waste Management Board's Solid Waste Information System (SWIS) database.

An online review and analysis of the SWF/LF list, as provided by EDR, and dated 11/19/2012 has revealed that there are 2 SWF/LF sites within approximately 0.5 miles of the target property.

#### State and tribal registered storage tank lists

UST: The Underground Storage Tank database contains registered USTs. USTs are regulated under Subtitle I of the Resource Conservation and Recovery Act (RCRA). The data come from the State Water Resources Control Board's Hazardous Substance Storage Container Database.

An online review and analysis of the UST list, as provided by EDR, and dated 12/17/2012 has revealed that there are 4 UST sites within approximately 0.25 miles of the target property.

#### Other Ascertainable Records

RCRA NonGen / NLR: RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

An online review and analysis of the RCRA NonGen / NLR list, as provided by EDR, and dated 02/12/2013 has revealed that there are 2 RCRA NonGen / NLR sites within approximately 0.25 miles of the target property.

#### **EDR HIGH RISK HISTORICAL RECORDS**

#### **EDR Exclusive Records**

EDR MGP: The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

An online review and analysis of the EDR MGP list, as provided by EDR, has revealed that there is 1 EDR MGP site within approximately 1 mile of the target property.

EDR US Hist Auto Stat: EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

An online review and analysis of the EDR US Hist Auto Stat list, as provided by EDR, has revealed that there are 7 EDR US Hist Auto Stat sites within approximately 0.25 miles of the target property.

Environmental Interest/Information System

The NEI (National Emissions Inventory) database contains information on stationary and mobile sources that emit criteria air pollutants and their precursors, as well as hazardous air pollutants (HAPs).

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

#### Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

ICIS (Integrated Compliance Information System) is the Integrated Compliance Information System and provides a database that, when complete, will contain integrated Enforcement and Compliance information across most of EPA's programs. The vision for ICIS is to replace EPA's independent databases that contain Enforcement data with a single repository for that information. Currently, ICIS contains all Federal Administrative and Judicial enforcement actions. This information is maintained in ICIS by EPA in the Regional offices and it Headquarters. A future release of ICIS will replace the Permit Compliance System (PCS) which supports the NPDES and will integrate that information with Federal actions already in the system. ICIS also has the capability to track other activities occurring in the Region that support Compliance and Enforcement programs. These include; Incident Tracking, Compliance Assistance, and Compliance Monitoring.

Alternate City,St,Zip: SAN FRANCISCO, CA 94124

Background Info: The approximately one-third acre site is located in a heavily

industrialized section of San Francisco. Federated Metals Corporation owned and operated a secondary metals plant at the site. Operations at the site included the production of lead

and brass ingot. Oxides were formed during smelting and removed in the form of slag. It is estimated that about 122 cubic yards of slag were deposited on site. It is also believed that approximately 1500 cubic yards of crushed and washed pre-1950s-style battery boxes were deposited on site. The primary contaminants of concern are lead and mercury.

Completed Document Type: Land Use Restriction - Site Inspection/Visit

Completed Date: 08/17/2012

Comments: DTSC conducted its annual site visit to check the condition of the cap

over contaminated soil and to verify compliance with the Land Use Covenant. The parking lot east and south of the former printing plant building was repaved. In the parking lot area along Marin Street it was observed that an application of coating/patch was damaged. Cracks and signs of deterioration were observed in the parking area west of the building, but no major cracks existed where soil was exposed. There was no evidence of any activities prohibited by the Land Use Convent. The parking area west of the printing plant building will be repaved in September 2012, so the cracks and deterioration will be addressed. When the repaving is conducted the damaged coating/patch observed during the inspection will be redone.

Completed Area Name: PROJECT WIDE Completed Sub Area Name: Not reported

Completed Document Type: Land Use Restriction - Site Inspection/Visit

Completed Date: 08/17/2012

Comments: DTSC conducted its annual site visit to check the condition of the cap

over contaminated soil and to verify compliance with the Land Use Covenant. The parking lot east and south of the former printing plant building was repaved. In the parking lot area along Marin Street it was observed that an application of coating/patch was damaged. Cracks and signs of deterioration were observed in the parking area west of the building, but no major cracks existed where soil was exposed. There was no evidence of any activities prohibited by the Land Use Convent. The parking area west of the printing plant building will be repaved in September 2012, so the cracks and deterioration will be addressed. When the repaving is conducted the damaged coating/patch observed during the inspection will be redone.

Environmental Interest/Information System

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Completed Date: 12/01/1992

Comments: Presence of lead above 1000 ppm and TPH above 200,000 ppm. The last

use of the site was for storage of construction debris. Prior use as a grain milling operation and grain elevator. Aerial photos from 1948 shows six railroad spurs across site. Infoimage bought the property from the Pennsylvania Avenue Associates in September 1988. Pennsylvania Avenue Associates purchased the site from the Union Pacific Railroad in April 1988. Union Pacific owned the site from at least 1919. Lead in several samples exceeds 1000 ppm and TPH is up to

200,000 ppm.

**FUDS Description Details:** 

The 10.175-acre site is located in the city of San Francisco, in San Francisco County, California. The site is currently used for light industrial uses by a variety of companies, and contains warehouses,

offices, truck loading docks, automobile parki

ing areas, roads and utilities.

**FUDS History Details:** 

The site was established in 1943 and was known as the Third and Army Street Properties. The site was used as a tactical installation by the U.S. Air Force. In 1944, 0.172 acres of land were released for

disposal. The remaining 10.003 lease acres were

e declared excess on 30 August 1945.

Background Info: This site is listed in the Department of Toxic Substances

Control (DTSC) files as 2222 23rd Street and 2222 Limited Inc.
The Hueter Brothers Company and J. J. Wentworth owned the site
from 1858 to 1930. It was sold to Dutch Boy (1930- 1934) and
then to National Lead Company which operated on-site to 1971.
These previous owners manufactured paints, lacquers, and
varnishes. In 1971, the property was sold to Synanon,

2222 LIMITED (Continued) S100269947

Incorporated for use as an automotive repair, ceramic, print and other workshops. These activities involved use of metallic glazes and solvents. The site was sold in 1980 to 2222 Limited Street, Inc. The site had metal contamination consisting

primarily of lead and zinc.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and

corrective action activities required under RCRA.

Environmental Interest/Information System

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Environmental Interest/Information System

California Hazardous Waste Tracking System - Datamart (HWTS-DATAMART) provides California with information on hazardous waste shipments for generators, transporters, and treatment, storage, and disposal facilities.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

RCRAInfo is a national information system that supports the Resource Conservation and Recovery Act (RCRA) program through the tracking of events and activities related to facilities that generate, transport, and treat, store, or dispose of hazardous waste. RCRAInfo allows RCRA program staff to track the notification, permit, compliance, and corrective action activities required under RCRA.

Background Info: The site was the former location of the Polita-Hawley Forge

plant which went bankrupt in 1988. Due to historical past uses, metals and petroleum hydrocarbons were released to the soil.

Comments Date: 03171988

Comments: Completed Site Screening. Site cleanup prior to transfer to new

Comments Date: 03171988

Comments: owners (Hawley Forge in bankruptcy); preliminary assessment

Comments Date: 03171988

Comments: required based on lack of information.

Comments Date: 03231992

Comments: Completed PEA. Soil contaminated with nickel and petroleum

Comments Date: 03231992

Comments: hydrocarbons was moved in the late 1980's by the previous owner.

Comments Date: 03231992

Comments: About 400 cubic yards from an adjacent remediated parcel were

Comments Date: 03231992

Comments: hauled off and 100 cubic yards were left in the site building.

Comments Date: 04231993

Completed RA. The removal included vacuuming 10 tons of dust Comments:

Comments Date: 04231993

Comments: from the building, building demolition, well installation, tank

Comments Date: 04231993

Comments: removal, and excavation and disposal of 4300 tons of soil, and

Comments Date: 04231993

Comments: 25,000 cubic feet concrete corrugated steel. Contamination was

Comments Date: 04231993

Comments: nickel, lead, chromium, copper and zinc. Cleanup was done to

Comments Date: 04231993

health-based standards. Groundwater monitoring wells were Comments:

Comments Date: 04231993

installed and a Bond posted for one year's monitoring to ensure Comments:

Comments Date:

Comments: levels remain below Maximum Contaminant Levels (MCL).

Comments Date: 04261993 Certified Site. Comments: Comments Date: 06191992

Comments: The Hazardous Ranking System score (US EPA) is 3.85. The site

Comments Date: 06191992

Comments: is a vacant 5-part warehouse. The surrounding neighborhood is

Comments Date: 06191992

primarily industrial with numerous food processing and Comments:

Comments Date: 06191992

distribution businesses. The nearest residences are 1/3 mile to Comments:

Comments Date: 06191992 Comments:

the west, uphill beyond the 101 freeway. Although there is no

Comments Date: 06191992

Comments: evidence of nearby groundwater usage, the water is assumed to be

Comments Date: 06191992

Comments: used for industrial purposes 1.5 miles away. Soil contaminated

Comments Date: 06191992

Comments: with nickel and petroleum hydrocarbons totals roughly 2000 yd3.

Comments Date: 06191992

Investigation is ongoing to characterize the extent of Comments:

Comments Date: 06191992

Comments: contamination and an RI/FS is being prepared for DTSC review. Comments Date: 06191992

The removal will then begin with the vacuuming of nickel dust Comments:

Comments Date: 06191992

Comments:

from the rafters. The City approved its CEQA Negative Comments Date: 06191992

Comments: Declaration for the remediation and building construction after

Comments Date: 06191992

Comments:

no comments were received during the public comment period. Comments Date:

Comments: Completed Site Screening. The 1-1/2 acre site contains nickel Comments Date: 08291991

and total petroleum hydrocarbons (TPH) in soil and groundwater Comments:

Comments Date: 08291991

Comments: at low levels ("just over detection limits" except for

Comments Date: 08291991

significant TPH). The former Hawley-Forge site generated metals Comments:

Comments Date: 08291991

Comments: and oils, but in 1988, contaminated soil was removed to one area

Completed Area Name: PROJECT WIDE Completed Sub Area Name: Not reported

Completed Document Type: Removal Action Completion Report

Completed Date: 04/23/1993

Comments: Completed RA. The removal included vacuuming 10 tons of dust from

the building, building demolition, well installation, tank removal, and excavation and disposal of 4300 tons of soil, and 25,000 cubic feet concrete corrugated steel. Contamination was nickel, lead, chromium, copper and zinc. Cleanup was done to health-based standards. Groundwater monitoring wells were installed and a Bond posted for one year's monitoring to ensure levels remain below

Maximum Contaminant Levels (MCL).

**Under Investigation** 

Potential Contaminants of Concern: Polynuclear aromatic hydrocarbons (PAHs)

Site History: Power plant facility is closed. Site has been broken into several

areas for purpose of investigation and remedial planning. There are multiple areas being investigated at same time. Sediment investigation currently underway. Material found in sediments is legacy from late 1800s to mid-1930s when manufactured gas plant and other industries were operating. An FS/RAP for the Northeast Area of the site is under review by the Water Board staff. A proposed remedy

for this area is expected to the public early this fall.

Alternate Address: PIER 70

Alternate City, St, Zip: SAN FRANCISCO, CA 94111

Background Info: The current address for

The current address for Pier 70 is at the beginning of 20th Street in San Francisco, California, Illinois Street borders the site to the west, 22nd Street and the Potrero Power Plant to the south, China (Central) Basin to the north, and the San Francisco Bay to the east. There are many buildings associated with the Pier. Several of the buildings, 6, 12 (operating area 2 is inside 12), 14 (a storage shed), and 21 (operational area 1 is inside building 21), and a fire damaged area (between Pier 7 and Pier 8) underwent cleanup in 1981, 1984, and 1986 under the oversight of the Department of Toxic Substances Control (DTSC). In 1981, IT Corporation conducted a cleanup of polychlorinated biphenyls (PCBs) at the site. Old leaking transformers containing PCBs were removed from operational areas 1 and 2, and the fire damaged area. Walls, floors, and asphalt driveways were sampled with wipes. PCB (Arochlor 1260) results before cleanup ranged from 17 to 5,888 ug/wipe in operational area 1, from 3 to 229 ug/wipe in operational area 2, and from less than 1 microgram per wipe are (ug/wipe area) to 49,200 ug/wipe area in the fire damaged area. Samples taken from the floor area (asphalt floor) ranged from non-detect to 62 parts per million (ppm). Aroclor 1260 was not detected in samples of mud, water or mussels in the immediate area. After decontamination, confirmation samples were taken in operational area 1 and 2. Samples collected in operational area 1 ranged from 4 to 80 ug/wipe, and from less than 1 ug/wipe 32 ug/wipe for operational area 2. The fire damaged area results ranged from non-detect to 82 ug/wipe. The asphalt confirmation samples were all within

**EDR ID Number** 

residential cleanup levels. The cleanup level for Aroclor 1260 was 220 ug/wipe area for residential and 1,000 ug/wipe area for industrial. Building 6 was used to store some hazardous materials. Surface soil (zero to six inches depth) contained lead up to 3,340 ppm, copper up to 210 ppm, zinc up to 3,040 ppm, and polycyclic aromatic hydrocarbons (PAHs) up to 18.9 ppm. Subsurface soil (20 inches depth) sample results showed lead up to 2,300 ppm, copper up to 4,000 ppm and zinc up to 2,500 ppm. The soil was excavated to a one to two-feet depth in front of the loading dock and approximately ten feet out from the edge of the dock. The area was repaved. No confirmation sample results are available. In 1986, lead and cadmium were found in heavy dust deposits on wall beams and the floor of building 6. Before the 1986 cleanup, composite samples were taken of the floor and wall beam dust. Results showed up to 7,900 milligrams/kilograms (mg/kg) lead, 21,000 mg/kg zinc, 47 mg/kg cadmium, and 1,300 mg/kg copper. Only lead was above the United States Environmental Protection Agency (US EPA) Region 9 residential and industrial PRGs of 400 mg/kg and 750 mg/kg respectively. The dust was removed and the building was decontaminated by high-pressure water scrubbing of the walls, floor, and ceiling

Comments: Petroleum hydrocarbons in soil and groundwater onsite exceeds

applicable screening levels. The petroleum exclusion (California Health and Safety Code; Chapter 6.8, section 25317) prohibits DTSC

oversight at this property. Elevated concentrations of nickel, chromium, and asbestos may in part be due to naturally-occurring serpentine soil onsite. Naturally-occurring materials do not fall under the purview of Chapter 6.8. Therefore, DTSC recommends referral to the Local Oversight Program (San Francisco Department of Public Health) in order to adequately define the extent of petroleum hydrocarbon contamination in soil and groundwater. No further DTSC

actions are warranted at this time.

SAN FRANCISCO City:

State: CA EPA Region: 9

SAN FRANCISCO County:

Congressional District: 08

US Army District: Sacramento District (SPK)

Fiscal Year: 2009

Telephone: 916-557-7461 NPL Status: Not Listed RAB: Not reported CTC: 14031.7407805871

Current Owner:

**FUDS Description Details:** 

The 4.267-acre site is in the city of San Francisco, California. A large 3-story building occupies the northern half of the property, which was used as a vocational school until 1989, when earthquake

damage closed the school. Four tanks were installe

ed and used by the San Francisco School District. During renovation by the District after the earthquake, a hole was dug approximately 5 feet

S104025408

under the sidewalk. A strong petroleum odor was encountered and the

excavation was refilled. A 0.095-acre lo

ot is currently used as a storage yard for Anderson, Rowe and Buckley

Construction Co.

**FUDS History Details:** 

DoD use began in 1941 with the acquisition of 4.267 lease acres from various owners. The site contained a building and storage yard previously built by Ford Motor Company that was used as office and

storage space by the Army. In 1948, the property wa

as sold to the San Francisco Unified School District. There are a total of 10 underground storage tanks (USTs) remaining on site as well

as reported soil contamination from three leaking tanks.

Completed Area Name: PROJECT WIDE Completed Sub Area Name: Not reported

Completed Document Type: Land Use Restriction - Site Inspection/Visit

Completed Date: 08/03/2012

Comments: DTSC conducted its annual site visit to check the condition of the

cap and to verify compliance with the restrictions and requirements of the Land Use Covenant. The building exterior and sidewalks appeared to be in good condition, with no visible breaches, cracks or pitting. However, since housing is currently over the Site, the cap and the vapor barriers are inaccessible for inspection; also, it was observed that all Site uses currently comply with the terms of the

Land Use Covenant.

To maintain currency of the following federal and state databases, EDR contacts the appropriate governmental agency on a monthly or quarterly basis, as required.

**Number of Days to Update:** Provides confirmation that EDR is reporting records that have been updated within 90 days from the date the government agency made the information available to the public.

## STANDARD ENVIRONMENTAL RECORDS

#### Federal NPL site list

NPL: National Priority List

National Priorities List (Superfund). The NPL is a subset of CERCLIS and identifies over 1,200 sites for priority cleanup under the Superfund Program. NPL sites may encompass relatively large areas. As such, EDR provides polygon coverage for over 1,000 NPL site boundaries produced by EPA's Environmental Photographic Interpretation Center (EPIC) and regional EPA offices.

Proposed NPL: Proposed National Priority List Sites

A site that has been proposed for listing on the National Priorities List through the issuance of a proposed rule in the Federal Register. EPA then accepts public comments on the site, responds to the comments, and places on the NPL those sites that continue to meet the requirements for listing.

Number of Days to Update: 70 Next Scheduled EDR Contact: 04/22/2013
Data Release Frequency: Quarterly

NPL LIENS: Federal Superfund Liens

Federal Superfund Liens. Under the authority granted the USEPA by CERCLA of 1980, the USEPA has the authority to file liens against real property in order to recover remedial action expenditures or when the property owner received notification of potential liability. USEPA compiles a listing of filed notices of Superfund Liens.

#### Federal Delisted NPL site list

**DELISTED NPL: National Priority List Deletions** 

The National Oil and Hazardous Substances Pollution Contingency Plan (NCP) establishes the criteria that the EPA uses to delete sites from the NPL. In accordance with 40 CFR 300.425.(e), sites may be deleted from the NPL where no further response is appropriate.

#### Federal CERCLIS list

CERCLIS: Comprehensive Environmental Response, Compensation, and Liability Information System

CERCLIS contains data on potentially hazardous waste sites that have been reported to the USEPA by states, municipalities, private companies and private persons, pursuant to Section 103 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA). CERCLIS contains sites which are either proposed to or on the National Priorities List (NPL) and sites which are in the screening and assessment phase for possible inclusion on the NPL.

#### Federal CERCLIS NFRAP site List

CERCLIS-NFRAP: CERCLIS No Further Remedial Action Planned

Archived sites are sites that have been removed and archived from the inventory of CERCLIS sites. Archived status indicates that, to the best of EPA's knowledge, assessment at a site has been completed and that EPA has determined no further steps will be taken to list this site on the National Priorities List (NPL), unless information indicates this decision was not appropriate or other considerations require a recommendation for listing at a later time. This decision does not necessarily mean that there is no hazard associated with a given site; it only means that, based upon available information, the location is not judged to be a potential NPL site.

### Federal RCRA non-CORRACTS TSD facilities list

RCRA-TSDF: RCRA - Treatment, Storage and Disposal

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Transporters are individuals or entities that move hazardous waste from the generator offsite to a facility that can recycle, treat, store, or dispose of the waste. TSDFs treat, store, or dispose of the waste.

Date of Government Version: 02/12/2013 Date Data Arrived at EDR: 02/15/2013 Date Made Active in Reports: 02/27/2013

Next Scheduled EDR Contact: 04/15/2013 Data Release Frequency: Quarterly

### Federal RCRA generators list

RCRA-LQG: RCRA - Large Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Large quantity generators (LQGs) generate over 1,000 kilograms (kg) of hazardous waste, or over 1 kg of acutely hazardous waste per month.

RCRA-SQG: RCRA - Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Small quantity generators (SQGs) generate between 100 kg and 1,000 kg of hazardous waste per month.

Date of Government Version: 02/12/2013 Date Data Arrived at EDR: 02/15/2013 Date Made Active in Reports: 02/27/2013

Next Scheduled EDR Contact: 04/15/2013 Data Release Frequency: Quarterly

RCRA-CESQG: RCRA - Conditionally Exempt Small Quantity Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Conditionally exempt small quantity generators (CESQGs) generate less than 100 kg of hazardous waste, or less than 1 kg of acutely hazardous waste per month.

Date of Government Version: 02/12/2013 Date Data Arrived at EDR: 02/15/2013 Date Made Active in Reports: 02/27/2013

#### Federal institutional controls / engineering controls registries

US ENG CONTROLS: Engineering Controls Sites List

A listing of sites with engineering controls in place. Engineering controls include various forms of caps, building foundations, liners, and treatment methods to create pathway elimination for regulated substances to enter environmental media or effect human health.

Date of Government Version: 12/19/2012 Date Data Arrived at EDR: 12/26/2012 Date Made Active in Reports: 02/27/2013

Number of Days to Update: 63

Source: Environmental Protection Agency

Telephone: 703-603-0695 Last EDR Contact: 12/10/2012

Next Scheduled EDR Contact: 03/25/2013 Data Release Frequency: Varies

US INST CONTROL: Sites with Institutional Controls

A listing of sites with institutional controls in place. Institutional controls include administrative measures, such as groundwater use restrictions, construction restrictions, property use restrictions, and post remediation care requirements intended to prevent exposure to contaminants remaining on site. Deed restrictions are generally required as part of the institutional controls.

Date of Government Version: 12/19/2012 Date Data Arrived at EDR: 12/26/2012 Date Made Active in Reports: 02/27/2013

Next Scheduled EDR Contact: 05/20/2013 Data Release Frequency: Quarterly

State- and tribal - equivalent CERCLIS

### **ENVIROSTOR:** EnviroStor Database

The Department of Toxic Substances Control's (DTSC's) Site Mitigation and Brownfields Reuse Program's (SMBRP's) EnviroStor database identifes sites that have known contamination or sites for which there may be reasons to investigate further. The database includes the following site types: Federal Superfund sites (National Priorities List (NPL)); State Response, including Military Facilities and State Superfund; Voluntary Cleanup; and School sites. EnviroStor provides similar information to the information that was available in CalSites, and provides additional site information, including, but not limited to, identification of formerly-contaminated properties that have been released for reuse, properties where environmental deed restrictions have been recorded to prevent inappropriate land uses, and risk characterization information that is used to assess potential impacts to public health and the environment at contaminated sites.

Date of Government Version: 12/05/2012 Date Data Arrived at EDR: 12/06/2012 Date Made Active in Reports: 01/15/2013

### ADDITIONAL ENVIRONMENTAL RECORDS

#### Local Brownfield lists

US BROWNFIELDS: A Listing of Brownfields Sites

Brownfields are real property, the expansion, redevelopment, or reuse of which may be complicated by the presence or potential presence of a hazardous substance, pollutant, or contaminant. Cleaning up and reinvesting in these properties takes development pressures off of undeveloped, open land, and both improves and protects the environment. Assessment, Cleanup and Redevelopment Exchange System (ACRES) stores information reported by EPA Brownfields grant recipients on brownfields properties assessed or cleaned up with grant funding as well as information on Targeted Brownfields Assessments performed by EPA Regions. A listing of ACRES Brownfield sites is obtained from Cleanups in My Community. Cleanups in My Community provides information on Brownfields properties for which information is reported back to EPA, as well as areas served by Brownfields grant programs.

Date of Government Version: 12/10/2012 Date Data Arrived at EDR: 12/11/2012 Date Made Active in Reports: 12/20/2012

## Local Lists of Hazardous waste / Contaminated Sites

## US CDL: Clandestine Drug Labs

A listing of clandestine drug lab locations. The U.S. Department of Justice ("the Department") provides this web site as a public service. It contains addresses of some locations where law enforcement agencies reported they found chemicals or other items that indicated the presence of either clandestine drug laboratories or dumpsites. In most cases, the source of the entries is not the Department, and the Department has not verified the entry and does not guarantee its accuracy. Members of the public must verify the accuracy of all entries by, for example, contacting local law enforcement and local health departments.

Date of Government Version: 11/14/2012 Date Data Arrived at EDR: 12/11/2012 Date Made Active in Reports: 02/15/2013

Number of Days to Update: 66

Source: Drug Enforcement Administration

## DEED: Deed Restriction Listing

Site Mitigation and Brownfields Reuse Program Facility Sites with Deed Restrictions & Hazardous Waste Management Program Facility Sites with Deed / Land Use Restriction. The DTSC Site Mitigation and Brownfields Reuse Program (SMBRP) list includes sites cleaned up under the program's oversight and generally does not include current or former hazardous waste facilities that required a hazardous waste facility permit. The list represents deed restrictions that are active. Some sites have multiple deed restrictions. The DTSC Hazardous Waste Management Program (HWMP) has developed a list of current or former hazardous waste facilities that have a recorded land use restriction at the local county recorder's office. The land use restrictions on this list were required by the DTSC HWMP as a result of the presence of hazardous substances that remain on site after the facility (or part of the facility) has been closed or cleaned up. The types of land use restriction include deed notice, deed restriction, or a land use restriction that binds current and future owners.

## Other Ascertainable Records

#### RCRA NonGen / NLR: RCRA - Non Generators

RCRAInfo is EPA's comprehensive information system, providing access to data supporting the Resource Conservation and Recovery Act (RCRA) of 1976 and the Hazardous and Solid Waste Amendments (HSWA) of 1984. The database includes selective information on sites which generate, transport, store, treat and/or dispose of hazardous waste as defined by the Resource Conservation and Recovery Act (RCRA). Non-Generators do not presently generate hazardous waste.

#### UMTRA: Uranium Mill Tailings Sites

Uranium ore was mined by private companies for federal government use in national defense programs. When the mills shut down, large piles of the sand-like material (mill tailings) remain after uranium has been extracted from the ore. Levels of human exposure to radioactive materials from the piles are low; however, in some cases tailings were used as construction materials before the potential health hazards of the tailings were recognized.

#### HIST FTTS: FIFRA/TSCA Tracking System Administrative Case Listing

A complete administrative case listing from the FIFRA/TSCA Tracking System (FTTS) for all ten EPA regions. The information was obtained from the National Compliance Database (NCDB). NCDB supports the implementation of FIFRA (Federal Insecticide, Fungicide, and Rodenticide Act) and TSCA (Toxic Substances Control Act). Some EPA regions are now closing out records. Because of that, and the fact that some EPA regions are not providing EPA Headquarters with updated records, it was decided to create a HIST FTTS database. It included records that may not be included in the newer FTTS database updates. This database is no longer updated.

Date of Government Version: 10/19/2006 Date Data Arrived at EDR: 03/01/2007 Date Made Active in Reports: 04/10/2007

Number of Days to Update: 40

Source: Environmental Protection Agency

## RAATS: RCRA Administrative Action Tracking System

RCRA Administration Action Tracking System. RAATS contains records based on enforcement actions issued under RCRA pertaining to major violators and includes administrative and civil actions brought by the EPA. For administration actions after September 30, 1995, data entry in the RAATS database was discontinued. EPA will retain a copy of the database for historical records. It was necessary to terminate RAATS because a decrease in agency resources made it impossible to continue to update the information contained in the database.

Date of Government Version: 04/17/1995 Date Data Arrived at EDR: 07/03/1995 Date Made Active in Reports: 08/07/1995

Telephone: 202-564-4104 Last EDR Contact: 06/02/2008

Next Scheduled EDR Contact: 09/01/2008 Data Release Frequency: No Update Planned

RMP: Risk Management Plans

When Congress passed the Clean Air Act Amendments of 1990, it required EPA to publish regulations and guidance for chemical accident prevention at facilities using extremely hazardous substances. The Risk Management Program Rule (RMP Rule) was written to implement Section 112(r) of these amendments. The rule, which built upon existing industry codes and standards, requires companies of all sizes that use certain flammable and toxic substances to develop a Risk Management Program, which includes a(n): Hazard assessment that details the potential effects of an accidental release, an accident history of the last five years, and an evaluation of worst-case and alternative accidental releases; Prevention program that includes safety precautions and maintenance, monitoring, and employee training measures; and Emergency response program that spells out emergency health care, employee training measures and procedures for informing the public and response agencies (e.g the fire department) should an accident occur.

2020 COR ACTION: 2020 Corrective Action Program List

The EPA has set ambitious goals for the RCRA Corrective Action program by creating the 2020 Corrective Action Universe. This RCRA cleanup baseline includes facilities expected to need corrective action. The 2020 universe contains a wide variety of sites. Some properties are heavily contaminated while others were contaminated but have since been cleaned up. Still others have not been fully investigated yet, and may require little or no remediation. Inclusion in the 2020 Universe does not necessarily imply failure on the part of a facility to meet its RCRA obligations.

US AIRS (AFS): Aerometric Information Retrieval System Facility Subsystem (AFS)

The database is a sub-system of Aerometric Information Retrieval System (AIRS). AFS contains compliance data on air pollution point sources regulated by the U.S. EPA and/or state and local air regulatory agencies. This information comes from source reports by various stationary sources of air pollution, such as electric power plants, steel mills, factories, and universities, and provides information about the air pollutants they produce. Action, air program, air program pollutant, and general level plant data. It is used to track emissions and compliance data from industrial plants.

#### EPA WATCH LIST: EPA WATCH LIST

EPA maintains a "Watch List" to facilitate dialogue between EPA, state and local environmental agencies on enforcement matters relating to facilities with alleged violations identified as either significant or high priority. Being on the Watch List does not mean that the facility has actually violated the law only that an investigation by EPA or a state or local environmental agency has led those organizations to allege that an unproven violation has in fact occurred. Being on the Watch List does not represent a higher level of concern regarding the alleged violations that were detected, but instead indicates cases requiring additional dialogue between EPA, state and local agencies - primarily because of the length of time the alleged violation has gone unaddressed or unresolved.

## **EDR HIGH RISK HISTORICAL RECORDS**

## **EDR Exclusive Records**

## EDR MGP: EDR Proprietary Manufactured Gas Plants

The EDR Proprietary Manufactured Gas Plant Database includes records of coal gas plants (manufactured gas plants) compiled by EDR's researchers. Manufactured gas sites were used in the United States from the 1800's to 1950's to produce a gas that could be distributed and used as fuel. These plants used whale oil, rosin, coal, or a mixture of coal, oil, and water that also produced a significant amount of waste. Many of the byproducts of the gas production, such as coal tar (oily waste containing volatile and non-volatile chemicals), sludges, oils and other compounds are potentially hazardous to human health and the environment. The byproduct from this process was frequently disposed of directly at the plant site and can remain or spread slowly, serving as a continuous source of soil and groundwater contamination.

## EDR US Hist Auto Stat: EDR Exclusive Historic Gas Stations

EDR has searched selected national collections of business directories and has collected listings of potential gas station/filling station/service station sites that were available to EDR researchers. EDR's review was limited to those categories of sources that might, in EDR's opinion, include gas station/filling station/service station establishments. The categories reviewed included, but were not limited to gas, gas station, gasoline station, filling station, auto, automobile repair, auto service station, service station, etc. This database falls within a category of information EDR classifies as "High Risk Historical Records", or HRHR. EDR's HRHR effort presents unique and sometimes proprietary data about past sites and operations that typically create environmental concerns, but may not show up in current government records searches.

#### OTHER DATABASE(S)

Depending on the geographic area covered by this report, the data provided in these specialty databases may or may not be complete. For example, the existence of wetlands information data in a specific report does not mean that all wetlands in the area covered by the report are included. Moreover, the absence of any reported wetlands information does not necessarily mean that wetlands do not exist in the area covered by the report.

CT MANIFEST: Hazardous Waste Manifest Data

Facility and manifest data. Manifest is a document that lists and tracks hazardous waste from the generator through transporters to a tsd facility.

Oil/Gas Pipelines: This data was obtained by EDR from the USGS in 1994. It is referred to by USGS as GeoData Digital Line Graphs from 1:100,000-Scale Maps. It was extracted from the transportation category including some oil, but primarily gas pipelines.

Electric Power Transmission Line Data Source: Rextag Strategies Corp.

Telephone: (281) 769-2247

U.S. Electric Transmission and Power Plants Systems Digital GIS Data

Sensitive Receptors: There are individuals deemed sensitive receptors due to their fragile immune systems and special sensitivity to environmental discharges. These sensitive receptors typically include the elderly, the sick, and children. While the location of all sensitive receptors cannot be determined, EDR indicates those buildings and facilities - schools, daycares, hospitals, medical centers, and nursing homes - where individuals who are sensitive receptors are likely to be located.

#### AHA Hospitals:

Source: American Hospital Association, Inc.

Telephone: 312-280-5991

The database includes a listing of hospitals based on the American Hospital Association's annual survey of hospitals.

Medical Centers: Provider of Services Listing

Source: Centers for Medicare & Medicaid Services

Telephone: 410-786-3000

A listing of hospitals with Medicare provider number, produced by Centers of Medicare & Medicaid Services,

a federal agency within the U.S. Department of Health and Human Services.

#### **Nursing Homes**

Source: National Institutes of Health

Telephone: 301-594-6248

Information on Medicare and Medicaid certified nursing homes in the United States.

## **Public Schools**

Source: National Center for Education Statistics

Telephone: 202-502-7300

The National Center for Education Statistics' primary database on elementary

and secondary public education in the United States. It is a comprehensive, annual, national statistical database of all public elementary and secondary schools and school districts, which contains data that are comparable across all states.

Private Schools

Source: National Center for Education Statistics

Telephone: 202-502-7300

The National Center for Education Statistics' primary database on private school locations in the United States.

Daycare Centers: Licensed Facilities Source: Department of Social Services

Telephone: 916-657-4041

Flood Zone Data: This data, available in select counties across the country, was obtained by EDR in 2003 & 2011 from the Federal Emergency Management Agency (FEMA). Data depicts 100-year and 500-year flood zones as defined by FEMA.

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002 and 2005 from the U.S. Fish and Wildlife Service.

Scanned Digital USGS 7.5' Topographic Map (DRG)

Source: United States Geologic Survey

A digital raster graphic (DRG) is a scanned image of a U.S. Geological Survey topographic map. The map images are made by scanning published paper maps on high-resolution scanners. The raster image is georeferenced and fit to the Universal Transverse Mercator (UTM) projection.

EDR's GeoCheck Physical Setting Source Addendum is provided to assist the environmental professional in forming an opinion about the impact of potential contaminant migration.

Assessment of the impact of contaminant migration generally has two principal investigative components:

- 1. Groundwater flow direction, and
- 2. Groundwater flow velocity.

Groundwater flow direction may be impacted by surface topography, hydrology, hydrogeology, characteristics of the soil, and nearby wells. Groundwater flow velocity is generally impacted by the nature of the geologic strata.

## **GROUNDWATER FLOW DIRECTION INFORMATION**

Groundwater flow direction for a particular site is best determined by a qualified environmental professional using site-specific well data. If such data is not reasonably ascertainable, it may be necessary to rely on other sources of information, such as surface topographic information, hydrologic information, hydrogeologic data collected on nearby properties, and regional groundwater flow information (from deep aquifers).

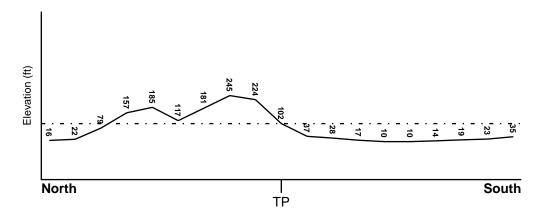

## **TOPOGRAPHIC INFORMATION**

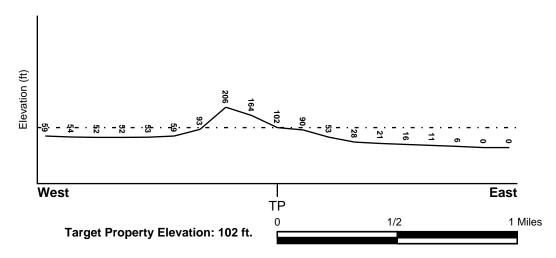

Surface topography may be indicative of the direction of surficial groundwater flow. This information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

## TARGET PROPERTY TOPOGRAPHY

General Topographic Gradient: General SE

#### SURROUNDING TOPOGRAPHY: ELEVATION PROFILES

Source: Topography has been determined from the USGS 7.5' Digital Elevation Model and should be evaluated on a relative (not an absolute) basis. Relative elevation information between sites of close proximity should be field verified.

## HYDROLOGIC INFORMATION

Surface water can act as a hydrologic barrier to groundwater flow. Such hydrologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

Refer to the Physical Setting Source Map following this summary for hydrologic information (major waterways and bodies of water).

## **HYDROGEOLOGIC INFORMATION**

Hydrogeologic information obtained by installation of wells on a specific site can often be an indicator of groundwater flow direction in the immediate area. Such hydrogeologic information can be used to assist the environmental professional in forming an opinion about the impact of nearby contaminated properties or, should contamination exist on the target property, what downgradient sites might be impacted.

## Site-Specific Hydrogeological Data\*:

Search Radius: 1.25 miles Status: Not found

## **AQUIFLOW®**

Search Radius: 1.000 Mile.

EDR has developed the AQUIFLOW Information System to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted by environmental professionals to regulatory authorities at select sites and has extracted the date of the report, groundwater flow direction as determined hydrogeologically, and the depth to water table.

## **GROUNDWATER FLOW VELOCITY INFORMATION**

Groundwater flow velocity information for a particular site is best determined by a qualified environmental professional using site specific geologic and soil strata data. If such data are not reasonably ascertainable, it may be necessary to rely on other sources of information, including geologic age identification, rock stratigraphic unit and soil characteristics data collected on nearby properties and regional soil information. In general, contaminant plumes move more quickly through sandy-gravelly types of soils than silty-clayey types of soils.

## GEOLOGIC INFORMATION IN GENERAL AREA OF TARGET PROPERTY

Geologic information can be used by the environmental professional in forming an opinion about the relative speed at which contaminant migration may be occurring.

## **ROCK STRATIGRAPHIC UNIT**

## DOMINANT SOIL COMPOSITION IN GENERAL AREA OF TARGET PROPERTY

The U.S. Department of Agriculture's (USDA) Soil Conservation Service (SCS) leads the National Cooperative Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. The following information is based on Soil Conservation Service SSURGO data.

Soil Map ID: 1

Soil Component Name: Urban land

Soil Surface Texture:

Hydrologic Group: Class D - Very slow infiltration rates. Soils are clayey, have a high

water table, or are shallow to an impervious layer.

Soil Drainage Class: Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Not Reported

Depth to Bedrock Min: > 0 inches

Depth to Watertable Min: > 0 inches

	Soil Layer Information								
	Boui	Boundary Classification				Saturated hydraulic			
Layer	Upper	Lower	Soil Texture Class	AASHTO Group	Unified Soil		Soil Reaction (pH)		
1	0 inches	5 inches		Not reported	Not reported	Max: 0.01 Min: 0	Max: Min:		

Soil Map ID: 2

Soil Component Name: Urban land

Soil Surface Texture:

Hydrologic Group: Class D - Very slow infiltration rates. Soils are clayey, have a high

water table, or are shallow to an impervious layer.

Soil Drainage Class: Hydric Status: Not hydric

Corrosion Potential - Uncoated Steel: Not Reported

## **LOCAL / REGIONAL WATER AGENCY RECORDS**

EDR Local/Regional Water Agency records provide water well information to assist the environmental professional in assessing sources that may impact ground water flow direction, and in forming an opinion about the impact of contaminant migration on nearby drinking water wells.

## PHYSICAL SETTING SOURCE RECORDS SEARCHED

#### **TOPOGRAPHIC INFORMATION**

USGS 7.5' Digital Elevation Model (DEM)

Source: United States Geologic Survey

EDR acquired the USGS 7.5' Digital Elevation Model in 2002 and updated it in 2006. The 7.5 minute DEM corresponds to the USGS 1:24,000- and 1:25,000-scale topographic quadrangle maps. The DEM provides elevation data with consistent elevation units and projection.

Scanned Digital USGS 7.5' Topographic Map (DRG)

Source: United States Geologic Survey

A digital raster graphic (DRG) is a scanned image of a U.S. Geological Survey topographic map. The map images are made by scanning published paper maps on high-resolution scanners. The raster image is georeferenced and fit to the Universal Transverse Mercator (UTM) projection.

### HYDROLOGIC INFORMATION

Flood Zone Data: This data, available in select counties across the country, was obtained by EDR in 2003 & 2011 from the Federal Emergency Management Agency (FEMA). Data depicts 100-year and 500-year flood zones as defined by FEMA.

NWI: National Wetlands Inventory. This data, available in select counties across the country, was obtained by EDR in 2002 and 2005 from the U.S. Fish and Wildlife Service.

### HYDROGEOLOGIC INFORMATION

AQUIFLOW<sup>R</sup> Information System

Source: EDR proprietary database of groundwater flow information

EDR has developed the AQUIFLOW Information System (AIS) to provide data on the general direction of groundwater flow at specific points. EDR has reviewed reports submitted to regulatory authorities at select sites and has extracted the date of the report, hydrogeologically determined groundwater flow direction and depth to water table information.

### **GEOLOGIC INFORMATION**

Geologic Age and Rock Stratigraphic Unit

Source: P.G. Schruben, R.E. Arndt and W.J. Bawiec, Geology of the Conterminous U.S. at 1:2,500,000 Scale - A digital representation of the 1974 P.B. King and H.M. Beikman Map. USGS Digital Data Series DDS - 11 (1994).

STATSGO: State Soil Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Services

The U.S. Department of Agriculture's (USDA) Natural Resources Conservation Service (NRCS) leads the national Conservation Soil Survey (NCSS) and is responsible for collecting, storing, maintaining and distributing soil survey information for privately owned lands in the United States. A soil map in a soil survey is a representation of soil patterns in a landscape. Soil maps for STATSGO are compiled by generalizing more detailed (SSURGO) soil survey maps.

SSURGO: Soil Survey Geographic Database

Source: Department of Agriculture, Natural Resources Conservation Services (NRCS)

Telephone: 800-672-5559

SSURGO is the most detailed level of mapping done by the Natural Resources Conservation Services, mapping scales generally range from 1:12,000 to 1:63,360. Field mapping methods using national standards are used to construct the soil maps in the Soil Survey Geographic (SSURGO) database. SSURGO digitizing duplicates the original soil survey maps. This level of mapping is designed for use by landowners, townships and county natural resource planning and management.

## PHYSICAL SETTING SOURCE RECORDS SEARCHED

### LOCAL / REGIONAL WATER AGENCY RECORDS

### FEDERAL WATER WELLS

PWS: Public Water Systems

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Public Water System data from the Federal Reporting Data System. A PWS is any water system which provides water to at least 25 people for at least 60 days annually. PWSs provide water from wells, rivers and other sources.

PWS ENF: Public Water Systems Violation and Enforcement Data

Source: EPA/Office of Drinking Water

Telephone: 202-564-3750

Violation and Enforcement data for Public Water Systems from the Safe Drinking Water Information System (SDWIS) after August 1995. Prior to August 1995, the data came from the Federal Reporting Data System (FRDS).

USGS Water Wells: USGS National Water Inventory System (NWIS)

This database contains descriptive information on sites where the USGS collects or has collected data on surface water and/or groundwater. The groundwater data includes information on wells, springs, and other sources of groundwater.

### STATE RECORDS

Water Well Database

Source: Department of Water Resources

Telephone: 916-651-9648

California Drinking Water Quality Database Source: Department of Health Services

Telephone: 916-324-2319

The database includes all drinking water compliance and special studies monitoring for the state of California since 1984. It consists of over 3,200,000 individual analyses along with well and water system information.

### OTHER STATE DATABASE INFORMATION

California Oil and Gas Well Locations Source: Department of Conservation

Telephone: 916-323-1779

Oil and Gas well locations in the state.

### RADON

State Database: CA Radon

Source: Department of Health Services

Telephone: 916-324-2208 Radon Database for California

Area Radon Information

Source: USGS

Telephone: 703-356-4020

The National Radon Database has been developed by the U.S. Environmental Protection Agency

(USEPA) and is a compilation of the EPA/State Residential Radon Survey and the National Residential Radon Survey. The study covers the years 1986 - 1992. Where necessary data has been supplemented by information collected at

private sources such as universities and research institutions.

**EPA Radon Zones** Source: EPA

Telephone: 703-356-4020

Sections 307 & 309 of IRAA directed EPA to list and identify areas of U.S. with the potential for elevated indoor

radon levels.

## PHYSICAL SETTING SOURCE RECORDS SEARCHED

### OTHER

Airport Landing Facilities: Private and public use landing facilities

Source: Federal Aviation Administration, 800-457-6656

Epicenters: World earthquake epicenters, Richter 5 or greater

Source: Department of Commerce, National Oceanic and Atmospheric Administration

California Earthquake Fault Lines: The fault lines displayed on EDR's Topographic map are digitized quaternary fault lines, prepared in 1975 by the United State Geological Survey. Additional information (also from 1975) regarding activity at specific fault lines comes from California's Preliminary Fault Activity Map prepared by the California Division of Mines and Geology.
